| | TOTAL, METHOD OF FINANCING | \$20,000,000 | \$30,000,000 |

DESCRIPTION / JUSTIFICATION:

TPWD's land and facility holdings include the Austin headquarters complex, field offices, state parks, natural areas, historic sites, wildlife management areas and hatcheries statewide. Many of these facilities are between 30 and 50 years old, and some are even older having been constructed by the Civilian Conservation Corps in the 1930's and 40's. Continued and constant usage combined with harsh environmental conditions at many locations has contributed to diminished quality, deterioration and aging of agency facilities statewide. While recent bond funding has and will allow much needed improvements, many other needs remain and an ongoing investment in TPWD's facility infrastructure will be required to ensure proper upkeep of these agency sites. The agency is also in need of funding for facility development. Investment in these areas would not only increase participation and visitation, but would also enhance revenue generating opportunities at each site.

EXTERNAL/INTERNAL FACTORS:

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE

Agency code: **802**

Agency name:

Parks and Wildlife Department

CODE DESCRIPTION

Excp 2012

Excp 2013

As the department's facilities continue to age and deteriorate from continued and heavy public use, the need for capital construction and repairs will remain significant. The recent State Park System Study, mandated by Rider 31 of the 2008-09 GAA, indicated a need for TPWD to better address infrastructure needs. The study recommended that the department place priority on addressing and improving the condition of existing state park facilities and infrastructure, and also recommended an annual reinvestment of approximately 4 to 6% of the total value of state park assets into repair and replacement projects.

New development is also needed to ensure that sites offer up-to-date and attractive outdoor recreational opportunities that meet user demands. Recent surveys, for example, have shown that the Hispanic demographic may prefer visiting park locations with an extended family, pointing to the need for more group recreational facilities if we are to adequately meet the needs of changing customer demographics and to encourage greater visitation from this constituency. Demand for cabins and covered shelters at state parks also continues to grow.

Debt service is estimated at \$25,205 in 2012 and \$223,459 in 2013.

NOTE: Construction-related performance information for this exceptional item is not available at this time. As the project listing is finalized and scoped, estimated performance impacts will be provided to the LBB and the Governor' Office.

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
 82nd Regular Session, Agency Submission, Version 1
 Automated Budget and Evaluation System of Texas (ABEST)

DATE: **8/24/2010**
 TIME: **7:00:30AM**

Agency code: **802**

Agency name:
Parks and Wildlife Department

| CODE | DESCRIPTION | Excp 2012 | Excp 2013 |
|---------------------------------|--|------------------|------------------|
| | Item Name: Data Center Services (DCS) Cost Increases | | |
| | Item Priority: 2 | | |
| | Includes Funding for the Following Strategy or Strategies: 05-01-02 Information Resources | | |
| OBJECTS OF EXPENSE: | | | |
| 2001 | PROFESSIONAL FEES AND SERVICES | 685,501 | 468,818 |
| | TOTAL, OBJECT OF EXPENSE | \$685,501 | \$468,818 |
| METHOD OF FINANCING: | | | |
| 1 | General Revenue Fund | 685,501 | 468,818 |
| | TOTAL, METHOD OF FINANCING | \$685,501 | \$468,818 |

DESCRIPTION / JUSTIFICATION:

This exceptional item requests funding to cover rate increases associated with the data center contract that TPWD was selected to participate in for the purpose of consolidating state-owned data centers. It also requests restoration of a portion of the DCC related 5% reduction taken during the FY2010-11 biennium. If this request is not approved the result will be inadequate funding to cover data center costs which in turn will have a direct and negative impact on the services delivered to constituents and agency staff.

EXTERNAL/INTERNAL FACTORS:

TPWD was one of the initial 27 agencies identified to participate in the Department of Information Resources consolidation initiative. In April 2007 all agency servers and nine information technology positions were transferred to the selected vendor, IBM. TPWD is also currently in the process of transformation, which involves the physical relocation of IT assets to the new data center in Austin and San Angelo. This data consolidation has resulted in increased costs to TPWD. DIR information indicates that this escalation of costs is expected to continue in the 2012-13 biennium.

The 5% reductions associated with DCC and taken during the 2010-11 biennium were tied to transformation delays and corrections to billing errors, which resulted in lower FY2011 DCC costs for TPWD than were originally budgeted. These amounts are actually delayed costs, portions of which have been pushed into the 2012-13 biennium. The remainder of these delayed costs are expected to be pushed into 2014 and beyond.

|------|------|

DESCRIPTION / JUSTIFICATION:

This exceptional item requests funding in two important areas of law enforcement security and communication: (1) enhanced technology for law enforcement vehicles, and (2) improved radio communications statewide.

IN-VEHICLE TECHNOLOGY: The Law Enforcement and State Park Police in-vehicle automation project consists of the cost to deploy a turnkey computer system in law enforcement vehicles. This will allow game wardens and state park police to perform their job duties while on patrol in remote areas of Texas and put TPWD on par with the Department of Public Safety and city and county law enforcement entities throughout the state. An important feature included in this initiative is real time tracking of department patrol vehicles for improved officer safety. Additionally, job efficiency will be greatly improved by providing access to common technologies such as laptops, internet, email and network resources. Game Wardens and Officers will also have the ability to run queries and obtain background information on violators in several different systems. A pilot project was successfully completed for game warden vehicles and TPWD is now seeking funds to fully implement this initiative, including amounts for three FTEs, associated operating costs, and computers.

RADIO COMMUNICATIONS: As a heavily field-based organization, TPWD relies heavily on radio equipment to carry out day-to-day operations and ensure timely, efficient and effective sharing of information and the safety and security of our field staff. This exceptional item requests funding to migrate antiquated agency radio equipment to narrow-band 12.5 kHz channels and for needed radio tower and site replacement/repairs, including two FTEs and associated salaries, travel, operating costs, and ongoing maintenance.

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE
82nd Regular Session, Agency Submission, Version 1
Automated Budget and Evaluation System of Texas (ABEST)

DATE: **8/24/2010**
TIME: **7:00:30AM**

Agency code: **802**

Agency name:
Parks and Wildlife Department

CODE DESCRIPTION

Excp 2012

Excp 2013

EXTERNAL/INTERNAL FACTORS:

TPWD is one of the few agencies that have yet to bring its law enforcement vehicles up to date with current technological advances. TPWD's Law Enforcement and State Parks Divisions are actively participating in the Public Safety Interoperability Communications program with several other emergency response agencies. In addition, TPWD continues involvement in several homeland/border security efforts. Equipping TPWD law enforcement vehicles with computer systems will allow game wardens and state park police to better carry out their responsibilities in these areas, as well as in enforcing the fish and game laws of the state and providing public safety and emergency response.

TPWD's statewide radio operations are comprised of 130 communication sites with radio towers and equipment buildings (25 of these are TPWD-owned while the rest are leased or co-located with other agencies). The agency currently has 2,000 two-way hand held radios, 1,600 vehicle radios, 600 marine boat radios, and 10 satellite radios. Infrastructure equipment includes 150 repeaters and 125 base stations.

The Federal Communications Commission (FCC) WT Docket 99-87 has mandated that all non-federal public safety licensees using 25 kHz radio systems migrate to narrowband 12.5 kHz channels by January 1, 2013. Agencies that do not meet the deadline face the loss of communication capabilities. Approximately 50% of TPWD's radio equipment is currently non-complaint with FCC requirements. Without funding to accomplish the needed upgrades, TPWD will be at risk of losing licenses and a key means of communication for TPWD employees in the field. Infrastructure upgrades, such as radio tower and site replacement and repairs are also needed to meet the Project 25 digital standards to facilitate interoperability standards set forth by the state. These standards specify a suite of interfaces between components of land mobile radio systems and are necessary to facilitate state interoperability standards.

DESCRIPTION / JUSTIFICATION:

One of the greatest threats to quail and other grassland-dependent wildlife is the invasion of exotic grasses into native habitats and the lack of fire on the landscape. Funding for this exceptional item would allow TPWD to enter into cooperative agreements with conservation organizations to provide materials, supplies and equipment to control unwanted vegetation and re-seed with native plant materials, and supply equipment needed by land-owners to implement prescribed burns. This work would primarily take place on private lands, but could also be applied to public lands as appropriate

Texas is home to over 1 million hunters, less than 5% of the state's population. As the population continues to expand, the number of hunters has not kept pace in terms of per capita growth. Two of the greatest limiting factors to hunter recruitment in Texas are: (1) access to affordable hunting and (2) mentoring the next generation of hunters. This exceptional item would also allow TPWD to add an additional 5,000 acres to the Public Hunting Program by seeking, negotiating, and posting small game leases on private lands with willing landowners. Ideally, these leases would be within close proximity to urban areas so that access would be relatively easy. For a \$40 annual public hunting permit, individuals would have access to all tracts in the state leased for small game hunting.

Funding for these items would be derived from the migratory and upland game bird stamp accounts within the Game, Fish and Water Safety Account (009).

EXTERNAL/INTERNAL FACTORS:

4.A. EXCEPTIONAL ITEM REQUEST SCHEDULE

Automated Budget and Evaluation System of Texas (ABEST)

DATE: **8/24/2010**
TIME: **7:00:30AM**

Agency code: **802**

Agency name:
Parks and Wildlife Department

| CODE | DESCRIPTION | Excp 2012 | Excp 2013 |
|-------------|--------------------|------------------|------------------|
|-------------|--------------------|------------------|------------------|

Native habitat restoration is one of the primary purposes of the migratory and upland game bird stamps purchased by game bird hunters. Since over 95% of Texas is privately owned, wildlife populations rely on the stewardship of native habitats existing on privately held farms and ranches. Incentive programs such as the one proposed are key to engaging private landowners in active habitat restoration for grassland dependent wildlife.

Addition of increased public hunting opportunity is a major initiative identified in the upland and migratory bird strategic plans produced by TPWD. Competitive pricing to lease additional private lands for public hunting will be the key to maintaining and growing the number of hunters in Texas. These stakeholders engage in their outdoor pursuits with passion, as well as financially through the purchase of hunting licenses, permits, firearms and ammunition.

DESCRIPTION / JUSTIFICATION:

TPWD Game Wardens play a supporting role in the Texas Border Initiative. This exceptional item requests funding for one safeboat and associated fuel costs to enhance game warden participation in border security initiatives.

EXTERNAL/INTERNAL FACTORS:

As state peace officers, game wardens are trained and experienced to operate in the border environment. Game Wardens are community based, well trained, and can add a front layer of security to detect, deter, and interdict adversary threats. They are capable of providing protection and deterrence by being visible, vigilant, mobile, adaptive, and capable of generating an effective and sustained presence on the border while conducting their core missions. Game Wardens are familiar with the local framework necessary to support the state's overall strategy to protect the border through the Texas Border Initiative.
