## **Login and Personal Information:**

Login to TWIMS .....	5
Reset Forgotten Password.....	6
Change Password.....	7
Update Contact Information .....	8

## **Find/Register a Facility:**

Search for an Existing Facility .....	9
Register a New Non-Breeder Facility (Release Sites, Nursing Facilities, etc.).....	10-11
Request a New Deer Breeding Facility.....	12-14

## **Edit Facility Agents:**

Add Agent to a Deer Breeding Facility .....	15-17
Remove Agent from a Deer Breeding Facility .....	17

## **Facility Information and Updates:**

View Facility Transfer Category or Class.....	18
Update the Number of Pens in a Facility .....	19-20
Upload a New Facility Diagram .....	21-22
Update Maximum Number of Deer Allowed .....	23

## **Unique Numbers:**

View Unused Unique Numbers .....	24-25
Request Additional Unique Numbers .....	26-27

## **Breeder Permit:**

View/Print Current Deer Breeder's Permit.....	28
Close/Transfer Deer Breeder Facility .....	29-31

**Transfer Permits:**

View All Transfer Permit Records for Your Facility(s).....32-33

Search for a Specific Transfer Permit.....34

Request to Activate a Transfer Permit.....35-40

Accept or Decline a Transfer Permit.....41-43

Print a Copy of a Transfer Permit.....44

Edit Deer List for a Transfer Permit.....45-48

Complete a Transfer Permit.....49

Cancel a Transfer Permit.....50

**Herd Inventory:**

View Herd Inventory.....51-52

Enter Fawn Births for a Facility.....53-56

Report Deaths for a Facility.....57

Submit Escaped Deer Notification.....58-59

**Deer Information:**

How to Navigate to Deer Information Page.....60-61

View Deer Movement History.....62

Update Breeder's ID.....63

Update RFID/NUES Tag Number.....64

Change Sex of Deer.....65

**CWD Testing:**

View CWD Not Detected Testing Percentage for your Facility.....66-67

Download a TVMDL CWD Sample Submission Form.....68-69

Submit CWD Test Results for a Deer Breeding Facility.....70-73

Submit Harvest Log and CWD Test Results for a Release Site.....74-78

## LOGIN AND PERSONAL INFORMATION

### Log in to TWIMS:

1. Visit <https://apps.tpwd.state.tx.us/privatelands>
2. Enter the email address you have registered with TPWD for your login name.  
Use all lower case letters when typing your login name. Make sure no spaces are accidentally entered anywhere in the "Login Name" box.
3. Type your current password in the space provided. Your password is case sensitive and must be entered exactly as it was created.
4. Click "Account Login."

4. You will receive an email from TWIMS that will include a temporary password; retrieve this password, and return to the TWIMS login screen.
5. Enter your login name and the temporary password that was emailed to you. Enter the temporary password exactly as it appears in the email.
6. Once you have successfully logged in, you will be prompted to change your password. Enter a new password in the space provided. Verify all other personal information listed on the screen, and make any updates that may be needed.
7. Click "Submit" at the very bottom of the page. The "My Profile" page will load. If there are no other changes to make to your personal information, click "Main" in the upper right corner of the page to proceed to the main menu.

## **Change Password:**

1. Log in to TWIMS using the email address you have registered with TPWD for your “Login Name” and your current password.
2. On the main page (before clicking “Deer Breeder Permits and Herd Tracking”), click on “Change Password” in the upper right hand corner of the screen.

Deer Breeder Permits and Herd Tracking

### Welcome, ODBS Testing

You have logged into the Texas Wildlife Information and Management Services system. Please select one of the applications listed below.

**Deer Breeder Permits and Herd Tracking**

This system provides critical resources for TPWD, Deer Breeders, and the Texas Animal Health Commission. It allows users to issue, activate, track, print, and complete transfer permits, monitor deer breeding activity in the state, and track the movement of individual deer. The system calculates the "Movement Qualified" status of each herd. Users can also record births and deaths, thereby keeping real-time records of each herd inventory.

TEXAS PARKS & WILDLIFE

Version prod 1.59.0 10/22/2013 01:28 PM

3. On the next page that appears, review the “Password Tips” section, and then enter your desired new password. Passwords are case sensitive.
4. Click “Change.” You will receive an email from TWIMS notifying you that the password has been changed.

## Update Contact Information:

1. Log in to TWIMS.
2. Click “Deer Breeder Permits and Herd Tracking.”
3. Click “My Profile” in the top right hand corner.

Facility Breeder Permit Transfer Permit Deer/Inventory Lookup

**Facility**  
This page allows you to view and edit profile information for all of your registered facilities and request registration of new facilities. You may also view the current movement qualification status and the total deer allowed for each of your facilities.

**Breeder Permit**  
Breeder permits are issued and renewed through this page. You can view your current and closed breeder facility permits, as well as apply and pay for renewals.

**Transfer Permit**  
You must obtain and activate a Transfer Permit before you can transport pen-raised White-tailed or Mule Deer. This button allows you to activate a transfer permit, add or edit the list of deer for a transfer permit, complete a transfer permit, or print active and completed transfer permits. Texas Parks and Wildlife Law Enforcement will be immediately notified of your plan to transport pen-raised deer.

**Deer/Inventory Lookup**  
This page allows you to view your herd inventory, add fawns born in your facility, add deaths, update breeder ID's, report escapes, and search for a specific deer record and view the history of that deer's movement. The deer record also includes the species, sex, age, birth date, mortality date, disease test results, and/or release information. You may also upload CWD test results through this page.

TEXAS PARKS & WILDLIFE

4. Edit any information you wish to change on the next screen that appears, and then click “Submit.”

**\*Note:** If you change your email address, your login name will change accordingly, requiring you to use the updated email address when logging in to TWIMS. Your password will remain unchanged when updating your email address.

## FIND/REGISTER A FACILITY

### Search for an Existing Facility:

1. Click on the “Facility” tab.
2. Scroll to the very bottom of the page, and locate the “Facility Search” section.
3. Enter the facility owner’s last name (required) and either their breeder serial number (TX#) or driver’s license number (numbers only). Click “Search”.

**\*Note:** Two of the three search fields must be filled in to perform a facility search.

## Register a New Non-Breeder Facility (Release Sites, Nursing Facilities, etc.):

**\*Note:** Non-Breeder Facilities that can be registered include release sites, nursing facilities, medical facilities, out-of-state release sites, out-of-state breeding facilities, educational display facilities, and zoological facilities.

1. Click on the “Facility” tab, and scroll to the “Facility Search” section at the bottom of the page.
2. To register a new facility/site, you must first search for any other facilities registered in that customer’s name to ensure no duplicate facilities/sites are created. See Page 9 for instructions on searching for an existing facility.
3. After a Facility Search is performed, the “Register New Facility” section will be made available.
4. Select the type of facility to be registered from the drop down menu; click “Start”.

The screenshot displays the Texas Wildlife Information Management Services interface. At the top, the 'Facility' tab is highlighted. Below it, a table lists 14 existing facilities with columns for Facility Name, ID, County, Type, Status, and Movement Qualified Status. Below the table are two forms for requesting unique numbers. The 'Request New Breeder Facility' section is visible but not active. The 'Facility Search' section shows a search for 'smith' with no results found. At the bottom, the 'Register New Facility' section is active, showing a 'Facility Type' dropdown menu and a 'Start' button, both of which are circled in red.

**(Continued) Register a New Non-Breeder Facility:**

5. Enter the requested information on the next page. All fields marked with an asterisk (\*) must be completed. A plat file is optional.

The screenshot displays the Texas Wildlife Information Management Services web application. At the top, the header reads "TEXAS PARKS AND WILDLIFE" and "Texas Wildlife Information Management Services". Navigation links include "Main", "My Profile", and "Logout". A menu bar contains "Facility", "Breeder Permit", "Transfer Permit", and "Deer/Inventory Lookup".

The main content area is titled "My Facilities / Facility Search". Below this is a form for "Breeder/Owner Information" with the following fields:

Breeder/Owner First Name *	<input type="text"/>	Last Name *	<input type="text" value="doe"/>
Drivers License Number	00000000	Drivers License State *	<input type="text" value="TX"/>
Address Line 1 *	<input type="text"/>	Line 2	<input type="text"/>
City *	<input type="text"/>	State *	<input type="text" value="TX"/>
Zip *	<input type="text"/>	Email *	<input type="text"/>
Home Phone *	<input type="text"/>	Cell Phone *	<input type="text"/>

Below this is the "Facility Information" section with the following fields:

Facility Name \*   
Facility Type   
Total Pasture Acreage \*   
Is Pasture surrounded by a High Fence? \*  Yes  No  
Upload Plat File

A second "Facility Information" section is shown in a blue-bordered box with the following fields:

Primary (majority) County \*   
Nearest City/Town \*   
Direction from town \*   
Miles from town \*   
On Hwy/Rd \*   
Address Line 1 \*   
Line 2   
City \*   
State   
Zip \*  Latitude  Longitude   
Country

At the bottom left is the Texas Parks and Wildlife logo and contact information: "Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, TX 78744. Toll Free: (800) 792-1112, Austin: (512) 389-4800. Content of this site © Texas Parks and Wildlife Department unless otherwise noted. If you have trouble using this website, contact [twims@tpwd.texas.gov](mailto:twims@tpwd.texas.gov)." At the bottom right, it says "Version prod 1.60.0 11/14/2013 02:28 PM".

6. Once all required information is entered, click "Submit" to create the new facility. If any missing information or formatting errors are found, they will be flagged and must be corrected. Make any necessary correction and click "Submit" again.
7. On the following page, review the facility information to verify accuracy, and make note of the new Facility ID.

## Request a New Deer Breeding Facility:

**\*Note:** This method of requesting a new deer breeding facility is to be used by existing TWIMS Deer Breeder customers only.

1. Click on the “Facility” tab.
2. Click “Request New Breeder Facility.”

4. Under “Agent Search,” enter the new agent’s last name and driver’s license number (numbers only); click “Search.”
5. If the agent is not an existing customer in the database, the “Agent Information” page will appear.
6. Enter required agent information (first & last name, SSN, DL, phone numbers, and email address must be entered accurately).
7. Click “Submit.”

**(Continued) Add Agent to an Existing Deer Breeding Facility:**

8. Verify the request was successfully submitted by returning to the “Facility Information” page. The agent should now be listed under the “Pending Agent Information” section.
9. You and the new agent will be notified via email when this request has been approved by Deer Breeder staff.

**Remove Agent from a Deer Breeding Facility:**

1. Click on the “Facility” tab.
2. Click on the appropriate facility ID.
3. Scroll to the bottom of the page to locate the agent listings for the facility.
4. Click “Remove” next to the name of the agent you wish to remove.
5. Click “Submit” at the bottom of the page.

## FACILITY INFORMATION AND UPDATES

### View Facility Transfer Category or Class:

1. Click on the "Facility" tab.
2. Click on the appropriate facility ID.
3. Locate the "Status" section of the Facility Information page where the Transfer Category or Class will be displayed.

## Update the Number of Pens in a Facility:

4. Click on the "Facility" tab.
5. Click on the appropriate facility ID.
6. In the box labeled "Number of Enclosures (pens)," enter the new value.
7. If the facility acreage has also changed, update the "Total Breeder Acreage" by entering the new value into the box.
8. Upload a new facility diagram that clearly displays the layout of all the pens in the facility, as well as the location of food, water and shelter within each pen.

TEXAS Parks and Wildlife Department, 4200 Smith School Road, Austin, TX 78744  
Toll Free: (800) 792-1112, Austin: (512) 339-4200  
Content of this site © Texas Parks and Wildlife Department unless otherwise noted.  
If you have trouble using this website, contact: [WIMD@tpwd.texas.gov](mailto:WIMD@tpwd.texas.gov)

Version: prod 1.89.0 10/22/2012 01:28 PM

**(Continued) Update the Number of Pens in a Facility:**

9. When the necessary changes have been entered, click “Submit.”
10. Deer Breeder staff will be notified of the requested changes to the facility. *The requested updates are not automatically approved. Deer Breeder staff must review the request first.* When the facility updates have been approved you will receive an email notification from TWIMS.

**\*Note:** Alleyways, working facilities, etc. are not counted as pens but they should be included in the facility acreage and displayed on the facility diagram. Any time a change is made to the “Number of Enclosures” or “Total Breeder Acreage,” a new diagram must also be uploaded that reflects the layout of the facility. See page 19 for instructions on Uploading a Facility Diagram (plat file).

## Upload a New Facility Diagram:

1. Prior to logging into TWIMS, scan or take a photo of the current facility plat, and save that image in an easy-to-find spot on your computer.
2. Log into your deer breeder account on TWIMS; click on the “Facility” tab.
3. Click on the appropriate facility ID.
4. Click “Browse” next to the section titled “Upload Plat File.”
5. In the file browser that appears, locate and click on the file that contains the facility diagram. Click “Open” at the bottom of the file browser.

The screenshot displays the Texas Wildlife Information Management Services (TWIMS) interface. At the top, the navigation menu includes "Facility", "Breeder Permit", "Transfer Permit", and "Deer/Inventory Lookup". The "Facility" tab is selected and highlighted with a red circle. Below the navigation, the "Facility Information" section is visible, showing details for a facility with ID 2811B. The "Upload Plat File" section includes a "Browse..." button, which is circled in red. A file upload dialog box is open, showing the "Pictures" library. The dialog box lists several files, including "TPWD\_Logo.jpg", "TPWD\_Logo.pdf", "TPWD\_Logo\_B&W.png", and "TPWDLogo.png". The "Open" button at the bottom of the dialog box is also circled in red. Below the facility information, there are sections for "Existing Agent Information", "Pending Agent Information", and "Declined Agents". At the bottom of the page, there are "Submit" and "Go to Pen Page" buttons, both of which are circled in red. The footer of the page contains contact information for the Texas Parks and Wildlife Department and the version number: "Version prod 1.59.0 10/22/2013 01:28 PM".

**(Continued) Upload a New Facility Diagram:**

6. If the number of pens or the breeder facility acreage has changed, update that information accordingly (see page 17 for instructions).
7. Verify that the facility diagram clearly displays the facility layout, as well as the location of food, water and shelter within each pen. The number of pens in the diagram MUST match the value entered for “Number of Enclosures.”
8. Click “Submit” at the bottom of the page.
9. Deer Breeder staff will be notified of the requested changes to the facility. *The new diagram is not automatically approved. Deer Breeder staff must review the request first.* When the new diagram has been approved, you will receive an email notification from TWIMS.

**\*Note:** Only one file can be uploaded for the facility diagram. If your facility diagram contains multiple pages, be sure that all pages are saved in a single file so that the entire diagram can be uploaded. Maximum file size allowed is 1Mb. Supported file types are .pdf, .jpg, .bmp, and .gif.

## Update Maximum Number of Deer Allowed:

1. Click on the "Facility" tab.
2. Click on the appropriate facility ID.
3. Enter the desired value in the boxes labeled "Max. no. of Whitetail Deer" and "Max. no. of Mule Deer."
4. Click "Submit."
5. Deer Breeder staff will be notified of the requested changes to the facility. *The new value is not automatically approved. Deer Breeder staff must review the request first.* When the change is approved, you will receive an email notification from TWIMS.

Content of this site © Texas Parks and Wildlife Department unless otherwise noted.  
If you have trouble using this website, contact [twims\\_test@tpwd.texas.gov](mailto:twims_test@tpwd.texas.gov).

Version beta 1.59.27 11/13/2013 09:02 AM

3. Review the statement that appears; click “I Certify.”
4. A checklist will appear on the next page. *Each section and subsection must be completed before you may submit the final notification of closure or transfer. Even if there are no changes to be made to a particular section of the checklist, all sections must be visited. If there are no changes to be made, click “Start” for that section, and then click the button labeled “Submit and ...” on the next screen that appears.*
5. Click “Start” in the Breeder Information section. Update any incorrect information, and fill in any missing information. Click “Submit and Go to Facility Information.”
6. Update any incorrect Facility Information, and provide any missing information. All requested information must be provided, including total ranch acreage, current facility plat, and indication as to who is the property owner (changes are only required for out of date information or for information that was not already entered). Click “Submit and Go to Reconcile Inventory.”
7. Review and reconcile the Herd Inventory. Update individual deer information as necessary. To complete a Facility Closure, the final Herd Inventory must reflect that there are 0 deer in the facility. Breeder deer may only remain in the current inventory during a Facility Transfer. Click “Submit and Enter Births.”
8. Enter all births that occurred in your facility during the past reporting year that have not yet been entered. Once completed, or if there are no births to report, click “Submit and Enter CWD Tests.”

**(Continued) Close/Transfer Deer Breeder Facility:**

- 9. Upload CWD test results for any mortalities that were tested and have not yet had results entered. Once completed, or if you have no test results to upload, click “Submit and Return to Checklist.”
- 10. If you are closing your facility and the Herd Inventory reflects that there are 0 deer in the facility, select the “Closure” option, and click “Submit Notification of Closure.”
- 11. If you are transferring the facility to a new owner, select the “Transfer” option and enter “New Property Owner Information.” Click “Submit Notification of Closure.”

Facility Breeder Permit Transfer Permit Deer/Inventory Lookup

### Breeder Facility Closure - ODBS Testing 3531B

Closure Checklist <small>Click to View/Update</small>	Completed	Subsections
<a href="#">Breeder Information</a>	✓	
<a href="#">Facility Information</a>	✓	
<a href="#">Reconcile Inventory</a> <small>(ALL births, deaths and transfer permits during this reporting period have been entered)</small>	✓	<a href="#">Enter Births</a> ✓ <a href="#">Enter CWD Test Results</a> ✓
<input type="radio"/> Closure <input type="radio"/> Transfer		I hereby declare that I am closing the above-referenced Deer Breeder Facility. I further certify that there are no deer in this facility and that all deer previously held in this facility have been disposed of in accordance with state regulations governing deer breeding operations. Attached is my final herd inventory detailing the disposition of the deer. I understand that I am no longer authorized to possess or sell white-tailed deer or mule deer from this facility.  I certify that there are deer currently in this facility. The deer will be transferred to the new property owners upon issuance of a Deer Breeder Permit. I understand that a copy of a transfer permit must be submitted detailing the change of pos-session of deer at this facility. (Please provide any additional details in the Comments section or attach a letter of explanation.) I understand that I am responsible for submitting a final inventory detailing the disposition of the deer.

**\*Note:** You cannot submit the Closure Notification until all five of the sections and subsections have been completed. Completed sections will display green check marks.

**(Continued) Close/Transfer Deer Breeder Facility:**

12. You will be notified via email once your facility closure or transfer has been processed.

**\*Note:** You may leave the Notification of Closure checklist page at any time and all completed sections will be saved.

**\*Note:** *If you are closing the facility, all deer must be legally removed from the facility before a Notification of Closure can be submitted.*

## TRANSFER PERMITS

### View All Transfer Permit Records for Your Facility(s):

1. Click the “Transfer Permit” tab.
2. Leave all fields blank in the section titled “Search for an Existing Transfer Permit.” Click “Search.”

The screenshot displays the Texas Wildlife Information Management Services (TWIMS) website. At the top, the header reads "TEXAS PARKS AND WILDLIFE" and "Texas Wildlife Information Management Services". Navigation links include "Main", "My Profile", and "Logout". A menu bar contains "Facility", "Breeder Permit", "Transfer Permit" (highlighted with a red circle), and "Deer/Inventory Lookup".

Below the menu, a red button says "Click Here to Activate a New Transfer Permit". A blue header for the search section reads "Search for an Existing Transfer Permit" (highlighted with a red circle). The search form includes the following fields:

- Source Facility ID (text input)
- Source Facility Name (text input)
- Destination Facility ID (text input)
- Destination Facility Name (text input)
- Permit Number (text input)
- Confirmation Number (text input)
- Source Facility County (dropdown menu, currently showing "All")
- Source Facility CWD Zone (dropdown menu, currently showing "All")
- Destination Facility County (dropdown menu, currently showing "All")
- Destination Facility CWD Zone (dropdown menu, currently showing "All")
- Permit Status (dropdown menu with options: Activated, Overdue, Completed)

At the bottom of the search form, there are two buttons: "Search" (highlighted with a red circle) and "Clear Search".

Footer information includes: "Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, TX 78744", "Toll Free: (800) 792-1112, Austin: (512) 389-4800", "Content of this site © Texas Parks and Wildlife Department unless otherwise noted.", "If you have trouble using this website, contact [twims\\_test@tpwd.texas.gov](mailto:twims_test@tpwd.texas.gov)", and "Version beta 1.59.27 11/13/2013 09:02 AM".

3. The page that loads will display every transfer permit TPWD has on file for all facilities for which the customer is either an owner and/or agent. The list will order the permits sequentially based on Effective Date/Time with the most recent transfer permit listed first. Up to 10 transfer permits will be displayed per page; numerous pages will load if necessary.
4. You can export a list of all transfer permits to an Excel spreadsheet or to a PDF document for easy printing by clicking on the appropriate button at the bottom of the page.
5. To view a specific transfer permit, locate it in the list and click “View.” (see screen shot, next page)

Version prod 1.60.0 11/14/2013 02:28 PM

**\*Note:** There are numerous options available under “Search for an Existing Transfer Permit” that allow you to search for only the transfer permit(s) you want to view. For example, to view only transfer permits for which your breeding facility was the source, enter your breeder facility ID in the field titled “Source Facility ID” and click “Search.” Only transfer permits for which your facility was the source will be displayed. A copy of any transfer permit can be printed for your records. Please see page 42 for instructions on printing copies of transfer permits.

## Search for a Specific Transfer Permit:

1. Click on the “Transfer Permit” tab.
2. The “Search for an Existing Transfer Permit” section allows you to search for transfer permits using any of the fields provided. It is best to use as little information as possible to find a specific transfer permit. For example, try searching for a transfer permit using only the Confirmation Number (the last 5 digits of the Permit Number). Misspelled names will prevent a successful search.

The screenshot shows the Texas Wildlife Information Management Services website. At the top, there is a navigation bar with the following tabs: Facility, Breeder Permit, Transfer Permit (circled in red), and Deer/Inventory Lookup. Below the navigation bar is a search form titled "Search for an Existing Transfer Permit". The form contains several input fields and dropdown menus: Source Facility ID, Destination Facility ID, Permit Number, Source Facility County (dropdown), Destination Facility County (dropdown), Source Facility Name, Destination Facility Name, Confirmation Number (circled in red), Source Facility CWD Zone (dropdown), and Destination Facility CWD Zone (dropdown). Below these fields is a "Permit Status" dropdown menu with options: Activated, Overdue, and Completed (circled in red). At the bottom of the form are two buttons: "Search" (circled in red) and "Clear Search". Above the search form is a red button that says "Click Here to Activate a New Transfer Permit".

Content of this site © Texas Parks and Wildlife Department unless otherwise noted.  
If you have trouble using this website, contact [twims\\_test@tpwd.texas.gov](mailto:twims_test@tpwd.texas.gov).

Version beta 1.59.27 11/13/2013 09:02 AM

3. Transfer permits can also be searched for based on “Permit Status.” For example, selecting “Activated” in the “Permit Status” section and clicking “Search” will allow you to view all of the currently activated transfer permits for your facility(s).
4. If you are having trouble finding a transfer permit, leave all fields blank, then click “Search.” This will display all of the transfer permits for any facility(s) for which you are an owner and/or agent.

**\*Note:** You must be the owner or an agent for the source or destination facility in order to view a transfer permit.

## Request to Activate a Transfer Permit:

1. Click on the "Transfer Permit" tab.
2. Click "Click Here to Activate a New Transfer Permit."

The screenshot shows the Texas Wildlife Information Management Services website. The header includes "TEXAS PARKS AND WILDLIFE" and "Texas Wildlife Information Management Services". The navigation menu has tabs for "Facility", "Breeder Permit", "Transfer Permit" (circled in red), and "Deer/Inventory Lookup". Below the navigation is a large red button with white text that says "Click Here to Activate a New Transfer Permit", which is also circled in red. Below this is a search form titled "Search for an Existing Transfer Permit" with fields for Source Facility ID, Destination Facility ID, Permit Number, Source Facility Name, Destination Facility Name, Confirmation Number, Source Facility County, Destination Facility County, Source Facility CWD Zone, Destination Facility CWD Zone, and Permit Status. There are "Search" and "Clear Search" buttons at the bottom of the form. The footer contains contact information for the Texas Parks and Wildlife Department and a version beta date of 1.59.27 11/13/2013 09:02 AM.

3. Enter the effective date and time that indicates when the transfer permit will become activate (see screen shot, next page).  
**\*Note:** When selecting a date from the calendar tool, the time is automatically set to 12:00 PM; adjust this time as needed. *The effective date and time for the transfer permit must be in the future.* The Time/Date format is very specific and must be entered as mm/dd/yy hh:mm AM/PM (e.g. 11/13/13 12:15 PM).
4. Enter the Source and Destination Facility ID and the appropriate county in the spaces provided.  
**\*Note:** A Facility ID consists of numbers and a letter at the end to designate the type of facility (e.g. 1234B is a breeder facility, 1234R is a release site, 1234D is a DMP site, 1234N is a nursing facility). Both the number and letter associated with the Facility ID must be entered when activating a transfer permit.

**(Continued) Request to Activate a Transfer Permit:**

5. Click on “Check Data.”
6. If there are any errors in the information submitted, they will be displayed at the top of the page or next to the error after clicking “Check Data.” Correct any errors that are indicated.

Version beta 1.59.27 11/13/2013 09:02 AM

**(Continued) Request to Activate a Transfer Permit:**

- 7. If the requested transfer will result in a downgrade of the destination facility's Transfer Category or Class, a warning will be displayed in a pop-up window. Read the information displayed and click "OK" to close the pop-up window.

**\*Note:** If you are the person requesting the transfer permit and *the other person's facility will be downgraded* you will see a pop-up window similar to the one below. The other facility will receive an email notification and must log in to TWIMS to either accept or decline the transfer permit. When the transfer permit is accepted by the other facility, its Transfer Category or Class will be downgraded.

The screenshot shows the Texas Parks and Wildlife website interface. At the top, it says "TEXAS PARKS AND WILDLIFE" and "Deer Breeder Permits and Herd Tracking". There are navigation links for "Facility", "Breeder Permit", "Transfer Permit", "Deer/Inventory Lookup", and "Help". The main content area is titled "Issue/Activate a New Transfer Permit" and includes "Transfer Permit Instructions". A form for "Effective Date/Time" has a date of "8/20/15 05:00 PM". A "Source Facility" section is partially visible. A "Destination Facility" section includes fields for "Facility ID" (2811D), "County" (Travis), "Transfer Category" (Category 1), "Breeder" (ODBS Testing), "Breeder Serial Number" (TX0000), "Facility" (TPWD Special), and "Facility Acreage" (8). A "TAHC CWD Herd Status" field is also present. A "Category Downgrade Warning" pop-up window is overlaid on the form, displaying the message: "This transfer will change the Transfer Category of 2811B to a lower category." The "OK" button in the pop-up is circled in red. At the bottom of the form, there are buttons for "Check Data", "Submit For Approval", and "Cancel". The footer contains contact information for the Texas Parks and Wildlife Department and a version number: "Version dev 1.70.465 08/19/2015 02:34 PM".

**(Continued) Request to Activate a Transfer Permit:**

**\*Note:** If you are the person requesting the transfer permit and your facility will be downgraded you will see a pop-up window similar to the one below. **If you click “Submit and Approval” and the transfer permit is accepted and activated by the other facility, your facility’s Transfer Category or Class will be downgraded.**

The screenshot shows the 'Edit Transfer Permit' page on the Texas Parks and Wildlife website. The page title is 'Edit Transfer Permit' and the permit status is 'Pending'. A pop-up window titled 'Category Downgrade Warning' is displayed over the form. The pop-up contains the following text: 'WARNING: The requested transfer permit will lower your Transfer Category for 2811B to the Transfer Category of the source facility if you activate this transfer permit. Please review the Transfer Category rules and requirements by clicking here: [Explanation of New Transfer Permit and Release Site Procedures.](#) By clicking "Accept" on the following screen, you acknowledge that you understand your Transfer Category will be downgraded upon activation of this transfer permit and you agree to abide by the requirements for your new Transfer Category. If you do not wish to activate this transfer permit, click "Decline" on the following screen.' The 'OK' button in the pop-up is circled in red. The background form shows fields for 'Effective Date/Time' (08/20/2015 06:00 PM), 'Source Facility' (Facility ID 5210B), and 'Destination Facility'. At the bottom of the form are buttons for 'Accept Permit', 'Decline Permit', and 'Exit'. The footer of the page includes contact information for the Texas Parks and Wildlife Department and the version number 'Version dev 1.70.465 08/19/2015 02:34 PM'.

**(Continued) Request to Activate a Transfer Permit:**

- Each facility's Transfer Category or Class is displayed on the following screen. Review the information for accuracy.
- Click "Submit for Approval" to notify the other facility of your request to activate a transfer permit.

**\*Note:** The transfer permit is **NOT VALID** until it has been accepted by the other facility.

## Accept or Decline a Transfer Permit:

**\*Note:** If a transfer permit is not accepted or declined by the requested effective date/time, the transfer permit will become expired and you will not be authorized to transport breeder deer. A new transfer permit will need to be created and accepted in order to transport breeder deer.

1. Click on the “Transfer Permit” tab.
2. Search for the transfer permit that is pending approval using any of the options available under “Search for a Specific Transfer Permit” (see page 32 for instructions on finding a transfer permit).
3. Click “Edit” next to the appropriate transfer permit.

3. Click “View” next to the appropriate Transfer Permit.
4. Click “Print to PDF.” A new window will open that displays the transfer permit in a printer-friendly format. Print the page(s) that open.

**\*Note:** Before transporting any breeder deer, make sure to print a hard copy of the transfer permit or save a PDF copy on a mobile device. The transfer permit must list all the breeder deer being moved and must be able to be provided to a Game Warden on request.

## Edit Deer List for a Transfer Permit:

**\*Note:** This option is not available until the transfer permit has been activated.

1. Click on the "Transfer Permit" tab.
2. Search for the transfer permit that requires editing using any of the options available under "Search for a Specific Transfer Permit" (see page 32 for instructions on finding a transfer permit).
3. Click "View" next to the appropriate transfer permit.
4. Click "Edit Deer List."

Version beta 1.59.52 11/19/2013 10:01 AM

9. If this confirmation screen does not load after clicking “Submit,” required information is missing or TWIMS encountered a different problem (see “Note” below) that prevented successful fawn entry. Any errors will be either flagged or listed at the top of the screen.

**\*Note:** Your breeder permit authorizes a maximum number of breeder deer that the facility can hold. If the entry of fawns puts your inventory above the maximum allowed number, TWIMS will not allow those fawns to be entered. You will have to request an increase to the maximum number of breeder deer allowed in the facility (see page 21) before the fawns can be entered in TWIMS.

## Report Deaths for a Facility:

1. Click on the “Deer/Inventory Lookup” tab.
2. Navigate to the Deer Information page for the breeder deer in question (see page 58 for instructions).
3. On the “Deer Information” page, enter the date of death, and select the cause of death from the drop down menu.

4. Optional: If you intend to submit the breeder deer for CWD testing, you can select “Sent for Testing.” See page 66 for instructions on printing a TVMDL accession form.
5. Click “Submit.” The deer will be removed from the current inventory as a death.

**\*Note:** Only death dates that occurred during the current report year may be entered.

**\*Note:** If a deer has been tested for CWD, you must submit a copy of the lab report using TWIMS (see instructions on page 62).

## Submit Escaped Deer Notification:

1. Click on the “Deer/Inventory Lookup” tab.
2. Click on the appropriate facility ID.
3. On the following page, click “Show” in the blue bar titled “Escaped Deer Notifications” to expand this section.
4. Click “Create Notification.”

### (Continued) Submit Escaped Deer Notification:

5. Enter all requested information. All fields are required.
6. Indicate which breeder deer escaped using the section titled “Select Escaped Deer from Herd Inventory.” Highlight the Unique Number of the escaped breeder deer in the deer list on the left by clicking on the appropriate Unique Number. Click “Select.” Clicking “Select All” will move all of the deer in the facility to the Escaped Deer List on the right. The “Remove” and “Remove All” buttons move deer from the Escaped Deer List back to the Herd Inventory List.
7. Click “Submit” once all escaped breeder deer are listed.

8. Deer Breeder Program staff will be notified that the deer have escaped from the facility. If you opt to attempt to recapture the escaped breeder deer, a 10 day recapture period will begin once the notification is submitted.

## DEER INFORMATION

### How to Navigate to Deer Information Page:

1. Click on “Deer/Inventory Lookup” tab.
2. There are two options to navigate to the “Deer Information” page for a specific breeder deer.

**Option 1:** Locate the “Search for Deer” section at the bottom of the main “Deer/Inventory Lookup” page. Type the breeder deer’s Unique Number in the space provided, and click “Search.” If the search is successful, the “Deer Information” page for that Unique Number will appear on the next screen. If the search does not find the Unique Number, check that it was entered correctly, or try Option 2 to locate the Unique Number in question.

**Information for CWD Testing**

Per Texas Administrative Code 65.604, a facility is movement qualified if no CWD test results of 'detected' have been returned from an accredited test facility for a breeder deer submitted from the facility or at least one of the following criteria is satisfied:

- (1) the facility is certified by the Texas Animal Health Commission (TAHC) as having a CWD Monitored Herd Status of Level A or higher;
- (2) less than five eligible breeder deer mortalities have occurred within the facility as of May 23, 2006; or
- (3) CWD test results of 'not detected' have been returned from an accredited test facility on a minimum of 20% of all eligible breeder deer mortalities occurring within the facility as of May 23, 2006.

For questions or additional information, call (512) 389-4585

**\*Note:** TPWD regulations state that any breeder deer that is 16 months of age or older at the time of death is an eligible-aged mortality and will be considered when calculating a facility’s Movement Qualification status.

**\*Note:** TPWD staff can enter CWD test results submitted for breeder that are deer less than 16 months of age for facilities that participate in the TAHC Monitored Herd program. However, CWD results submitted for breeder deer less than 16 months old will only be considered by TAHC and will not factor into the “Percent of Eligible Deer Tested” figure that TPWD calculates.

**Download a TVMDL CWD Sample Submission Form:**

1. Click on the “Deer/Inventory Lookup” tab.
2. Locate the CWD Test Results column in the Search Results table, and click “View” next to the appropriate facility.

**\*Note:** A breeder deer’s death must be reported through TWIMS before a CWD Sample Submission form can be downloaded for the breeder deer (see page 55 for instructions).

**\*Note:** If your veterinary clinic is submitting the CWD sample to TVMDL, make sure they sign as the “Submitter” and include their account number where requested.

**Submit CWD Test Results for a Deer Breeding Facility:**

**\*Note:** A breeder deer’s death must be reported through TWIMS before a CWD test result can be uploaded for the breeder deer (see page 55 for instructions).

**\*Note:** Have a digital copy of the CWD test report saved in an easy-to-find location on your computer before beginning this process.

**\*Note:** CWD test results cannot be accepted unless all required information can be viewed on the report submitted to TPWD. A complete CWD test result report must include: the accession number, the date of the test results, the TPWD issued Unique Number of the deer tested, and the test result. Only CWD test reports from an approved laboratory will be accepted.

1. Click on the “Deer/Inventory Lookup” tab.
2. Locate the “CWD Test Results” column in the “Search Results” table, and click “View” next to the appropriate facility.

- Click on the drop-down menu to indicate if the deer harvested was a breeder deer or a free range deer.

- If the harvested animal was a breeder deer, find the deer's unique number in the drop-down menu. The species, sex, and age fields will be auto-filled when the unique number is selected. Enter the harvest date and indicate if the deer was tested for CWD. When the information is complete and accurate, click "Submit."

- If the harvested animal was a free range deer, enter all requested information and then click "Submit."

**\*Note:** You can leave this page at any time and your work will be saved. If you accidentally duplicate information from the harvest log, you may remove the extra entry by clicking "Remove." Once you leave this page, the log will be saved as it was entered

and you will no longer have the option to “Remove” an entry. You can return to the harvest log at any time to continue making entries. Once you click “Complete and Submit Log,” no further changes may be made.

9. A CWD test report may be uploaded for either a breeder deer or a free range deer once a harvested deer has been entered in TWIMS. Locate the deer in question in the harvest log and click Upload under the column title “Upload CWD Results.”

11. In the file browser that appears click on the file that contains the test results.  
Click “Open” at the bottom of the file browser

12. Once the file is selected, click “Upload.”

13. TWIMS will automatically notify Deer Breeder staff that a new CWD test result has been uploaded for the harvested deer. Deer Breeder staff will review the test result. If any information is missing from the report, it will be deleted from TWIMS so that a complete report can be uploaded. You will receive email notification when a CWD test has been approved or declined.
