PURPOSE OF ADDENDUM: CORRECTION TO ADDENDUM 1

Except as provided herein, all terms and conditions of the document referenced herein, remain unchanged and in full force and effect. The following are official revisions, specifications and/ or clarifications to this solicitation. This Addendum shall be attached to and form a part of the referenced solicitation document and any resulting awarded contract and must be considered in your response.

Correction

The response to Question 1 in Addendum 1 is being revised as follows.

A1: Core drill holes for posts will be in the concrete patio slab between the concrete curb and Cabin #2 to avoid cutting into the **existing concrete retaining wall**. The exact location for the fence line and core drilled holes will be marked on site by TPWD during the first on site meeting. Do not use jack hammers or any other type of equipment that could cause vibration and damage the structural integrity of the existing concrete retaining wall. Remove an approximately 15' x3' area of existing wood decking on the East end of the new fence. (Marked up photo attached).
