Questions and Answers

1. **Question:** With regard to the delivery request/instructions, within what proximity would the motors need to be for your team to be able to retrieve them?

Answer: Determination on proximity and decision for pickup rather than delivery will be made by TPWD at the time of the award and will be based on the pickup location address and needs of TPWD.

2. **Question:** If the motors were to be delivered by our team to your specified delivery locations, what exactly would we need to do and what are the exact drop-off instructions? We understand you do not have loading docks or equipment.

Answer: Dropoff instructions will be defined upon award based on the location of the delivery and specific needs at the delivery location. At minimum Bidder should be prepared to deliver on site, to remove the motor from the shipping trailer or truck and place in a shop or yard based on the location needs.
