Questions and Answers

Question: In Section 5, page 3, paragraph (a), subsections (i) and (ii), it states:

(i) "Design and create eBook for each chapter of the Texas Aquatic Science Teacher Guide."

(ii) "Content provided by TPWD, includes up to 64 lessons."

1. I would appreciate it if you could provide additional details about the expected length of the chapters or lessons. Specifically, could you clarify how many pages are included in each chapter or lesson?
2. If a page count is unavailable, would it be possible to provide an average character count for each eBook?

Having a clearer understanding of the expected scope and length of each eBook will enable me to provide you with the most accurate and cost-effective proposal.

Answer: The current Texas Aquatic Science Teacher Guide is 729 pages. Chapter length ranges between 31-90 pages, depending on graphics and text.
