Login and Personal Information:

Login to TWIMS	5
Reset Forgotten Password.....	6
Change Password.....	7
Update Contact Information	8

Find/Register a Facility:

Search for an Existing Facility	9
Register a New Non-Breeder Facility (Release Sites, Nursing Facilities, etc.).....	10-11
Request a New Deer Breeding Facility.....	12-14

Edit Facility Agents:

Add Agent to a Deer Breeding Facility	15-17
Remove Agent from a Deer Breeding Facility	17

Facility Information and Updates:

View Facility Transfer Category or Class.....	18
Update the Number of Pens in a Facility	19-20
Upload a New Facility Diagram	21-22
Update Maximum Number of Deer Allowed	23

Unique Numbers:

View Unused Unique Numbers	24-25
Request Additional Unique Numbers	26-27

Breeder Permit:

View/Print Current Deer Breeder's Permit.....	28
Close/Transfer Deer Breeder Facility	29-31

Transfer Permits:

View All Transfer Permit Records for Your Facility(s).....	32-33
Search for a Specific Transfer Permit.....	34
Request to Activate a Transfer Permit.....	35-40
Accept or Decline a Transfer Permit.....	41-43
Print a Copy of a Transfer Permit.....	44
Edit Deer List for a Transfer Permit.....	45-48
Complete a Transfer Permit	49
Cancel a Transfer Permit	50

Herd Inventory:

View Herd Inventory.....	51-52
Enter Fawn Births for a Facility	53-56
Report Deaths for a Facility.....	57
Submit Escaped Deer Notification.....	58-59

Deer Information:

How to Navigate to Deer Information Page	60-61
View Deer Movement History.....	62
Update Breeder's ID	63
Update RFID/NUES Tag Number	64
Change Sex of Deer	65

CWD Testing:

Create a TVMDL Accession Form for Post-Mortem Tests.....	66-69
Begin Antemortem Testing Upgrade Program.....	70-72
Begin Substitution Testing Program	73-75

LOGIN AND PERSONAL INFORMATION

Log in to TWIMS:

1. Visit <https://apps.tpwd.state.tx.us/privatelands>
2. Enter the email address you have registered with TPWD for your login name. Use all lower case letters when typing your login name. Make sure no spaces are accidentally entered anywhere in the "Login Name" box.
3. Type your current password in the space provided. Your password is case sensitive and must be entered exactly as it was created.
4. Click "Account Login."

Deer Breeder Permits and Herd Tracking

Welcome, ODBS Testing

You have logged into the Texas Wildlife Information and Management Services system. Please select one of the applications listed below.

Deer Breeder Permits and Herd Tracking

This system provides critical resources for TPWD, Deer Breeders, and the Texas Animal Health Commission. It allows users to issue, activate, track, print, and complete transfer permits, monitor deer breeding activity in the state, and track the movement of individual deer. The system calculates the "Movement Qualified" status of each herd. Users can also record births and deaths, thereby keeping real-time records of each herd inventory.

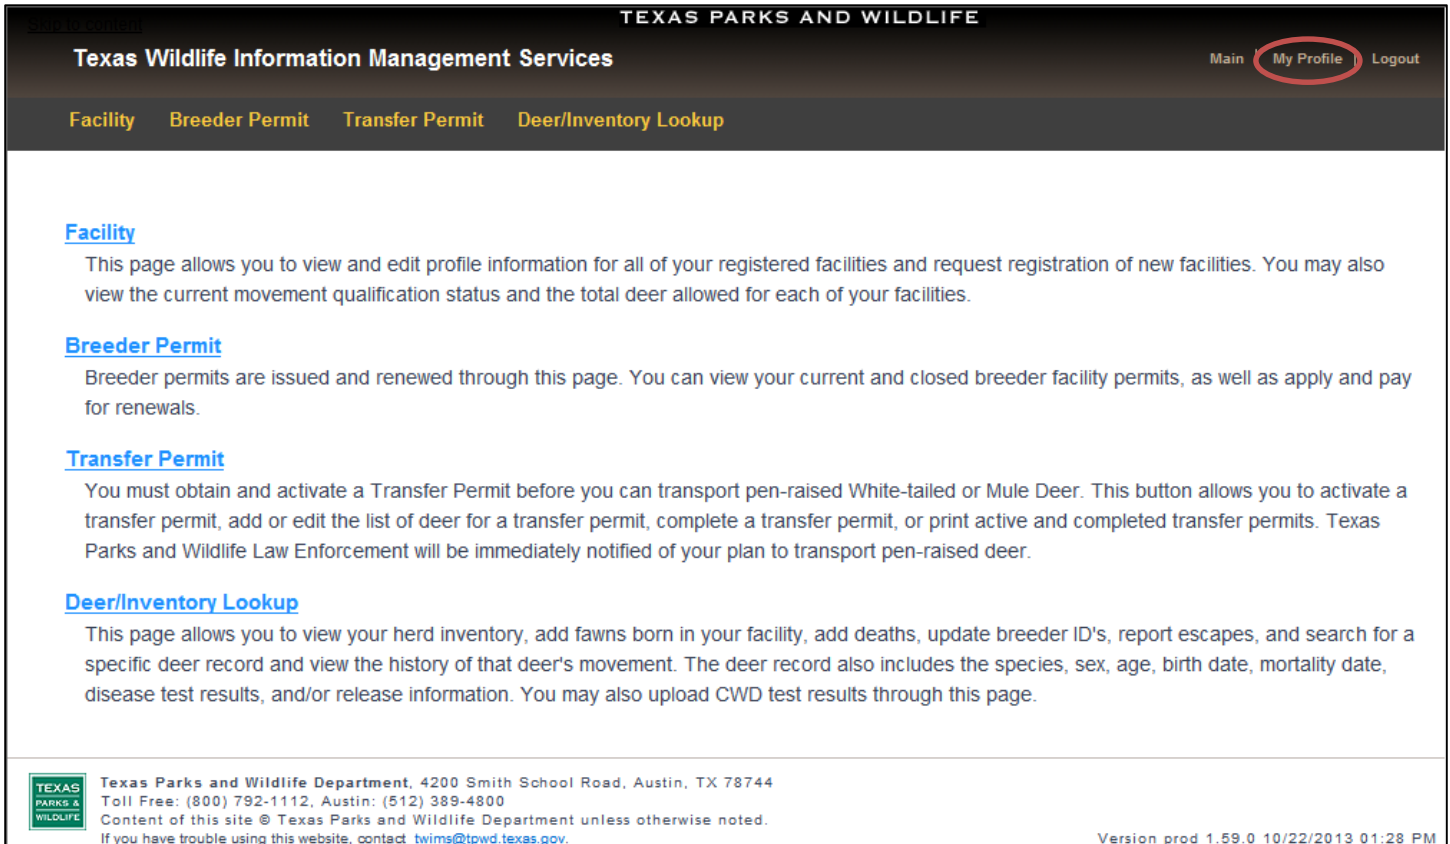

TEXAS PARKS & WILDLIFE Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, TX 78744
Toll Free: (800) 792-1112, Austin: (512) 389-4800
Content of this site © Texas Parks and Wildlife Department unless otherwise noted.
If you have trouble using this website, contact twims@tpwd.texas.gov

Version prod 1.59.0 10/22/2013 01:28 PM

3. On the next page that appears, review the "Password Tips" section, and then enter your desired new password. Passwords are case sensitive.
4. Click "Change." You will receive an email from TWIMS notifying you that the password has been changed.

Update Contact Information:

1. Log in to TWIMS.
2. Click “Deer Breeder Permits and Herd Tracking.”
3. Click “My Profile” in the top right hand corner.

The screenshot shows the Texas Parks and Wildlife TWIMS website. The header includes the Texas Parks and Wildlife logo and the text "Texas Wildlife Information Management Services". In the top right corner, there are links for "Main", "My Profile" (which is circled in red), and "Logout". Below the header, there is a navigation bar with links for "Facility", "Breeder Permit", "Transfer Permit", and "Deer/Inventory Lookup". The main content area has four sections, each with a blue underlined heading and a paragraph of text:

- Facility**: This page allows you to view and edit profile information for all of your registered facilities and request registration of new facilities. You may also view the current movement qualification status and the total deer allowed for each of your facilities.
- Breeder Permit**: Breeder permits are issued and renewed through this page. You can view your current and closed breeder facility permits, as well as apply and pay for renewals.
- Transfer Permit**: You must obtain and activate a Transfer Permit before you can transport pen-raised White-tailed or Mule Deer. This button allows you to activate a transfer permit, add or edit the list of deer for a transfer permit, complete a transfer permit, or print active and completed transfer permits. Texas Parks and Wildlife Law Enforcement will be immediately notified of your plan to transport pen-raised deer.
- Deer/Inventory Lookup**: This page allows you to view your herd inventory, add fawns born in your facility, add deaths, update breeder ID's, report escapes, and search for a specific deer record and view the history of that deer's movement. The deer record also includes the species, sex, age, birth date, mortality date, disease test results, and/or release information. You may also upload CWD test results through this page.

At the bottom of the page, there is a footer section with the Texas Parks and Wildlife logo, contact information (Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, TX 78744; Toll Free: (800) 792-1112, Austin: (512) 389-4800), a copyright notice (Content of this site © Texas Parks and Wildlife Department unless otherwise noted.), a contact email (If you have trouble using this website, contact twims@tpwd.texas.gov), and a version string (Version prod 1.59.0 10/22/2013 01:28 PM).

4. Edit any information you wish to change on the next screen that appears, and then click “Submit.”

***Note:** If you change your email address, your login name will change accordingly, requiring you to use the updated email address when logging in to TWIMS. Your password will remain unchanged when updating your email address.

FIND/REGISTER A FACILITY

Search for an Existing Facility:

1. Click on the “Facility” tab.
2. Scroll to the very bottom of the page, and locate the “Facility Search” section.
3. Enter the facility owner’s last name (required) and either their breeder serial number (TX#) or driver’s license number (numbers only). Click “Search”.

***Note:** Two of the three search fields must be filled in to perform a facility search.

Register a New Non-Breeder Facility (Release Sites, Nursing Facilities, etc.):

***Note:** Non-Breeder Facilities that can be registered include release sites, nursing facilities, medical facilities, out-of-state release sites, and out-of-state breeding facilities.

1. Click on the “Facility” tab, and scroll to the “Facility Search” section at the bottom of the page.
2. To register a new facility/site, you must first search for any other facilities registered in that customer’s name to ensure no duplicate facilities/sites are created. See Page 9 for instructions on searching for an existing facility.
3. After a Facility Search is performed, the “Register New Facility” section will be made available.
4. Select the type of facility to be registered from the drop down menu; click “Start”.

4. Under “Agent Search,” enter the new agent’s last name and driver’s license number (numbers only); click “Search.”
5. If the agent is not an existing customer in the database, the “Agent Information” page will appear.
6. Enter required agent information (first & last name, SSN, DL, phone numbers, and email address must be entered accurately).
7. Click “Submit.”

(Continued) Add Agent to an Existing Deer Breeding Facility:

8. Verify the request was successfully submitted by returning to the “Facility Information” page. The agent should now be listed under the “Pending Agent Information” section.
9. You and the new agent will be notified via email when this request has been approved by Deer Breeder staff.

Remove Agent from a Deer Breeding Facility:

1. Click on the “Facility” tab.
2. Click on the appropriate facility ID.
3. Scroll to the bottom of the page to locate the agent listings for the facility.
4. Click “Remove” next to the name of the agent you wish to remove.
5. Click “Submit” at the bottom of the page.

FACILITY INFORMATION AND UPDATES

View Facility Transfer Category:

1. Click on the "Facility" tab.
2. Click on the appropriate facility ID.
3. Locate the "Status" section of the Facility Information page. The Transfer Category or Class will be displayed.

Update the Number of Pens in a Facility:

1. Click on the "Facility" tab.
2. Click on the appropriate facility ID.
3. In the box labeled "Number of Enclosures (pens)," enter the new value.
4. If the facility acreage has also changed, update the "Total Breeder Acreage" by entering the new value into the box.
5. Upload a new facility diagram that clearly displays the layout of all the pens in the facility, as well as the location of food, water and shelter within each pen.

Content of this site is Texas Parks and Wildlife Department unless otherwise noted.
If you have trouble using this website, contact: twmd@tpwd.texas.gov

Version: prod 1.89.0 10/22/2013 01:28 PM

(Continued) Update the Number of Pens in a Facility:

6. When the necessary changes have been entered, click "Submit."
7. Deer Breeder staff will be notified of the requested changes to the facility. *The requested updates are not automatically approved. Deer Breeder staff must review the request first.* When the facility updates have been approved you will receive an email notification from TWIMS.

***Note:** Alleyways, working facilities, etc. are not counted as pens but they should be included in the facility acreage and displayed on the facility diagram. Any time a change is made to the "Number of Enclosures" or "Total Breeder Acreage," a new diagram must also be uploaded that reflects the layout of the facility. See page 21 for instructions on Uploading a Facility Diagram (plat file).

Upload a New Facility Diagram:

1. Prior to logging into TWIMS, scan or take a photo of the current facility plat, and save that image in an easy-to-find spot on your computer.
2. Log into your deer breeder account on TWIMS; click on the “Facility” tab.
3. Click on the appropriate facility ID.
4. Click “Browse” next to the section titled “Upload Plat File.”
5. In the file browser that appears, locate and click on the file that contains the facility diagram. Click “Open” at the bottom of the file browser.

[Add New Agent](#)

[Submit](#) [Go to Pen Page](#)

(Continued) Upload a New Facility Diagram:

6. If the number of pens or the breeder facility acreage has changed, update that information accordingly (see page 19 for instructions).
7. Verify that the facility diagram clearly displays the facility layout, as well as the location of food, water and shelter within each pen. The number of pens in the diagram **MUST** match the value entered for “Number of Enclosures.”
8. Click “Submit” at the bottom of the page.
9. Deer Breeder staff will be notified of the requested changes to the facility. *The new diagram is not automatically approved. Deer Breeder staff must review the request first.* When the new diagram has been approved, you will receive an email notification from TWIMS.

***Note:** Only one file can be uploaded for the facility diagram. If your facility diagram contains multiple pages, be sure that all pages are saved in a single file so that the entire diagram can be uploaded. Maximum file size allowed is 1Mb. Supported file types are .pdf, .jpg, .bmp, and .gif.

Update Maximum Number of Deer Allowed:

1. Click on the "Facility" tab.
2. Click on the appropriate facility ID.
3. Enter the desired value in the boxes labeled "Max. no. of Whitetail Deer" and "Max. no. of Mule Deer."
4. Click "Submit."
5. Deer Breeder staff will be notified of the requested changes to the facility. *The new value is not automatically approved. Deer Breeder staff must review the request first.* When the change is approved, you will receive an email notification from TWIMS.

Close/Transfer Deer Breeder Facility:

1. Click on the “Breeder Permit” tab.
2. Click on “Close/Transfer Ownership” next to the facility you wish to close.

The screenshot shows the Texas Parks and Wildlife Department's online services portal. The header includes the department name and navigation links for Main, My Profile, and Logout. Below the header, there are tabs for Facility, Breeder Permit, Transfer Permit, and Deer/Inventory Lookup. The Breeder Permit tab is active, displaying a table of facilities. The table has columns for Facility Name, FID, County, Permit Status, Expiration Date, Renewal Status, and Closure Status. Three facilities are listed: TPWD Special, TPWD Special II, and TPWD Special 1000. For each facility, there are links for Current Permit, Expiration Date, Renewal Status, and Closure Status. The 'Close/Transfer Ownership' link for TPWD Special 1000 is circled in red.

Facility Breeder Permit Transfer Permit Deer/Inventory Lookup

Breeder Permit

TEXAS PARKS AND WILDLIFE Department, 4200 Smith School Road, Austin, TX 78744
Toll Free: (800) 792-1112, Austin: (512) 389-4800
Content of this site © Texas Parks and Wildlife Department unless otherwise noted.
If you have trouble using this website, contact twims_test@tpwd.texas.gov.
Version beta 1.59.27 11/13/2013 09:02 AM

3. Review the statement that appears; click “I Certify.”
4. A checklist will appear on the next page. *Each section and subsection must be completed before you may submit the final notification of closure or transfer. Even if there are no changes to be made to a particular section of the checklist, all sections must be visited. If there are no changes to be made, click “Start” for that section, and then click the button labeled “Submit and ...” on the next screen that appears.*
5. Click “Start” in the Breeder Information section. Update any incorrect information, and fill in any missing information. Click “Submit and Go to Facility Information.”
6. Update any incorrect Facility Information, and provide any missing information. All requested information must be provided, including total ranch acreage, current facility plat, and indication as to who is the property owner (changes are only required for out of date information or for information that was not already entered). Click “Submit and Go to Reconcile Inventory.”
7. Review and reconcile the Herd Inventory. Update individual deer information as necessary. To complete a Facility Closure, the final Herd Inventory must reflect that there are 0 deer in the facility. Breeder deer may only remain in the current inventory during a Facility Transfer. Click “Submit and Enter Births.”
8. Enter all births that occurred in your facility during the past reporting year that have not yet been entered. Once completed, or if there are no births to report, click “Submit and Enter CWD Tests.”

(Continued) Close/Transfer Deer Breeder Facility:

9. Upload CWD test results for any mortalities that were tested and have not yet had results entered. Once completed, or if you have no test results to upload, click "Submit and Return to Checklist."
10. If you are closing your facility and the Herd Inventory reflects that there are 0 deer in the facility, select the "Closure" option, and click "Submit Notification of Closure."
11. If you are transferring the facility to a new owner, select the "Transfer" option and enter "New Property Owner Information." Click "Submit Notification of Closure."

Version beta 1.59.27 11/13/2013 09:02 AM

***Note:** You cannot submit the Closure Notification until all five of the sections and subsections have been completed. Completed sections will display green check marks.

(Continued) Close/Transfer Deer Breeder Facility:

12. You will be notified via email once your facility closure or transfer has been processed.

***Note:** You may leave the Notification of Closure checklist page at any time and all completed sections will be saved.

***Note:** *If you are closing the facility, all deer must be legally removed from the facility before a Notification of Closure can be submitted.*

TRANSFER PERMITS

View All Transfer Permit Records for Your Facility(s):

1. Click the "Transfer Permit" tab.
2. Leave all fields blank in the section titled "Search for an Existing Transfer Permit." Click "Search."

The screenshot displays the Texas Wildlife Information Management Services (TWIMS) website. At the top, the header reads "TEXAS PARKS AND WILDLIFE" and "Texas Wildlife Information Management Services". Navigation links include "Main", "My Profile", and "Logout". Below the header, a menu bar contains "Facility", "Breeder Permit", "Transfer Permit" (highlighted with a red circle), and "Deer/Inventory Lookup".

The main content area features a search section titled "Search for an Existing Transfer Permit" (also highlighted with a red circle). Above this section is a red button labeled "Click Here to Activate a New Transfer Permit". The search form includes the following fields:

- Source Facility ID (text input)
- Source Facility Name (text input)
- Destination Facility ID (text input)
- Destination Facility Name (text input)
- Permit Number (text input)
- Confirmation Number (text input)
- Source Facility County (dropdown menu, currently showing "All")
- Source Facility CWD Zone (dropdown menu, currently showing "All")
- Destination Facility County (dropdown menu, currently showing "All")
- Destination Facility CWD Zone (dropdown menu, currently showing "All")
- Permit Status (dropdown menu with options: Activated, Overdue, Completed)

At the bottom of the search section are two buttons: "Search" (highlighted with a red circle) and "Clear Search".

The footer contains contact information for the Texas Parks and Wildlife Department, including the address (4200 Smith School Road, Austin, TX 78744), toll-free number (800) 792-1112, and Austin number (512) 389-4800. It also includes a copyright notice and a version beta (1.59.27 11/13/2013 09:02 AM).

3. The page that loads will display every transfer permit TPWD has on file for all facilities for which the customer is either an owner and/or agent. The list will order the permits sequentially based on Effective Date/Time with the most recent transfer permit listed first. Up to 10 transfer permits will be displayed per page; numerous pages will load if necessary.
4. You can export a list of all transfer permits to an Excel spreadsheet or to a PDF document for easy printing by clicking on the appropriate button at the bottom of the page.
5. To view a specific transfer permit, locate it in the list and click "View." (see screen shot, next page)

Version prod 1.60.0 11/14/2013 02:28 PM

***Note:** There are numerous options available under “Search for an Existing Transfer Permit” that allow you to search for only the transfer permit(s) you want to view. For example, to view only transfer permits for which your breeding facility was the source, enter your breeder facility ID in the field titled “Source Facility ID” and click “Search.” Only transfer permits for which your facility was the source will be displayed. A copy of any transfer permit can be printed for your records. Please see page 44 for instructions on printing copies of transfer permits.

Search for a Specific Transfer Permit:

1. Click on the “Transfer Permit” tab.
2. The “Search for an Existing Transfer Permit” section allows you to search for transfer permits using any of the fields provided. It is best to use as little information as possible to find a specific transfer permit. For example, try searching for a transfer permit using only the Confirmation Number (the last 5 digits of the Permit Number). Misspelled names will prevent a successful search.

Version beta 1.59.27 11/13/2013 09:02 AM

3. Transfer permits can also be searched for based on “Permit Status.” For example, selecting “Activated” in the “Permit Status” section and clicking “Search” will allow you to view all of the currently activated transfer permits for your facility(s).
4. If you are having trouble finding a transfer permit, leave all fields blank, then click “Search.” This will display all of the transfer permits for any facility(s) for which you are an owner and/or agent.

***Note:** You must be the owner or an agent for the source or destination facility in order to view a transfer permit.

Request to Activate a Transfer Permit:

1. Click on the "Transfer Permit" tab.
2. Click "Click Here to Activate a New Transfer Permit."

The screenshot shows the Texas Wildlife Information Management Services website. The header includes the Texas Parks and Wildlife logo and navigation links: Main, My Profile, and Logout. The main navigation bar has tabs for Facility, Breeder Permit, Transfer Permit (highlighted with a red circle), and Deer/Inventory Lookup. Below the navigation bar, there is a large red button labeled "Click Here to Activate a New Transfer Permit" (also highlighted with a red circle). Below this button is a search form titled "Search for an Existing Transfer Permit". The form contains several input fields: Source Facility ID, Destination Facility ID, Permit Number, Source Facility Name, Destination Facility Name, Confirmation Number, Source Facility County (dropdown), Destination Facility County (dropdown), Source Facility CWD Zone (dropdown), Destination Facility CWD Zone (dropdown), and Permit Status (dropdown). At the bottom of the form are "Search" and "Clear Search" buttons. The footer contains contact information for the Texas Parks and Wildlife Department, a toll-free number, and a version beta date of 11/13/2013.

3. Enter the effective date and time that indicates when the transfer permit will become activate (see screen shot, next page).
***Note:** When selecting a date from the calendar tool, the time is automatically set to 12:00 PM; adjust this time as needed. *The effective date and time for the transfer permit must be in the future.* The Time/Date format is very specific and must be entered as mm/dd/yy hh:mm AM/PM (e.g. 11/13/13 12:15 PM).
4. Enter the Source and Destination Facility ID and the appropriate county in the spaces provided.
***Note:** A Facility ID consists of numbers and a letter at the end to designate the type of facility (e.g. 1234B is a breeder facility, 1234R is a release site, 1234D is a DMP site, 1234N is a nursing facility). Both the number and letter associated with the Facility ID must be entered when activating a transfer permit.

(Continued) Request to Activate a Transfer Permit:

5. Click on “Check Data.”
6. If there are any errors in the information submitted, they will be displayed at the top of the page or next to the error after clicking “Check Data.” Correct any errors that are indicated.

(Continued) Request to Activate a Transfer Permit:

7. If the requested transfer will result in a downgrade of the destination facility's Transfer Category or Class, a warning will be displayed in a pop-up window. Read the information displayed and click "OK" to close the pop-up window.

***Note:** If you are the person requesting the transfer permit and the other person's facility will be downgraded you will see a pop-up window similar to the one below. The other facility will receive an email notification and must log in to TWIMS to either accept or decline the transfer permit. When the transfer permit is accepted by the other facility, its Transfer Category or Class will be downgraded.

The screenshot displays the 'Texas Parks and Wildlife' TWIMS interface for 'Deer Breeder Permits and Herd Tracking'. The main page is titled 'Issue/Activate a New Transfer Permit' and includes instructions for the process. A pop-up window titled 'Category Downgrade Warning' is overlaid on the form, stating: 'This transfer will change the Transfer Category of 2811B to a lower category.' The 'OK' button in the pop-up is circled in red. The background form shows fields for 'Effective Date/Time' (8/20/15 05:00 PM), 'Source Facility', 'Destination Facility' (Facility ID: 2811D, County: Travis), 'Transfer Category' (Category 1), 'Breeder' (ODBS Testing), 'Breeder Serial Number' (TX0000), 'Facility' (TPWD Special), 'Facility Acreage' (8), and 'TAHC CWD Herd Status'. At the bottom of the form are buttons for 'Check Data', 'Submit For Approval', and 'Cancel'. The footer contains contact information for the Texas Parks and Wildlife Department and the version number 'Version dev 1.70.465 08/19/2015 02:34 PM'.

(Continued) Request to Activate a Transfer Permit:

Note:** If you are the person requesting the transfer permit and your facility will be downgraded you will see a pop-up window similar to the one below. ***If you click “Submit for Approval” and the transfer permit is accepted and activated by the other facility, your facility’s Transfer Category or Class will be downgraded.

***Note:** The transfer permit is **NOT VALID** until it has been accepted by the other facility.

Accept or Decline a Transfer Permit:

***Note:** If a transfer permit is not accepted or declined by the requested effective date/time, the transfer permit will become expired and you will not be authorized to transport breeder deer. A new transfer permit will need to be created and accepted in order to transport breeder deer.

1. Click on the “Transfer Permit” tab.
2. Search for the transfer permit that is pending approval using any of the options available under “Search for a Specific Transfer Permit” (see page 34 for instructions on finding a transfer permit). The easiest method to locate a pending transfer permit is to simply click “Search” without entering any information into the search fields.
3. Click “Edit” next to the appropriate transfer permit.

The screenshot displays the 'Texas Wildlife Information Management Services' web application. At the top, there is a navigation bar with links for 'Facility', 'Breeder Permit', 'Transfer Permit', 'Deer Inventory Lookup', and 'Help'. Below this, a search form titled 'Search for an Existing Transfer Permit' is visible. The form includes fields for Source Facility ID, Destination Facility ID, Permit Number, Source Facility County, Destination Facility County, Source Facility Name, Destination Facility Name, Confirmation Number, Source Facility CWD Zone, Destination Facility CWD Zone, and Permit Status. The 'Permit Status' dropdown is set to 'Pending'. A red circle highlights the 'Search' button. Below the search form, a table shows the search results for 3 transfer permits. The table has columns for Confirmation Number, Permit Number, Effective Date/Time, Source Owner Facility, Destination Owner Facility, Status, and Action. The 'Action' column contains 'View' and 'Edit' links. A red circle highlights the 'Edit' link for the first permit. Below the table, there are buttons for 'Export to Excel' and 'Export to PDF'. At the bottom of the page, there is a footer with contact information for the Texas Parks and Wildlife Department and a version number.

Version beta 1.59.52 11/19/2013 10:01 AM

9. If this confirmation screen does not load after clicking “Submit,” required information is missing or TWIMS encountered a different problem (see “Note” below) that prevented successful fawn entry. Any errors will be either flagged or listed at the top of the screen.

***Note:** Your breeder permit authorizes a maximum number of breeder deer that the facility can hold. If the entry of fawns puts your inventory above the maximum allowed number, TWIMS will not allow those fawns to be entered. You will have to request an increase to the maximum number of breeder deer allowed in the facility (see page 23) before the fawns can be entered in TWIMS.

Report Deaths for a Facility:

1. Click on the “Deer/Inventory Lookup” tab.
2. Navigate to the Deer Information page for the breeder deer in question (see page 60 for instructions).
3. On the “Deer Information” page, enter the date of death, and select the cause of death from the drop down menu.

58

(Continued) Submit Escaped Deer Notification:

5. Enter all requested information. All fields are required.
6. Indicate which breeder deer escaped using the section titled “Select Escaped Deer from Herd Inventory.” Highlight the Unique Number of the escaped breeder deer in the deer list on the left by clicking on the appropriate Unique Number. Click “Select.” Clicking “Select All” will move all of the deer in the facility to the Escaped Deer List on the right. The “Remove” and “Remove All” buttons move deer from the Escaped Deer List back to the Herd Inventory List.
7. Click “Submit” once all escaped breeder deer are listed.

8. Deer Breeder Program staff will be notified that the deer have escaped from the facility. If you opt to attempt to recapture the escaped breeder deer, a 10 day recapture period will begin once the notification is submitted.

DEER INFORMATION

How to Navigate to Deer Information Page:

1. Click on “Deer/Inventory Lookup” tab.
2. There are two options to navigate to the “Deer Information” page for a specific breeder deer.

Option 1: Locate the “Search for Deer” section at the bottom of the main “Deer/Inventory Lookup” page. Type the breeder deer’s Unique Number in the space provided, and click “Search.” If the search is successful, the “Deer Information” page for that Unique Number will appear on the next screen. If the search does not find the Unique Number, check that it was entered correctly, or try Option 2 to locate the Unique Number in question.

CWD TESTING

***Note:** All CWD test results will be uploaded directly to TWIMS from Texas A&M Veterinarian Medical Diagnostic Laboratory (TVMDL). All samples sent for testing must be accompanied by a TWIMS generated accession form.

Create a TVMDL Accession Form for Post-Mortem Tests:

Note: A deer must be reported dead in TWIMS before it can be added to an accession form. Refer to page 57 for instructions on reporting a deer's death.

1. Click on the "CWD Monitoring" tab.
2. Click on the appropriate facility ID in which the deer died.

Facility Breeder Permit Transfer Permit Deer/Inventory Lookup CWD Monitoring Help

Post-Mortem Testing: ODBS Testing - TX0000 - 2811B - Not Movement Qualified

[Facility Search > CWD Monitoring >](#)

- The deer listed below are the mortalities in this facility that do not have a CWD test result on file in TWIMS. Use this page to create an accession form for any mortalities that will be tested for CWD. A deer's death must be reported in order to add it to an accession form.
- To create the required accession form, check the 'Add to Accession Form' box next to each deer that was sampled. Once all deer that were sampled are selected, click 'Create Accession Form' and print a copy of the TVMDL Accession Form that is generated. Include this accession form with all tissue samples and deliver as a package to TVMDL for testing. The TVMDL Accession Form must be submitted along with the tissue samples to ensure timely processing of the test results. Ensure that all tissue sample containers are clearly marked with the appropriate unique ID number.

Not Tested Eligible Deaths Count: 9; Not Tested Ineligible Deaths Count: 11

Create Accession Form

Species *	Unique # *	Breeder's ID *	RFID/NUES *	Sex *	Date of Death *	Age at Death *	Add To Accession Form unselect all
WT	4G6R	Yellow 10		M	12/31/2010	77 mo.	<input checked="" type="checkbox"/>
WT	GCVK	White 12		F	06/02/2013	47 mo.	<input checked="" type="checkbox"/>
WT	H19B			F	02/01/2011	32 mo.	<input type="checkbox"/>
WT	H19F	Blue 3		F	01/02/2010	18 mo.	<input type="checkbox"/>

(Continued) Create a TVMDL Accession Form for Post-Mortem Tests:

6. Provide the “Sample Collection Date” and “Tissue Type” information. If multiple samples were collected on the same date, use the “Apply to All” section at the top. Enter the “Sample Collection Date” and click “Apply.” Then enter the “Tissue Type” and click “Apply.” Alternatively, specific “Sample Collection Date” and “Tissue Type” information that differs for each deer can be entered using the appropriate fields in line with each deer in the list.

- Only the deer listed below are eligible for ante-mortem (live) testing at this time. Please carefully review this list to ensure that tissue samples are taken only from deer that are eligible to be sampled. You may print the list of ante-mortem test eligible deer by clicking on 'Export List to PDF.'
- Upon completion of tissue sampling (deer working), return to this page to create the required TVMDL accession form. Check the 'Add to Accession Form' box next to each deer that was sampled. Once all deer that were sampled are selected, click 'Create Accession Form' and print a copy of the TVMDL Accession Form that is generated. Include this accession form with all tissue samples and deliver as a package to TVMDL for testing. The TVMDL Accession Form must be submitted along with the tissue samples to ensure timely processing of the test results. Ensure that all tissue sample containers are clearly marked with the appropriate unique ID number.

Deer Eligible for Testing: 27
