

Target Range Grant Program Application

GENERAL INFORMATION

GRANT REQUEST DEADLINES

REQUEST FOR PROPOSALS (RFP) OPENS MARCH 15TH. APPLICATIONS MUST BE SUBMITTED BY 11:59 PM ON **APRIL 28TH**. NO HANDWRITTEN APPLICATIONS WILL BE CONSIDERED. PLEASE PRINT, SCAN, AND SEND TO THE FOLLOWING EMAIL: EDUCATION@TPWD.TEXAS.GOV. SEE [GUIDE](#) FOR TARGET RANGE GRANTS.

Target Range Program Purpose: To provide the public safe and accessible shooting facilities that align with the Texas Parks & Wildlife Department’s activities and programs. Also, to build partnerships within the target range community, enhance recreational opportunities for shooting sports, and offer hunters regional locations to hone their skills.

Acronyms

ADA	Americans with Disabilities Act
DUNS	Data Universal Numbering System, developed by Dun and Bradstreet Inc.
GAAP	Generally Accepted Accounting Principles
NEPA	National Environmental Policy Act
NRA	National Rifle Association
RFP	Request for Proposals
TPWD	Texas Parks and Wildlife Department
TRA	Target Range Agreement
TRC	Target Range Coordinator
TRSC	Target Range Scoring Committee
USFWS	United State Fish and Wildlife Service

Grant Provisions: The program provides opportunities for construction, development and improvement of firearm and archery range facilities. The goal of the program is to teach students to be safe, responsible, conservation-minded hunters, provide instruction in safe firearm operations, instill ethics, and create awareness of game laws.

Source of Funds: US Fish & Wildlife Service (USFWS), Wildlife Restoration Program. Revenues collected from excise taxes on sporting arms and ammunitions (pistols, handguns, revolvers, bows, archery, and arrow components). An excise tax is an indirect tax charged on the sale of a particular good.

Eligibility: Non-profit organizations, individuals and groups such as commercial target range operators, shooting clubs and local governmental agencies that: 1.) Provide target range access to the general public **and** 2.) Conduct and/or offer hunter education classes. Eligible persons or entities applying for target range funding must sign a 25 year term contract (Target Range Agreement - TRA) with the department, if approved.

Grant Funding: Awardees take on the costs for development/construction and submit eligible receipts to TPWD for reimbursement. A maximum of 75% of eligible costs incurred on the project are admissible for reimbursement. Specific terms and conditions of the project are identified in the TRA.

Applicants must match at least 25% of the total project cost through documented cash expenditures, donated materials and labor or other pre-approved in-kind activities. Match based on federally funded sources are not eligible. Minimum request: \$50,000. Requests are subject to availability of funding.

ELIGIBILITY CRITERIA

All grant applications submitted to the department are reviewed, evaluated for project eligibility and prioritized according to their individual scores. Scoring Criteria is found below. Criteria:

- Projects to construct or enhance archery or shooting range facilities in Texas
- Shooting facilities are accessible to the general public on a regular basis
- Application includes commitment by one or more project operators or sponsors to assume all operation and maintenance costs for the life of the project or at least 25 years
- Project applicant agrees that federal funding is not being received from any other source for the same specific project purpose
- Applicants must have liability insurance unless not required by law
- Applicant must sign a Target Range Agreement (TRA), a two party contract between the recipient and the State
- Property has at least 25 years of land tenure by deed or lease or is owned or held in public trust by a municipality, county agency, state or federal government
- Preference granted for municipal, county, or other lands held in public trust

ELIGIBLE PROJECTS - Projects eligible for cost share funding include, but are not limited to, backstops, berms, target holders, benches, baffles, projectile recycling/remediation, security fencing, signs, lighting, field courses, platforms, roads, parking areas, sanitary facilities, accessibility improvements, storage rooms, shelter buildings, classrooms and durable equipment. Master plan, design and engineering development, **environmental compliance documents:** environmental assessment (EA) as required by the National Environmental Policy Act (NEPA); report and letter of State Historic Preservation Officer (SHPO) and concurrence from Texas Historical Commission (THC) as required by section 106 of the National Historic Preservation Act (NHPA); and informal Section 7 as required by the Endangered Species Act (ESA). **NOTE: TO BE ELEGIBLE FOR GRANT FUNDING, EXPECT TO COMPLETE NATIONAL ENVIRONMENTAL POLICY ACT (NEPA) FEDERAL COMPLIANCE. CAPITAL CONSTRUCTION PROJECTS CAN BE COMPLEX AND REQUIRE UNDERSTANDING OF THE CONDITIONS OF THIS GRANT. FIND THOSE CONDITIONS IN THE [TARGET RANGE AGREEMENT SAMPLE](#). PROJECTS THAT CANNOT MEET THESE REQUIREMENTS SHOULD CONSIDER ALTERNATE FUNDING SOURCES.**

Eligible projects can present pre-award costs from the cost categories shown in the budget. **Pre-award costs** are those incurred prior to the effective date of the Federal award directly pursuant to the negotiation and in anticipation of the Federal award where such costs are necessary for efficient and timely performance of the scope of work. Such costs are allowable only to the extent that they would have been allowable if incurred after the date of the Federal award and only with the written approval of the Federal awarding agency. **Program income** means gross income earned by the non-Federal entity that is directly generated by a supported activity or earned as a result of the Federal award during the period of performance. Program income includes but is not limited to income from fees for services performed, the use of rental or real or personal property acquired under Federal awards, the sale of commodities or items fabricated under a Federal award, license fees and royalties on patents and copyrights, and principal and interest on loans made with Federal award funds. All Program Income generated in a project must be allocated to operational and maintenance costs on the project.

INELIGIBLE PROJECTS

Ineligible projects include exclusive (private) ranges, ranges for the sole use of law enforcement, clubhouses, competitive shooting facilities, employee residences, or other facilities not essential to the operation of the target range or the conduct of hunter education classes, maintenance expenses, land acquisition, portable items that are easily lost or stolen, and items that do not have an unusually short expected useful life.

APPLICATION PROCESS

Applications submitted by the deadline are identified for eligibility then reviewed by the Target Range Program's Grant Scoring Committee. Application reviews take approximately three weeks to complete from the end of the grant request deadline until notice is given to proceed to phase II of the process. Take into account when planning your project and application that applying for federal funding is an inherently challenging process with several complex and integral elements. Applications must be written for a two year project. Projects must start within 6 months of notice to proceed to construction (phase III). Applications written for more than two years will be ruled ineligible. Incomplete grant packages will be returned to the applicant. A complete application is required for consideration of funding.

Application process steps are as follows:

Phase I

Step 1: Applicants submit an application from the Target Range Grant Program during the Request for Proposals (RFP) and by the end of the grant cycle. Reimbursement and match for pre-award costs must be specified in the request.

Step 2: Applicants will be notified by TPWD approximately three weeks after the Target Range Scoring Committee (TRSC) has completed scoring applicants whether they have been selected to continue the application process (phase II) or not. If selected, applicants will need to provide additional information and documentation for regulatory clearances to meet USFWS requirements.

Step 3: Upon receipt, review, and acceptance of full application, TPWD submits proposed project to USFWS for funding approval.

Phase II

Step 4: Upon USFWS approval to TPWD by an award letter for the grant, awardee and TPWD enter into a TRA (contract).

Step 5: Upon signature of the TRA by both parties, **NEPA compliance requirements** outlined in the Award Letter may begin.

Step 6: Once NEPA compliance documents have been accepted by USFWS, Region II, and written approval from TPWD is received, **project construction** may begin.

Phase III

Step 7: Awardee submits quarterly reports, invoices, and documentation to TPWD for review and reimbursement.

Step 8: Awardee notifies TPWD of project completion. Target Range Coordinator conducts visual inspection for completion of deliverables in TRA.

Step 9: Inspection conducted by the National Rifle Association (NRA) Range Technical Team Advisor must be completed before final sign-off.

Step 10: TPWD releases the final 10% (retainage) of grant funds pending final submission/inspection and acceptance of the project.

SCORING CRITERIA

ACTIVITY	Exemplary	Mostly Complete	Partially Complete	Incomplete	POINTS
<p>Safety Improvements (max 20)</p> <p>You may only select from one column</p>	<p>20 points</p> <p>Total projectile containment structures such as baffles, or no-blue-sky structures.</p> <p>Ex: Ballistic safety structures and deflector plates. Full time supervised range (RSO) including cameras.</p>	<p>15 points</p> <p>Addition or improvements to berms, backstops, fences, and lighting.</p> <p>Ex: Comprehensive safety measures are identified and well thought out. Full time RSO. Shaded areas to protect shooters from elements.</p>	<p>10 points</p> <p>Includes range safety and/or security that recognizes the human dimension.</p> <p>Ex: Part-time RSO, little shade on firing line.</p>	<p>5 points</p> <p>Little or no safety features.</p> <p>Ex: Non-staffed facility</p>	
<p>Budget (max 20)</p> <p>You may only select from one column</p>	<p>20 points</p> <p>A clear and conscience explanation of the reason for competing the project for financial assistance and answers the question: Is the project cost effective?</p> <p>Ex: Each element contained in the budget template sample is represented, budget summary is included explaining specific details.</p>	<p>15 points</p> <p>Includes information and explanations of a realistic and executable budget.</p> <p>Ex: Includes most of the elements contained in the budget template sample.</p>	<p>10 points</p> <p>Includes a realistic budget which explains in detail project costs and estimates.</p> <p>Ex: Includes some elements of the budget template sample.</p>	<p>5 points</p> <p>Budget is not realistic or is unachievable.</p> <p>Ex: Budget sample was not followed.</p>	
<p>Noise Abatement (max 20)</p> <p>You may only select from one column</p>	<p>20 points</p> <p>Total noise containment with little to no noise from the range outside the facility.</p> <p>Ex: Indoor target range facility.</p>	<p>15 points</p> <p>Contributes to the actual noise reduction of an existing shooting range facility.</p> <p>Ex: Acoustic materials specifically designed for noise reduction.</p>	<p>10 points</p> <p>Design improves noise abatement.</p> <p>Ex: Insulation.</p>	<p>5 points</p> <p>Little or no noise abatement.</p>	

ACTIVITY	Exemplary	Mostly Complete	Partially Complete	Incomplete	POINTS
<p>Environmental Integrity (max 20)</p> <p>You may only select from one column</p>	<p>20 points</p> <p>Mitigates all environmental impacts associated with shooting activities.</p> <p>Ex: Lead remediation plan is extensive. Range has a strong grasp of environmental compliance associated with target range grants, and has sought out multiple environmental compliance companies to assist with NEPA compliance requirements.</p>	<p>15 points</p> <p>Mitigates most environmental impacts associated with shooting activities.</p> <p>Ex: Lead remediation/ collection every 10 years. Range has considered environmental impacts and contacted environmental compliance firms to assist with NEPA compliance requirements.</p>	<p>10 points</p> <p>Mitigates some environmental impacts associated with shooting activities.</p> <p>Ex: Range uses earthen berms to collect lead, but has no remediation plan.</p>	<p>5 points</p> <p>Little or no environmental consideration provided in the project scope.</p> <p>Ex: Range has not considered lead containment.</p>	
<p>Education, Recruitment, and Retention (max 20)</p> <p>You may only select from one column</p>	<p>20 points</p> <p>Understands and demonstrates that education, recruitment and retention is fundamental to the continuation of hunting and shooting sports. Provides a positive social atmosphere. Offers programs and efforts towards expanding recruitment in hunting and shooting sports.</p> <p>Ex: Offers NSSF's First Shots courses, uses NRA sponsored courses/ classes to enhance firearm knowledge.</p>	<p>15 points</p> <p>Expands shooting opportunities with new, improved and/or additional shooting facilities.</p> <p>Ex: Demonstrates community support through partnerships with FFA, 4-H and other outreach activities.</p>	<p>10 points</p> <p>The range conducts and/or offers classes or courses that promote firearm familiarity and safety.</p> <p>Ex: LTC, Woman's day, some hunter/ shooter recruitment with tournaments and completion.</p>	<p>5 points</p> <p>Little or no support of Texas Hunter Education program/ classes. Only provides LTC courses.</p> <p>Ex: Hunter Education classes are rare or difficult to put on, or range charges additional fees for participation in Hunter Education classes.</p>

DESCRIPTION

Describe the project by typing the following information and describing the need, objectives and approach. Please use additional pages if necessary and attach to the end of the application.

See the following section for explanations:

Need

Objectives

Approach

Expected Benefits

Useful Life

Multipurpose Project

Timeline

Location

Funding

Utilities

Budget Narrative

PLEASE ATTACH SITE MAP(S), PHOTOS, DRAWINGS, AND/OR PLANS TO THE END OF THIS DOCUMENT.

Project Scope Definitions

Need

A need statement will identify why your project addresses a clear necessity in your service area. The need must be relevant to the purpose of the Target Range Grant Program. A need statement will answer why TPWD should provide grant funding for your project. A need statement will provide evidence such as results from surveys, research, or other data to demonstrate that the need is real and not perceived. A need statement will articulate the negative result of taking no action.

Objectives

Clearly state the objectives of this project. Objectives are meant to be realistic and, if achieved, will resolve the project need. Objectives are written in an active tense and use action verbs such as construct, survey, train, research, establish, repair, conduct, or provide. Each objective should be specific, measurable, achievable, relevant to the need and time-bound on when the results will be achieved. You will need to reference benchmarks related to the objectives in your timeline, below.

Approach

The approach describes the specific efforts necessary to accomplish project objectives. The approach answers the question "how" the objectives will be accomplished by describing the actual work that will be done. This information must demonstrate sound design, appropriate procedures, and the name of the project coordinator. Include essential equipment purchases and specific actions that will be taken.

Expected Benefits

The expected benefits and results will specify the benefits of completing the project and resolving the need for a variety of interests. The expected benefits will answer several (if not all) the questions that arise in a readers mind reviewing the project details.

Useful Life

We require a 25-year term as an Agency to meet the useful life requirement. Equipment purchased under the grant should: 1) remain in the stated use of the project, 2) inventories should be maintained, and 3) are auditable by TPWD. Specific requirements for the sale or repurposing of equipment is contained within the TRA. Equipment is defined as tangible, personal property (including information technology (IT) systems) having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds \$5,000.

Multipurpose Project

This project is for the use and benefit of the public. No other project(s) should interfere with this purpose. To determine eligibility, identify whether your project is part of any other federally assisted project, or if you have received other grant monies for the same purpose outlined in the grant award.

Timeline

Applications must be written for a two year project. Projects must start within six months of notice to proceed to construction (phase III).

Location

State the physical location; region, area, community, county and street address if possible.

Funding

State whether there is other Federal, State, or Local government assistance related to this project.

Utilities

Identify if utility structures are onsite and if the project footprint will affect utilities (overhead or underground).

Budget Narrative

Explain in detail all project costs and estimates. Include information and explanations of the reason why you are competing the project for financial assistance with TPWD. Is the project cost effective? Please explain how.

A project sample can be found online under - "Project Statement/ Budget Sample" at the following link:

BUDGET INFORMATION

BUDGET INFORMATION - Construction Programs			
COST CATEGORY	A. Total Project Cost	B. Your Match	C. Grant Request (column A minus column B)
1. Administrative and legal expenses	\$	\$	\$
2. Land, structures, rights-of-way, appraisals, etc.	\$	\$	\$
3. Architectural and engineering fees	\$	\$	\$
4. Other architectural and engineering fees	\$	\$	\$
5. Project inspection fees	\$	\$	\$
6. Site work	\$	\$	\$
7. Demolition and removal	\$	\$	\$
8. Construction	\$	\$	\$
9. Equipment	\$	\$	\$
10. Miscellaneous*	\$	\$	\$
11. Contingencies	\$	\$	\$
12. SUBTOTAL	\$	\$	\$
13. Program income (if any)	\$	\$	\$
14. TOTAL PROJECT COSTS (subtract line 13 from 12)	\$	\$	\$
FEDERAL FUNDING REQUEST			
15. Federal assistance requested, calculate as follows Enter eligible costs from line 14A and Multiply X .75%	Enter the resulting Federal share.		\$

NOTE Planning grants, may use the budget format above, but will only consist of cost categories: 1-5, and 11. Additional information on planning grants can be found at the address above, under the section – “Planning Grants”.

*Pre-award costs, if requested, should be identified as “pre-award request” under the cost category number 10 - Miscellaneous.

COST CATEGORY	INFORMATION AND DEFINITIONS
1. Administration and Legal Expenses	<p>Costs associated with administrative and legal expenses directly related and necessary to the project. Cost Principles are defined as: the standards established in 2 CFR 200 (Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards) for determining the allowable costs for Federal awards carried out through grants and cooperative agreements. A full list of cost principles can be viewed at the following link:</p> <p>http://www.ecfr.gov/cgi-bin/text-idx?SID=fbb70fe83009e152ac327498f6ec18c4&node=se2.1.200_1403&rgn=div8</p>
2. Land, structures, rights-of-way, appraisals, etc.	Costs associated with appraisals, land value (as match), structures (as match).
3. Architectural and engineering fees	Fees and costs associated with project planning and development with an architectural firm or engineering firm.
4. Other architectural and engineering fees	Fees that do not meet the requirements of number 3.
5. Project inspection fees	Technical and project inspection fees.
6. Site work	The physical work on site, at the project location, but not construction.
7. Demolition and removal	Cost for demolition and removal at project location.
8. Construction	All the costs associated with the project's construction, this is usually the greatest portion of funding requests.
9. Equipment	Equipment is defined as tangible personal property (including IT systems) having a useful life of more than one year and a per-unit acquisition cost which equals or exceeds the lesser of the capitalization level established by the non-Federal entity for financial statement purposes, or \$5,000.
10. Miscellaneous	Examples include but are not limited to: volunteer salaries that are associated with the project and that are used as match; costs that are not defined as equipment; and pre-award cost requests such as design, compliance inspections, etc.
11. Contingencies	Contingency is that part of a budget estimate of future costs (typically of large construction projects, IT systems, or other items approved by the Federal awarding agency) which is associated with possible events or conditions arising from causes, difficult to estimate, and that will likely result in additional costs for the approved activity or project. Amounts for major project scope changes, unforeseen risks, or extraordinary events may not be included. In order for actual costs incurred to be allowable, they must comply with the cost principles and other requirements. Payments made by the Federal awarding agency to TPWD or any similar payment made for events the occurrence of which cannot be foretold with certainty as to the time or intensity,

	or with an assurance of their happening, are unallowable. TPWD considers reimbursement of contingency payments on a case-by-case basis.
12. SUBTOTAL	Sum of lines 1 through 11.
13. Program income	<p>Program income means gross income earned by the non-Federal entity that is directly generated by a supported activity or earned as a result of the Federal award during the period of performance. Program income includes but is not limited to income from fees for services performed, the use or rental or real or personal property acquired under Federal awards, the sale of commodities or items fabricated under a Federal award, license fees and royalties on patents and copyrights, and principal and interest on loans made with Federal award funds. A full explanation can be viewed at the following link:</p> <p>http://www.ecfr.gov/cgi-bin/retrieveECFR?gp=1&SID=325476006b2e8ace02240bfe3ba23ff3&ty=HTML&h=L&mc=true&n=pt50.9.80&r=PART#sp50.9.80.i</p> <p>*Program income cannot be added to a grant request, it must be subtracted from the project's subtotal. It must also be reapplied to the project in the form of operational and maintenance costs for the project.</p>
14. TOTAL PROJECT COSTS	Subtract #13 from #12 and enter final project amount.
15. Federal assistance requested	Must be no more that 75.00% of the total project costs.

GRANT CONDITIONS

If application is approved, the Applicant will be required to sign a Target Range Agreement (TRA) containing the terms and conditions upon which funds will be released.

Any expenditure incurred prior to the Target Range Agreement (TRA) start date will not be eligible for cost-share reimbursement and match unless pre-approved and included in the TRA terms.

Grant monies shall be reimbursed upon review and acceptance of invoice and receipts and on an agreed upon schedules as set forth in the TRA.

The Applicant shall maintain all accounting records pertaining to this agreement according to Generally Accepted Accounting Principles and shall make all relevant records, documents, and reports available to TPWD for the purpose of audit examination if requested by TPWD.

Grant recipients will ensure that a sign (specifications provided by TPWD) will be placed and displayed on site at all development projects from the time construction begins until the project is completed.

Grant recipients will ensure that a permanent plaque/sign (specifications provided by TPWD) crediting the appropriate groups for the funding of the project is installed once the project is complete.

TPWD shall have the right of ingress and egress to and from the project area for the purpose of inspecting and determining project compliance with state and federal requirements. By signing you agree to the grant conditions listed above.
