

LAKE BROWNWOOD STATE PARK

BACKGROUND

Lake Brownwood State Park, in Brown County, is located 18 miles northwest of Brownwood on Texas 279, then east on Park Road 15 for six miles. The 538-acre park is located on a peninsula in Lake Brownwood, a 7,300 surface-acre reservoir created by damming Pecan Bayou that is a tributary of the Colorado River. It is located in the Cross-Timbers Region of the state, with oaks and mesquite common to the gentle hills of the area. Public hunts will be conducted throughout most of the park. The Park will be closed to the public during hunt periods. Overnight camping with utilities will be available only to permitted hunters, including cabins. Call (325) 784-5223 for overnight reservations or hunt information. Objectives of the Department are to maintain healthy populations of native fauna and flora in natural habitats and to provide for compatible public use. Where game populations exceed the carrying capacity of the habitat, the preferred method of reduction is public hunting.
