

## Colorado Bend State Park

### Background

Colorado Bend State Park consists of 5,328 acres located approximately 4 miles south of the small community of Bend in San Saba County. Deer hunts were conducted on the acreage under private ownership through the 1986-hunting season and were reinstated under Department ownership during the 1988 season.

Objectives of the Department are to restore and maintain healthy populations of native fauna and flora in their natural habitats and to provide for compatible public use. Where game populations exceed the carrying capacity of the habitat, the preferred method of reduction is public hunting.
