

Devils River State Natural Area Del Norte Unit

Background

Devils River State Natural Area consists of 19,988 acres located approximately 25 miles west of the small Loma Alta Store in Val Verde County (22 miles dirt road off of U.S. Hwy. 277 on Dolan Creek Road). Deer and exotics hunts were conducted on the acreage under private ownership through the 1988 hunting season, exotic hunts were reinstated under Department ownership during the 1991 season.

Objectives of the Department are to restore and maintain healthy populations of native fauna and flora in natural habitats and to provide for compatible public use. Exotics, consisting of Elk, aoudad and Corsican sheep, Catalina goats and axis deer, found on the park escaped from enclosures when the area was under private ownership. The exotic population is scattered and sparse. Hunting is a practical and preferred method of controlling deer and exotics to prevent them from impacting the ecosystem.
