

Huntsville State Park

Background

Huntsville State Park is in Walker County just off I-45 Exit 109 on Park Road 40. The park is located in the East Texas Piney Woods adjacent to the Sam Houston National Forest on the extreme southwestern edge of the Yellow Pine Forest. Objectives of the department are to restore and maintain healthy populations of native fauna and flora in their natural habitats and to provide for compatible public use. Where game populations exceed the carrying capacity of the habitat, the preferred method of reduction is public hunting.
