

Pedernales Falls State Park

BACKGROUND

Pedernales Falls State Park consists of 5,211 acres located approximately 9 miles east of Johnson City in Blanco County. Deer hunts were conducted on the undeveloped Park site during 1971 but were discontinued for the following 14-year period. Populations of white-tailed deer and feral hogs increased unchecked under the total protection to excessive numbers. Public hunts were reinstated during the 1986 season as a population control measure.

Objectives of the Department are to restore and maintain healthy populations of native fauna and flora in natural habitats and to provide for compatible public use. Where game populations exceed the carrying capacity of the habitat, the preferred method of reduction is public hunting.
