

Matador WMA

Hunt Information Gun Feral Hog Hunts

The Matador Wildlife Management Area (WMA) is located in Cottle County, approximately 8 miles north of Paducah on FM 3256. The WMA includes 28,183 acres of rolling plains country along the Middle Pease River, which is typified by rolling plains dominated by mesquite, sand sagebrush and shin oak and canyons dominated by redberry juniper. Rattlesnakes are present on the WMA and **care should always be exercised.**

Average annual rainfall for this WMA is 21 inches. The Rolling Plains is noted for rapid, extreme changes in weather, notably extremes in temperatures.

The purpose of public hunts is to harvest surplus game and provide information for research and management programs. Game species are distributed fairly evenly throughout the WMA. It is advisable for the hunter to spend as much time in the field as possible in order to harvest game. **All vehicles are restricted to the existing road system.** Four-wheel drive vehicles are recommended because portions of the WMA are not accessible by passenger car or two-wheel drive pickup trucks. Hunters may bring portable stands to the WMA.

Primitive campground facilities are available for hunters, located on FM 3256 about $\frac{1}{4}$ and $\frac{1}{2}$ miles west of the WMA office/check station complex. There are no electrical or water hook-ups, however, restrooms are available. Hunters are urged to bring their own food, drink and ice (the nearest store and cafe is 9 miles away). The campground will be open the afternoon prior to scheduled hunts. All hunters are urged to set up camp prior to check-in time. The WMA and campground must be kept clean of trash. **Campers using generators must camp in the campground located $\frac{1}{4}$ mile west of the office/check station complex.** All hunters must have a valid Texas hunting license, permit, stamps, appropriate tags, as required by statute, with them at all times. Only hunters with permits will be admitted. No substitutions allowed within drawn hunt positions.

1. **Drawn and standby hunters must report to the check station by 11:00 a.m. on the first day of the desired hunt period to complete the application process. Hunters must contact the WMA as soon as possible if they are unable to attend their accepted hunt or not able to arrive on the first day for orientation. All hunters must report to the check station at this time for check-in and a brief orientation.** Hunters not present at this time may have to wait until the next morning to sign in and start their hunt. Hunts will conclude at 12:00 p.m. on the final day of the assigned hunt period.
2. A **permitted** supervising adult must accompany hunters under the age of 17. Visitors will not be allowed to accompany hunters into the field. Hunter Education is required of all hunters born on or after September 2, 1971. (See Hunting Guide for more information.)
3. **All hunters must report to the check station every time they enter or exit the hunt area.** All game harvested must be processed through the check station: only game species defined at time of the hunt or on your permit may be taken.
4. **Alcoholic beverages may not be publicly displayed or consumed** on the WMA and persons under the influence of alcohol/drugs will not be permitted to enter or remain on the WMA.
5. All hunters are required to visibly wear a minimum of 400 square inches of daylight fluorescent orange material (vest and headwear).
6. Hunters will be allowed to select hunting compartments, from those which are available based on hunt party size, in the order they were selected by the computer drawing; pre-scouting may be done only during annual public hunting permit (APH) hunts (see schedule).
7. Legal archery equipment and muzzleloaders, as well as modern centerfire rifles/handguns may be utilized by permitted hunters to harvest game during gun hunts. Use of shotguns or rimfire ammunition is prohibited.
8. Do not take any plants, animals (other than legally taken game), or artifacts from the WMA, including shed deer antlers or skulls. Any artifacts found should be left as they are; shed antlers or skulls may be brought to the check station.
9. Hunters in the field and vehicles within the WMA are subject to inspection by WMA personnel and/or game wardens.
10. Hunting from a vehicle or the possession of a loaded firearm in or on a motor vehicle is prohibited, except as allowed by special provisions for handicapped persons. **A loaded firearm is one with a round in the chamber or magazine.**
11. **Killing rattlesnakes is prohibited.**
12. All-terrain vehicles (ATV's) are not permitted on the WMA, except for use by a disabled person or a person directly assisting a disabled person and are limited to public hunting

roads. Proof of disability in the form of a disabled parking placard or disabled vehicle license plate is required.

13. Baiting is permitted on the WMA. However, corn must be labeled as having less than 20 ppb of aflatoxin.

14. **Transporting** youth (under 18 years of age) in an “open bed” of a pickup truck or trailer is prohibited on roads within the boundaries of the Wildlife Management Area.

For further information, call the Matador WMA headquarters at (806) 492-3405.
