

www.Riverwatcher.org - generic data-set from 2014 to current last weekend. Kevin Huffaker 2016

Notes for interpreting data tables: 1.) Location is meaningful because "Upper" is inside San Marcos City Limits; "Lower" is outside of city jurisdiction. 2.) CFS relates to safety - High (fast) CFS may be dangerous, however Low (slow) CFS may result in more overcrowding of the river.

Date	Location	Inflatables	IceChest/		Kayak	Canoe	Paddle		Total	Cubic Ft. Per		Notes
			Cooler	Cooler			Board	Decks		River Flow	Second (CFS)	
Saturday, August 16, 2014	Upper	3,011	67	65	6	4	3,153	117				
Saturday, August 23, 2014	Lower	3,503	42	41	2	4	3,592	0				no CFS data available
Sunday, August 31, 2014	Lower	6,642	88	34	5	7	6,776	0				1st FloatFest Event Wknd
