

## **Landowner Request for Technical Guidance**

- I hereby request technical assistance of the Texas Parks and Wildlife Department Wildlife Division staff in my efforts to enhance habitat and manage wildlife populations on lands under my control.
- Permission is granted to the Texas Parks & Wildlife Department Wildlife Division staff to
  enter upon these lands and conduct, at a mutually agreeable time, wildlife and habitat
  inventories which may include the use of ground vehicles, aircraft, nighttime spotlight
  counts, or other inventory methods to gather data necessary for the development of
  management recommendations.

Section 12.0251 of the Parks and Wildlife Code provides that information collected in response to a landowner request for technical guidance on private land relating to the specific location, species identification or quantity of any animal or plant life is confidential and may not be disclosed. The Department may release game census, harvest, habitat, or program information if the information is summarized in a manner that prevents the identification of an individual or specific parcel of land and the landowner.

 I understand that recommendations will be provided to me or my designated agent in the form of oral and/or written guidelines, which are non-binding and voluntary on my part.
 By my signature, I certify that I am the owner of the below-described property.
