Explore the Trinity River, by bike, horse, foot, or paddle.

Experience the north end of the Trinity River; what you see here will flow all the way to the Gulf. Each of these access points (Hwys 455, 428 and 380), provide a unique view of this important watershed to be explored by bike, horse, foot, or paddle. Because of the Ray Roberts Dam, this river will always be flowing.

STAYING SAFE

KNOW YOUR LIMITS. Prepare for sun and heat. Wear sunscreen, insect repellent and appropriate clothing/hiking shoes.

BRING PLENTY OF WATER. There is no water available along the trails. Your body loses fluid quickly when you're on the trail. Bring a quart of water per hour of activity.

TELL OTHERS WHERE YOU'LL BE. If possible, avoid exploring alone. Tell someone where you are going and when you plan to return.

WEAR A HELMET. When mountain biking, check with park HQ to match the trail to your skill level. Wear a helmet to protect yourself in case of a crash.

POTENTIALLY HARMFUL PLANTS AND ANIMALS LIVE HERE. You'll see them more easily if you stay on trails.
