## Back to Nature

Former fish hatchery ponds go wild at Sheldon Lake State Park & Environmental Learning Center. You can hike, fish or view the results of sustainable resource management: land reclaimed by nature and filled with native birds, fish and grasses.

### STAYING SAFE

**ALLIGATORS LIVE IN THIS PARK.** Stay at least 30 feet away. Stay out of the water! Never annoy or attempt to feed!

**POTENTIALLY HARMFUL PLANTS AND ANIMALS LIVE HERE.** You'll see them more easily if you stay on trails.

**KNOW YOUR LIMITS.** Prepare for sun and heat. Wear sunscreen, insect repellent and appropriate clothing/hiking shoes.

**DRINK PLENTY OF WATER.** Your body quickly loses fluids when you're on the trail. Bring a quart of water per hour of activity.
