Guidelines for the use of the Lake Somerville Trailway

Lake Somerville Trailway, with approximately 21 miles of trails, connects two park units on Somerville Reservoir: Birch Creek Unit is on the north shore (located northwest of Brenham off State Hwy. 36) and Nails Creek Unit on the south shore (located northeast of Giddings off Hwy. 290).

Terrain is gently rolling; the trail passes through dense stands of yaupon and post oak, hickory, Blackjack oak and water oak forests, past scenic overlooks and water crossings. Abundant wildlife can be seen. A bird checklist is available at park headquarters. The trail has one of the best spring wildflower displays in the Texas State Park System.

Facilities: Hikers, all-terrain cyclists and equestrians are permitted on the Somerville Trailway. An equestrian camping area is located at both Birch and Nails Creek Units. Four primitive campgrounds for backpackers and equestrians are located along the trailway. Non-potable water is available at Newman Bottom and Wolf Pond campsites; all primitive campsites have area pit toilets. In addition, Birch Creek Unit has 103 water and electric campsites and a group camp area. Nails Creek Unit has 40 water and electric campsites.

Oil field locations are present along the Lake Somerville Trailway. Please avoid all oil field activity and related equipment.

Trail rules – we ask your help in conserving the park's resources – please observe these trail rules:

EQUESTRIAN RULES

1. Equestrian camping permitted only in designated equestrian campgrounds at Nails and Birch Creek as well as designated primitive campsites on trailway.
2. No persons in a unit of the state park system may ride, drive, lead or keep a saddle horse except on a horseback riding trail or in a horseback riding area so designated and posted.
3. No person may ride a saddle horse in a manner that is dangerous to a person or animal.
4. No person may allow a saddle horse to stand unattended or insecurely tied.
5. No person may hitch a saddle horse to a tree, shrub or structure in any manner that causes damage. Secure horses with a halter and lead rope to hitching posts (provided throughout trail).

BICYCLE RULES

Practice trail courtesy.

1. No person may ride a bicycle in a manner that is dangerous to a person or animal.
2. No person may ride a bicycle on a trail except where so designated and posted.
3. Yield right-of-way to horses and hikers. Slow speed and let other trail users know you are approaching them or passing. When passing a horse from opposite direction, slow or come to a complete stop to avoid startling the horse.

GENERAL TRAIL RULES

1. Walk on designated trails only.
2. Do not cut corners or cut across switch backs. Do not cross fences.
3. Do not take plants, plant parts, ferns, twigs or limbs from trees.
4. It is unlawful to disturb historical or archeological sites or features.
5. Do not litter. Pack out what you pack in. Don't be bashful - feel free to pick up litter left by others less considerate.
6. Carrying or discharging a firearm is prohibited.
7. Pets must be on a leash or secured at all times. Do not leave an animal unattended.

PRIMITIVE CAMPING RULES

1. Camp in designated area only.
2. Ground fires are prohibited.
3. Pack out what you pack in or dispose of trash in designated trash receptacles.
4. Be especially considerate of others when camping. Do not crowd your neighbor or make undue noise. A primitive camp should reflect the peacefulness and serenity of the area.
5. Do not rearrange the landscape with rock ramparts or windbreaks: Never cut branches, saplings or trees. Avoid disturbing the ground cover and topsoil. Locate your camp in order to take advantage of natural drainage and topography. Bed sites or tents should be pitched on naturally flat ground. Do not dig or level an area for a bed site. Please remove all traces of your camp when you leave.

FLASH FLOODS are natural phenomenon in this area. During periods of heavy rain, stay on or move to high ground. Do not attempt to ford creeks.
