POINTS OF INTEREST (GPS coordinates shown in decimal degrees)

1. **SPICEWOOD SPRINGS CREEK**
   31.0144°, -98.4572°
   The inviting area of pools and waterfalls is a great place to cool off in the clear, springfed waters. Swim at your own risk, and help us protect this area by Leaving No Trace.

2. **GORMAN CAVE**
   31.0497°, -98.4696°
   You can see part of this amazing cave from the River Trail. Access is limited by a bat-friendly gate that protects the roosting site of a large group of cave myotis bats.

3. **DOGLEG CANYON**
   31.0474°, -98.4690°
   Enjoy this hidden canyon that feeds the Colorado River. Cliff walls and interesting rock outcroppings make this a unique destination. Include this stop in a hike to Gorman Falls.

4. **TINAJA**
   31.0501°, -98.4975°
   This beechwood depression, carved by springs and seeps, is an important ecological feature as it supports unique plant communities and wildlife.

5. **GORMAN SPRING**
   31.0519°, -98.4858°
   Subterranean waters from miles of contributing drainage are forced to the surface, feeding Gorman Creek and providing the mineral compounds that have built Gorman Falls. Living within the creek is one of the purest strains of our state fish, the Guadalupe bass.

6. **GORMAN FALLS**
   31.0584°, -98.4821°
   Rising 70 feet above the river, Gorman Falls is a unique geological formation. The mineral rich spring water deposits layers of calcite, slowly building formations called travertine. Help protect this sensitive ecosystem by viewing it from a distance.

7. **TIE SLIDE OVERLOOK**
   31.0649°, -98.4856°
   You can see for miles at this overlook which sits more than 300 feet above the Colorado River. Look for Gorman Falls to the south.
Colorado Bend State Park

Discover the quiet wilderness of Colorado Bend State Park.

Rugged beauty and hidden gems await as you hike or bike miles of spectacular trails. From gorgeous views to pristine waters, and deep canyons to riverside trails, there are options for everyone!

**TRAIL SAFETY**

**KNOW YOUR LIMITS.** Be sure you have proper gear and knowledge for your trip. Stay within your abilities and learn the rough terrain here.

**DRINK PLENTY OF WATER.** Your body quickly loses fluids when you’re on the trail. Bring salty snacks and a quart (32 oz.) of water per hour of activity.

**TELL OTHERS WHERE YOU’LL BE.** Avoid exploring alone and buddy up! If exploring nature alone, tell someone or leave a note with your route and timeline.

**BIKE SAFELY.** When mountain biking, wear a helmet and other protective gear. Match your riding ability to the appropriate trail and ask a ranger about the technical features on each trail segment.

**HAZARDS EXIST ALONG THE TRAILS.** Trails may be closed for resource and trail management. Check with a ranger for trail updates and conditions, and respect posted closures.

**Cave Access Is Restricted.** All caves are closed except by guided tour or special permit. Caves contain hazards that could cause injury or death.

**FOR EMERGENCIES, PLEASE CALL 9-1-1.**

**TRAIL ETIQUETTE**

**Trash your trash.** Keep the park natural. Pack out all of your trash and Leave No Trace, including dog waste bags!

**Keep Wildlife Wild.** Be alert for wildlife and avoid wildlife encounters. You might see gray fox, snakes, squirrels, raccoons, deer and more, but do not approach or feed them. Take photos only from a distance.

**Keep pets on a leash and in your control.** For their safety, and to protect wildlife.

**Take only memories and pictures.** Help preserve Texas heritage. Don’t disturb or remove any of the park’s plants, animals, rocks, or artifacts.

**Campfires are permitted only in designated rings and not in the backcountry camping areas due to potential for ground scarring and wildfires.**
