### POINTS OF INTEREST

(GPS coordinates shown in decimal degrees)

- 1 WETLAND WONDERS** 33.3415° -95.6703°  
After sunset, listen as a chorus of frogs welcomes the night from among the cattails and other wetland plants.
- 2 PAST AND PRESENT** 33.3413° -95.6715°  
This beautiful view of Cooper Lake was once a view of the Sulphur River floodplain. Can you imagine what this area looked like before the lake? Pause for a moment to reflect.
- 3 FROM GRASSLAND TO PASTURE** 33.3417° -95.6732°  
During the mid-1800s, the grasslands were transformed with barbed-wire fences. The fertile bottomland soil grew healthy crops and held water for ponds, making it ideal for farmsteads and tenant farms.
- 4 IF TREES COULD TALK** 33.3434° -95.6719°  
Over 100 years ago, oak trees like this one were only saplings. What stories can they tell about the grasslands, where fences changed life on the land forever?
- 5 WATER IS LIFE** 33.3450° -95.6684°  
Spend a moment watching for wildlife, just as farmers watched their livestock at this old farm pond to the north. You may just see an egret or a heron.
- 6 MIGHTY OAKS** 33.3450° -95.6803°  
Gnarled oak trees throughout the park provide cavities and dens, sheltering birds, squirrels, and other small mammals.

## Enjoy the natural beauty of the forest, prairie, and lake.

This park is close to the city, yet far away from the hustle and bustle. Visitors of all ages can take a journey through dense, shaded forest and wide-open prairie along the Cedar Creek Trail, which is named for a nearby community settled in the 1800s.

### STAYING SAFE

**KNOW YOUR LIMITS.** Prepare for sun and heat. Wear sunscreen, insect repellent and appropriate clothing/hiking shoes.

**DRINK PLENTY OF WATER.** Your body quickly loses fluids when you're on the trail. Bring a quart of water per hour of activity.

**TELL OTHERS WHERE YOU'LL BE.** If possible, avoid exploring alone. Tell someone where you are going and when you plan to return.

**WEAR A HELMET.** When biking, always ride to your skill level. Wear a helmet to protect yourself in case of a crash.

**POTENTIALLY HARMFUL PLANTS AND ANIMALS MAY LIVE HERE.** You'll see them more easily if you stay on trails. Do not approach wildlife!

**CHECK FOR TRAIL CLOSURES.** Certain trails may be closed during prescribed burns or for other resource management work.
