from Brent Leisure, State Parks Director

Texas is blessed with a wide variety of public lands and a wealth of cultural heritage. Habitats thrive here. History comes to life. Every one of our state parks is part of a rich legacy, and every one of you plays a role in taking care of it for future generations.

These 630,000-plus acres showcase some of our state’s greatest treasures. Parks help people find fun and relaxation. They also strengthen local economies and communities. Most of all, parks enable us to spend the kind of time in nature we all need to nurture our health and well-being.

We will celebrate our 100th anniversary in 2023. I invite you to get ready for this tremendous milestone by getting to know your parks. There are few better places to make great memories with friends and family.

The parks are here for you. They belong to you. Please come, enjoy, and help protect them for many years to come.

What’s new in state parks?

>> New improvements were made at Fort Boggy, Mother Neff and Palo Duro Canyon.
>> New improvements are planned for Franklin Mountains and Galveston Island.
>> El Camino Real de los Tejas visitor exhibits are being added to Goliad, McKinney Falls and Mission Tejas.
>> Hurricane Harvey recovery continues at dozens of parks statewide.
>> Future state parks:
  • Palo Pinto Mountains SP is open to visitors for special events.
  • Albert and Bessie Kronkoski SNA is welcoming volunteers to survey plant and animal life.
  • Chinati Mountains SNA is gathering input on its public use plan.
  • Powderhorn Ranch, one of the greatest conservation acquisitions of coastal acreage in Texas history, continues to move forward in the park planning process.

THINGS YOU MIGHT SEE

Meet the locals

You may see these and other species in their natural habitats when you visit. Many plants and animals depend on state parks to stay alive and thrive. With every visit, you help manage and conserve the rich biodiversity of Texas.

**Scissor-tailed Flycatcher**
This kingbird has a tail that doubles its body length. It perches in the open and flies out to catch insects in midair, also known as “hawking.”

**Beaver**
A sleek and streamlined swimmer, this semiaquatic rodent assures its water supply and establishes its territory by building a dam and home of mud, rocks and wood.

**Greater Roadrunner**
Whether chasing down reptiles or fleeing from danger, this swift, animated cuckoo often runs instead of flying. Its X-shaped footprint helps conceal the direction it is heading.

**Bobcat**
Shy, and mostly nocturnal, this cat has small tufts on the tips of its ears. Its ability to adapt to changing conditions has allowed this native species to thrive even in landscapes near urban areas.

**Gray Fox**
This elusive, mostly nocturnal mammal has a unique ability to climb trees to hunt or escape danger.
To help keep wildlife wild, please maintain a safe, respectful distance.

**Badger**
With a keen sense of smell second only to dogs, and an ability to dig faster than any mammal, these ferocious fighters will growl, snarl and emit a scent if provoked. They often compete with coyotes for food and are unaffected by snake venom unless struck on the nose.

**Bottlenose Dolphin**
One of over 20 cetacean species found on the Texas coast, these curious, intelligent mammals have stout bodies, short beaks and erect dorsal fins.

**Black-tailed Prairie Dog**
These heavy-bodied rodents live in towns divided into wards and coteries. Family members greet each other with bared teeth and “kiss” as a form of recognition.

---

**What are State Natural Areas?**
These sensitive ecosystems are some of the most valuable native habitats you can visit on public lands in Texas, and they need your help to stay healthy. Please expect more nature, fewer developed facilities and different hours of operation.

Dive into the cool waters of the world’s largest spring-fed swimming pool, which covers 1.75 acres and stays at 72-76 degrees year-round. Scuba divers love the clarity even at a 25-foot depth. In addition to swimming and camping, the park offers lodging at the San Solomon Springs Courts, a retro-style motel built by the CCC in the early 1940s with an adobe look. Canals along the Courts lead to a restored ciénega (wetland), which provides vital fish and bird habitat. *Campground/courts are closed through Spring 2019.*

This interpretive center showcases the diversity of the vast Chihuahuan Desert with a 2.5-acre botanical garden and a bilingual exhibit, “Una Tierra - One Land,” which presents 570 million years of geological changes that created the Big Bend region. The Center also serves as the eastern entry point to Big Bend Ranch State Park. All permits may be obtained here, as well as information regarding hiking, biking, river and equestrian opportunities. Barton Warnock Center manages campsites along the Rio Grande.

Take a hike: Choose from over 140 miles of multiuse trails. You can also mountain bike, ride horses, camp in remote backcountry, or explore in your 4x4. Enter the park via a 27-mile gravel road through rugged terrain that ends at the former owner’s ranch headquarters. Groups can stay at the casual bunkhouse, with separate sleeping areas for men and women.

Find the coolest place in a hot state when you camp in mountains one mile high at this CCC-built park. The park is in the Davis Mountains, the most extensive mountain range fully contained in Texas. Motor into a full hookup site (with cable TV), backpack to a high overlook, make camp under the trees, check out the two beautiful wildlife viewing areas, or stop by Indian Lodge, located in the park. While you’re here, visit Fort Davis National Historic Site or attend a star party at the McDonald Observatory.
Fed by clear springs flowing from seeps and streams, the Devils River is one of the most pristine rivers in Texas. It gives life to diverse plants and wildlife. The state natural area is large and remote. Visit for day hiking, mountain biking, camping and paddling. All camping and facility stays are by reservation only. Make reservations at least one day in advance.

A permit is required for all paddling trips on the Devils River which access TPWD-managed lands. For more information, visit the park’s webpage.

Bring a picnic when you visit this 1848 adobe fortress and trading post, which sits on a bluff overlooking a valley that leads to the Rio Grande. Ben Leaton traded with the Apaches, Comanches and Mexicans here. Today the site is an active museum offering programs, reenactments, tours and colorful events. This is the western gateway to Big Bend Ranch State Park. Enjoy the holidays with the annual reenacted posadas in December.
At the westernmost tip of Texas, where mountains meet sky and cities hug the Rio Grande, lies the largest state park in an urban setting. Franklin Mountains State Park encompasses 26,627 acres in the city of El Paso. Hike rugged terrain in 40 square miles of Chihuahuan Desert wilderness, scrub vegetation and open space. Over 100 miles of multiuse trails are popular with hikers and mountain bikers. Camp and picnic, too. Ground fires must be in designated fire rings. You can build charcoal fires in grills at picnic sites.

Natural rock basins in granite outcroppings give Hueco Tanks its name. These basins capture rainwater, a precious resource in the Chihuahuan Desert. For millennia, people have come for water, as well as for the diverse plants and animals here. These people left behind curious and beautiful paintings. Today this ancient site preserves over 2,000 pictographs. We limit visitors to protect the site. We recommend reservations for day use, camping and tours. Pictograph, hiking and bouldering tours in the guided area are available by advance request Wednesday through Sunday.

OUT OF THIS WORLD, NATURALLY

Bandera is home to TWO “Out Of This World” state natural areas. Hill Country State Natural Area and Lost Maples State Natural Area. Add ‘em to your life list.
Docked at the San Jacinto Battleground near Houston, Battleship Texas is the last surviving dreadnought-type ship in the world. She is the only remaining battleship to have served in both World Wars. Commissioned in 1914, the vessel was the most advanced military weapon on the planet. The Navy repeatedly outfitted the ship with cutting-edge technology over the course of her service life. She was the first U.S. battleship to launch an aircraft, mount anti-aircraft guns, and have radar installed.

Brazos Bend has almost 5,000 acres of lakes, prairies and forests. Live oak trees draped in Spanish moss shade the park's picnic areas. Explore more than 30 miles of multiuse trails, where you'll see alligators, white-tailed deer and over 300 bird species. Choose from six small lakes and a winding, tree-lined creek for fishing. Touch a hatchling alligator at the park's nature center, which is open daily. We offer nature programs every weekend and most holidays.

Port Isabel Lighthouse
State Historic Site
421 East Queen Isabella Blvd., Port Isabel 78578 📞 (956) 943-2262

Sea captains requested this coastal “light,” built in 1852. They needed help navigating the low-lying Texas coast. Technology changes, railroads, and the consequent drop in commercial shipping made lighthouses obsolete. At one time, 16 lighthouses stood sentinel on the Texas coast. Only this one is open to the public today.

A museum, a replica of the lighthouse keeper’s cottage, and picnic tables sit in the shadow of the 72-foot-high tower. The city of Port Isabel operates this park.

“Sea Rim” is where marsh grass and wetlands meet the sea. Silt deposits from the Sabine River delta formed the sea rim here in southeast Texas. Enjoy fishing, crabbing, birding, nature study and swimming on more than 4,000 acres and five miles of Gulf of Mexico beach.

Visit for the day or stay overnight at water and electric or primitive beach campsites, floating tent raft, or cabin. The west dune boardwalk has rinse-off showers. Explore the marsh paddling trails or Gambusia Interpretive Trail, or ride your horse along the beach.
