

TEXAS PARKS AND WILDLIFE

BIRDS

OF

KICKAPOO CAVERN STATE PARK

A FIELD CHECKLIST

2012

Cover: Illustration of Black-capped Vireo by Rob Fleming.

INTRODUCTION

Kickapoo Cavern State Park is located 22 miles north of Brackettville on RR 674 along the Kinney-Edwards county line. The park was purchased in 1986 and is composed of 6,400 acres. The landscape is predominately steep limestone hills with extensive canyons as is typical of the southwestern Edwards Plateau. Interspersed within these limestone hills and canyons are areas of deeper soil where small, open grasslands are found.

The southwestern Edwards Plateau is dominated by Ashe Juniper (*Juniperus ashei*) and Plateau Live Oak (*Quercus fusiformis*). Another interesting feature of this area is a relictual population of Pinyon Pine (*Pinus remota*). The vegetation in the canyons is comprised mainly of wood shrubs, primarily Texas Persimmon (*Diospyros texana*), Vasey Shin Oak (*Quercus pungens* var. *vaseyana*), Agarita (*Berberis trifoliolata*), and Evergreen Sumac (*Rhus virens*). This provides nesting habitat for a variety of passerines.

The avifauna of Kickapoo is a unique combination of birds that are found within the three physiographic regions of Texas which surround the park, the Edwards Plateau, South Texas Brush Country, and the mountains and basins of the Trans-Pecos. This interesting combination of birds provides a unique birding opportunity.

The birds that are probably of the most interest to visitors are the endangered Black-capped Vireo and Golden-cheeked Warbler. Kickapoo Cavern State Park has a large population of the vireo and a small, fairly recently arriving, colony of the warbler. The Black-capped Vireos nest in canyons and other areas where fairly open shrublands. The Golden-cheeked Warbler is found in somewhat atypical habitat dominated by oak motes surrounded by juniper. Other species of interest that can be found on the park include Zone-tailed Hawk, Gray Vireo,

Painted and Varied Buntings and three species of orioles. The grasslands and arroyos are particularly good for a wide variety of sparrows throughout the year.

This checklist includes all species known to occur within the boundaries of Kickapoo Cavern State Park. Checklist nomenclature and organization follow the A.O.U. *Checklist of North American Birds*, 7th Edition (1998) as currently supplemented.

Please help us protect the natural avian communities in our parks by refraining from using playback tapes of bird songs. Frequent use of these tapes disrupts essential territorial behavior and may lead to nest failure. Thank you for your cooperation.

LEGEND

Seasonal Occurrence

- SP = Spring (March, April, May)
- S = Summer (June, July)
- EF = Early Fall (August, September)
- LF = Late Fall (October, November)
- W = Winter (December, January, February)

Abundance Designations

- A = Abundant, always present and observed, expect large numbers in proper habitat and season
- C = Common, always encountered in proper habitat and season, numbers may vary from low to high
- U = Uncommon, usually present in proper habitat and season but may be overlooked, never common or abundant
- O = Occasional, not always present but usually encountered at least once during season indicated, may occur in a narrow time frame within a season or in a very specialized habitat, numbers may vary
- R = Rare, seldom recorded, not expected each season as designated, may not be recorded each year
- X = Accidental, may be observed only once in ten years or more, not expected
- I = Irruptive/Irregular, invasion species which may be absent some seasons/years-abundant others

NOTES

In 1983, the Texas Legislature created the Special Nongame and Endangered Species Conservation Fund. This fund may be used for nongame wildlife and endangered species research and conservation, habitat acquisition and development and dissemination of information pertaining to nongame management. Money for this fund is obtained through private donations and sale of nongame wildlife art prints and stamps. This fund now gives Texans a unique opportunity to help support this state's valuable and sensitive nongame resources. Your individual contributions and purchases of nongame art prints and stamps will help determine the level of nongame conservation activities in Texas. For more information call toll-free (1-800-792-1112) or contact: **Nongame and Endangered Species Program, Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, Texas 78744.**
