

TEXAS PARKS AND WILDLIFE

BIRDS

OF

LAKE CORPUS CHRISTI STATE PARK

A FIELD CHECKLIST

2022

INTRODUCTION

The brush-covered slopes, open waters, and quiet, sometimes marshy margins of Lake Corpus Christi and the lush riparian woodlands along the Nueces River combine to form a localized area whose birdlife is rich and diverse.

Lake Corpus Christi State Park represents one of the few remaining stands of Tamaulipan thorn scrub, sometimes called by the local people chaparral, in the nearby vicinity of metropolitan Corpus Christi. The park and nearby natural areas are an important landfall for migrating birds and play an even greater role in the conservation of plants and animals native to the mesquite grassland of South Texas. Indicated abundance refers to species at the proper season in appropriate habitat (see legend). The checklist was compiled by Gene W. Blacklock, co-author, *Birds of Texas, A Field Guide*, Texas A&M Press, 1994 and *Birds of the Texas Coastal Bend*, Texas A&M Press, 1985. Nomenclature and organization are based upon the A.O.U. *Check-list of North American Birds* (7 ed. as currently supplemented).

You may contribute to our knowledge of park birdlife by reporting sightings of rare, casual or accidental records to area officials. Please request Bird Sighting Report Forms available at park headquarters. Return the completed forms to the Natural Resources Program, Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, Texas 78744; or leave them at the park headquarters.

Please help us protect the natural avian communities in our parks by refraining from using playback tapes of bird songs. Frequent use of these tapes disrupts normal avian activity patterns and essential territorial behavior, and may lead to nest failure. Thank you for your cooperation.

LEGEND

Abundance

A – Abundant: 50+ seen in one day

C – Common: 10+ seen in one day

U – Uncommon: fewer than 5 per day

R – Rare: 1-5 records each season

I – Irregular: erratic and unpredictable but can be common

Ca – Casual: 5-10 records in a decade

Acc – Accidental: not normally expected

Seasons

SPG – Spring: March 15 – June 15

SUM – Summer: June 15 – September 15

FAL – Fall: September 15 – November 15

WIN – Winter: November 15 – March 15

Migration (Timelines): Spring – March 15 through June 15;

Fall – June 15 through January 15

Other Notes

O – Overhead: usually only seen flying over

* – Has nested

Section titles include the bird order (-iformes) until we reach Passeriformes. In Passeriformes, families (-idae) are used due to the breadth of the order.

CITATION

Blacklock, Gene. March 2022. *Birds of Lake Corpus Christi State Park: a field checklist*. Natural Resource Program, Texas Parks and Wildlife Department.

In 1983, the Texas Legislature created the Special Nongame and Endangered Species Conservation Fund. This fund may be used for nongame wildlife and endangered species research and conservation, habitat acquisition and development and dissemination of information pertaining to nongame management. Money for this fund is obtained through private donations and sale of nongame wildlife art prints and stamps. This fund now gives Texans a unique opportunity to help support this state's valuable and sensitive nongame resources. Your individual contributions and purchases of nongame art prints and stamps will help determine the level of nongame conservation activities in Texas. For more information call toll-free (1-800-792-1112) or contact: **Nongame and Endangered Species Program, Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, Texas 78744.**

TPWD receives funds from the USFWS. TPWD prohibits discrimination on the basis of race, color, religion, national origin, disability, age, and gender, pursuant to state and federal law. To request an accommodation or obtain information in an alternative format, please contact TPWD on a Text Telephone (TTY) at (512) 389-8915 or by Relay Texas at 7-1-1 or (800) 735-2989 or by email at accessibility@tpwd.texas.gov. If you believe you have been discriminated against by TPWD, please contact TPWD, 4200 Smith School Road, Austin, TX 78744, or the U.S. Fish and Wildlife Service, Office for Diversity and Workforce Management, 5275 Leesburg Pike, Falls Church, VA 22041.
