

TEXAS PARKS AND WILDLIFE

BIRDS

OF

SOUTH LLANO RIVER

S T A T E P A R K

A FIELD CHECKLIST

2018

INTRODUCTION

South Llano River State Park, a 2,630-acre tract in Kimble County, Texas lies on the west central Edwards Plateau. The clear, usually placid South Llano River courses through the tract. Bottomlands of the South Llano support a local forest of pecan, elm, oak and sycamore that shelters a significant winter roost for the Rio Grande subspecies of Wild Turkey.

Canyons on the escarpment support diverse deciduous woodlands of hackberry, persimmon, walnut, and several species of oak including Live Oak, Shin Oak, Spanish Oak, Lacey Oak and some Chinquapin Oak. Juniper (mostly Blue-berry Cedar) and oak woodlands cover the canyon slopes. Mesquite and succulents are more common in the lowland areas.

Birdlife is characteristic of the canyons of the Edwards Plateau with numerous typically western, "arid-land species" present. Woodlands and gallery forests, particularly along the South Llano River, are excellent habitats in which to observe migrants.

Green Kingfishers and Black Phoebe's can be seen foraging along the clear river. Ringed Kingfishers, though uncommon, can also be viewed by canoeing or kayaking mainly downstream from the park. Black-capped Vireos are usually found just inside the mouths of the canyons or in some of the higher elevations of the park. Hike the Fawn Trail in spring/early summer for this species. The Golden-cheeked Warbler is a rare nester in the area but very frequently observed. Zone-tailed Hawks are frequently observed soaring along the river corridor both above and below the park. The park bird blinds are an excellent place to see species such as Painted Bunting, Black-throated Sparrow, and Spotted Towhee. During the warmer months the Vermilion Flycatcher is a regular around the park headquarters complex or along the high fence on the entrance road. Wild Turkey can be seen foraging in the park lowlands and the WMA throughout the year.

To provide maximum protection for the winter Wild Turkey roost, access to the park's day use area is restricted from October 1 through March 31 to the hours of 10:00 AM to 3:00 PM. Specific details can be obtained by calling South Llano River State Park can be obtained by calling the park at (325) 446-3994.

This checklist was originally compiled by Dr. Nick Jackson, formerly of Junction, and represented observations in the area since 1980. It included 5 years worth of records contributed by C.C. and Iris Wiedenfeld, formerly of San Angelo. Since 2004 the checklist was compiled by Rhandy J. Helton and Ann Lemon of Junction and this edition was updated by Rhandy Helton. A revision of this checklist would not have been possible without the contributions and observations provided by park birding hosts Bill and Rosita Shane. Nomenclature and organization for this checklist follow the 7th edition of the A.O.S. Check-list of North American Birds as currently supplemented.

Please report any new or unusual observations to the state park headquarters. For additional help with finding birds in this area contact the park birding hosts or the checklist compilers.

Please help us protect the natural avian communities in our parks by refraining from using playback tapes of bird songs. Frequent use of these tapes disrupts normal avian activity patterns, including essential territorial behavior, and may lead to nest failure. Thank you for your cooperation.

LEGEND

Abundance (in suitable habitat)

- A Abundant (many should be seen or heard)
- C Common (should always be seen or heard)
- U Uncommon (might be seen or heard but not always)
- R Rare (seldom seen or heard but regular visitor or resident)
- VR Very Rare (irregular, not seen or heard every year, few records)

Seasons

- SPG Spring (March, April, May)
- SUM Summer (June, July, August)
- FAL Fall (September, October, November)
- WIN Winter (December, January, February)

CITATION

Helton, Rhandy. January 2018. Birds of South Llano River State Park and the Walter Buck Wildlife Management Area: a field checklist. Natural Resource Program, Texas Parks and Wildlife Department. Austin.

Cover: Illustration of turkey by Rob Fleming.

In 1983, the Texas Legislature created the Special Nongame and Endangered Species Conservation Fund. This fund may be used for nongame wildlife and endangered species research and conservation, habitat acquisition and development and dissemination of information pertaining to nongame management. Money for this fund is obtained through private donations and sale of nongame wildlife art prints and stamps. This fund now gives Texans a unique opportunity to help support this state's valuable and sensitive nongame resources. Your individual contributions and purchases of nongame art prints and stamps will help determine the level of nongame conservation activities in Texas. For more information call toll-free (1-800-792-1112) or contact: **Nongame and Endangered Species Program, Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, Texas 78744.**

TPWD receives funds from the USFWS. TPWD prohibits discrimination on the basis of race, color, religion, national origin, disability, age, and gender, pursuant to state and federal law. To request an accommodation or obtain information in an alternative format, please contact TPWD on a Text Telephone (TDD) at (512) 389-8915 or by Relay Texas at 7-1-1 or (800) 735-2989. If you believe you have been discriminated against by TPWD, please contact TPWD or the U.S. Fish and Wildlife Service, Office for Diversity and Workforce Management, 5275 Leesburg Pike, Falls Church, VA 22041.
