Catch These Upcoming Events

Two Coastal Fisheries Bay Team tournaments were held on the Lower Laguna Madre and out of Corpus Christi to help marine hatchery biologists collect brood stocks of spotted seatrout.

“Of the brood stock we use each year we turn over about 25 percent and to maintain the genetic integrity of our seatrout stocks we need to have a mix,” said Robert Adams, a TPWD biologist at the CCA/ACML Marine Development Center and event coordinator. “Getting the public to help collect fish allows us to keep our biologists in the field and the office.”

Two lucky angler who contributed fish during the tournaments were winners of lifetime fishing licenses. Heath Schley from La Feria won the drawing in the valley event and Leo Lizondo of Corpus Christi also won. Both anglers also participated in the Corpus Christi event, bringing two other teams from the Valley with them. Other participants receiving fishing gear prizes and every team member received a T-shirt. The prizes, equipment and program are made possible through support from Anheuser-Busch, Inc.

Texas Parks & Wildlife Emjay award-winning Check Your TV Listings art.morris@tpwd.state.tx.us

This newsletter is for you Super Combo license buyers who do it all in the outdoors and care about the future of hunting and fishing and our natural world. Folks like you are important to Texas Parks and Wildlife Department, and I’d like to share a few things we’re doing to earn your continued support.

First off, we’re doing something special for Super Combo customers this fall. Anyone who buys a Super Combo Aug. 15 through the end of December will be automatically entered into a drawing to win a $1,000 outdoor gear shopping spree at Academy and a free Texas State Parks Pass. We’ll be giving away 10 of these great prizes every two weeks throughout the fall, and if you buy a Super Combo you’re in the running for all drawings that follow so the sooner you buy the better your chances. See the enclosed insert and visit our Web site to learn more about this special promotion.

Another thing I’d like to share with you is how and why game bird stamps have been reorganized. Super Combo holders automatically get all needed stamps, so you’ve covered, but it’s worth offering what’s happening here showcases some important conservation issues how needs change, and how we need to be able to change to meet them.

The Texas Legislature this year passed bills that consolidated the three existing game bird stamps into two effective Sept. 1, 2005. We now have a $7 Migratory Game Bird Stamp covering all migratory game birds, including ducks, geese, all hunted dove species and sandhill cranes and a $7 Upland Game Bird Stamp covering wild turkey, quail and pheasants at the key species.

This change was supported by organizations representing game bird hunters, including Texas chapters of Ducks Unlimited, Quail Unlimited, National Wild Turkey Federation, Dove Sportman’s Society and Audubon. These groups sent letters of endorsement and appeared at legislative hearings to testify in favor of the bills.

Game bird stamps have helped make Texas bird hunting some of the best in the world by funding habitat acquisition and enhancement, species research and other items such as equipment for wildlife management areas. Stamp funds are dedicated to game birds and cannot be used for state parks or other purposes. However, situations have changed since these stamps were created decades ago. A broader suite of game bird management needs support, so more flexibility is needed to fund projects that will do the most good for all game birds.

A case in point is the White-Winged Dove Stamp, created in 1971 to acquire and protect whitewing whitwing in the Lower Rio Grande Valley. As a result of these efforts, the whitewing population has grown and spread from the Valley across Texas and beyond. Today, the mourning dove population in Texas is in need of the same efforts throughout their range. Unfortunately, the old system did not allow our agency to spend whitewing funds on other dove species.

A key point here is that we can accomplish more by working at the landscape habitat level. Any habitat project, whether funded by turkey stamp funds or dove funds benefits more than one species.

Indications are this fall will be another good hunting season. I hope you go out and enjoy it. When you do please, know that your license dollars are helping to keep hunting great in Texas.

Super Combo Promotion, Stamp Changes Coming This Fall

The department’s Flat Out Fishing events held this spring at Port Aransas and Galveston offered a day of seminars on flats fishing. The programs focused on ethical fishing habits. Similar events for the future, possibly as early as late winter 2005-2006. Interested anglers in attending Flat Out Fishing can contact Art Morris at the Corpus Christi Field Station at art.morris@tpwd.state.tx.us or (361) 825-3356.

Congratulations to Big Time Texas Hunts Winners

Each year this program raises hundreds of thousands of dollars for wildlife conservation and to provide more hunting opportunities. Please see the enclosed brochure for all the details on this year’s great hunts.

Winners of last year’s Big Time Texas Hunts were selected through a random computer drawing of the last year’s winners:

Grand Slam
Ron Marsh of Laketts

Whitetail Bonanza
Gary Y’alis of Lucas
Ronald L. Cooper of Tomball
James M. Deckelman of Lubbock
Brend C. Harbin of Frederickburg
Gary L. Miller of Elvris
Waldon R. Olsen of San Antonio
Sandra uf. Pendergrass of Marble Falls
Thomas K. Rooght of Austin
Gregory K. Schaller of Deer Park
Glenn A. Liebler of Boerne

Exotic Safari
John W. Popps of Arlington
William E. Neslage of Fredericksburg
Ragnuld G. Cornelius of Marshall

Premium Buck Hunt
Charles A. Gray of Pano

Waterfowl Adventures
Tommy G. Hallford of Mount Pleasant

Big Time Bird Hunt
Robert F. Sis of Wharton

Gator Hunt

This change was supported by organizations representing game bird hunters, including Texas chapters of Ducks Unlimited, Quail Unlimited, National Wild Turkey Federation, Dove Sportman’s Society and Audubon. These groups sent letters of endorsement and appeared at legislative hearings to testify in favor of the bills.

A Proactive Approach to Restoring Quail

Despite reports of a great quail season in South Texas and the Rolling Plains, bobwhite and scaled quail, and about 25 other species of birds that use similar habitats, are in trouble. Since 1985, bobwhites in Texas have declined at a rate of about 5.6 percent annually – a 75 percent loss during our generation. We’ve lost two-thirds of our scaled quail population during that time period.

The fundamental reason for declining quail numbers is loss of habitat. Reduction of habitat through changes in agricultural practices, fragmentation, urban sprawl and conversion of rangelands to exotic grasses like Bermuda has greatly reduced the amount of space available for quail. Many other reasons are cited, including fire ants, predation and weather; but wildlife officials say there is little evidence to support these claims.

If this trend continues, everyone loses. These animals rely on the same types of habitats and environmental processes that provide Texans with revenue, places to live and recreate, water to drink and clean air to breathe. Simply stated, maintaining a healthy Texas lifestyle means maintaining healthy wildlife habitats.

Actions are needed to halt, and hopefully reverse the declines in quail and associated grassland bird species. The Texas Quail Initiative is a strategy for managing habitat and restoring quail populations in Texas. The initiative takes a proactive approach that fosters partnership and cooperation among various state, federal and private entities to initially halt, and then reverse scaled quail and bobwhite declines within areas of remaining habitat. Significant leverage from the average person can do to contribute to such a huge undertaking. The plan calls for Texans to pull together as hunters, landowners, conservation groups, agencies and researchers to identify, modify, and adapt practices and stand that will preserve the state’s quail legacy for future generations.

A 20-page report, “Where Have All The Quail Gone,” outlines a proactive approach to reversing these trends and restoring quail populations in Texas by improving wildlife habitat.

The plight of the quail also has the attention of Texas leadership, and legislation from the recent session that reorganized the state’s dedicated bird hunting stamp programs (see Robert L. Cook’s column).

More information on quail conservation, including a downloadable copy of the quail plan, is available on the Web at: www.tpwd.state.tx.us/...

Catch These Upcoming Events

Want to improve your angling skills or learn more about our saltwater ecosystems? Several coastal fish events from the Texas Parks and Wildlife Department are being conducted along the coast to enhance angling skills and knowledge as well as helping biologists gather brood stocks for hatchery use.

Two Coastal Fisheries Bay Team tournaments were held on the Lower Laguna Madre and out of Corpus Christi to help marine hatchery biologists collect brood stocks of spotted seatrout.

“Of the brood stock we use each year we turn over about 25 percent and to maintain the genetic integrity of our seatrout stocks we need to have a mix,” said Robert Adams, a TPWD biologist at the CCA/CAP, Marine Development Center and event coordinator. “Getting the public to help collect fish allows us to keep our biologists in the field and the office.”

Two lucky anglers who contributed fish during the tournaments were winners of lifetime fishing licenses. Heath Schley from La Feria won the drawing in the event and Leo Bizzotti of Corpus Christi (also the organizer) participated in the Corpus Christi event, bringing two other teams from the Valley with him. Other participants received fishing gear prizes and every team member received a T-shirt. The prizes, equipment and program are made possible through support from Anheuser-Busch Inc.

Once TPWD began enlisting anglers to help catch fish for hatcheries at special tournaments eight years ago, more than 1,200 people have helped increase the numbers of fish.

Southern founder will be the target species during the following upcoming tournaments Oct. 29 at Sabinas Lake; SALT Club and Nov. 12 in Texas City, Texas City Dike. Next year’s event schedule will be expanded to include a tournament out of Port O’Connor.

Anglers interested in becoming a member of the Coastal Fisheries Bay Team can contact Robert Adams at the CCA/CAP, Marine Development Center at robert.adams@tpwd.state.tx.us or (361) 939-7784.

Sponsorship

Anheuser-Busch has been a proud sponsor of many programs, including the Budweiser ShareLunker program, Flat Out Fishing, Public Dove Hunting program and the Coastal Bay Fishing Team. Big Time Texas Hunts (see enclosed brochure) is also sponsored by Anheuser-Busch.

Thanks are due to Anheuser-Busch, Inc. for funding this customer newsletter, without having to use any state funds for printing. Anheuser-Busch has sponsored this newsletter for four years, and their financial support of the Texas Parks and Wildlife Foundation has resulted in millions of dollars of funding for Texas Parks and Wildlife Department conservation and outreach programs.

Anheuser-Busch has been a proud sponsor of many programs, including the Budweiser ShareLunker program, Flat Out Fishing, Public Dove Hunting program and the Coastal Bay Fishing Team. Big Time Texas Hunts (see enclosed brochure) is also sponsored by Anheuser-Busch.

The Texas Parks & Wildlife Expo also depends on the support of Anheuser-Busch, who has been a top sponsor for the past 12 years. The long-standing support of Anheuser-Busch provides much-needed dollars to the department in order to accomplish the mission of keeping Texas a great place to hunt, fish and enjoy the outdoors.

**FOR MORE INFORMATION**
All inquiries Texas Parks and Wildlife Department, 4200 Smith School Rd., Austin, TX 78744, telephone (800) 792-1112 toll free, or (512) 389-4800 or visit our Web site for detailed information about TPWD programs:

www.tpwd.state.tx.us

Just as summer’s heat begins its long but certain bow toward the fall, hunters and anglers from across the state look forward to rewarding themselves with another year of bountiful outdoor experiences.

That’s why the Super Combo license has become such a popular Texas tradition. The “all-in-one” license package remains a great value and still includes a Resident Hunting License and all five state stamp endorsements. Purchased separately these items would cost $187. Purchased as a Super Combo, the catch-all license of $64 punches a ready-anytime, first-class ticket to limitless outdoor opportunities. Perhaps most importantly, revenue from Super Combo sales is by law dedicated exclusively to fisheries and wildlife conservation.

Millions of fish are stocked into Texas waters each year thanks to Super Combo license buyers. Funds from this popular license are also used to manage habitat for deer, turkey, dove and other game, and to support law enforcement efforts.

And snaring a coveted Super Combo license has never been easier. The license, which goes on sale August 15th, can be purchased online at www.tpwd.state.tx.us or at one of more than 2,000 locations throughout the state. For more information, call (800) TX LIC 4 U (1-800-895-4248).

For those of you who do renew your Super Combo license, thanks for helping keep another great Texas tradition alive.
