

BIRDS

OF

OLD TUNNEL

STATE PARK

Legend

To the right of each bird species name are five columns representing the status of each species at Old Tunnel.

- PR** – Permanent Resident
FO – Flyover (seen overhead only)
WR – Winter Resident
M – Migrant
SR – Summer Resident

If a species has been seen on the area during any of the four time periods, the column will contain a letter which indicates the abundance or rarity of sightings of that species. This information will assist you in determining the probability of your identification.

- A** – Abundant (seen on nearly every visit)
C – Common (seen on a regular basis)
U – Uncommon (can be present, but found inconsistently)
R – Rare (seen once every few years)

If you believe you have identified a bird not on the checklist or during an off time period, please send an E-mail to: nyta.hensley@tpwd.state.tx.us

For more information about Old Tunnel SP, please call the information line at (866) 978-2287.

Bird	PR	FO	WR	M	SR
BOMBYCILLIDAE (Waxwings)					
Cedar Waxwing				U
