The *Texas Parks and Wildlife Outdoor Annual 2016–2017* includes regulations for recreational freshwater and saltwater fishing and hunting in Texas. While the Texas Parks and Wildlife Department (TPWD) strives to provide accurate information in the *Outdoor Annual*, hunting and fishing regulations may change due to legislative or Texas Parks and Wildlife Commission actions. The *Outdoor Annual* mobile app may automatically update to reflect published changes upon establishment of a data connection, but users should independently check the associated statutes and regulations to verify their accuracy. For commercial fishing regulations, see the *Commercial Fishing Guide*. For more detailed information on game and fish regulations, contact the Texas Parks and Wildlife Law Enforcement offices at 512-389-4828, or the Texas Parks and Wildlife Department at 800-792-1112 or 512-389-4800 (Mon.–Fri. 8 a.m.–5 p.m.).

# 2016-2017 HUNTING SEASONS

## EXPANDING FISHING ACCESS, REACHING NEW GENERATIONS—THANKS TO YOU

Of all the wonderful ways to experience the outdoors, fishing has to be near the top of the list. And Texas has amazing fishing, from clear-flowing Hill Country streams to big, lazy rivers, reservoirs large and small, coastal bays and Gulf deeps. These varied waters offer a smorgasbord of bluegills, bass, catfish, crappie, red drum, speckled sea trout, flounder—something for every angler.

These rich opportunities are here in no small part due to the stewardship and stocking efforts of our fisheries divisions. TPWD biologists are also committed to providing more fishing access. That includes leasing 17 private riverbank areas for public use on the Brazos, Colorado, Guadalupe, Llano, Neches, Nueces, San Marcos, and South Llano rivers, and overseeing the Neighborhood Fishin' program, where 18 lakes in 11 metro areas draw more than 100,000 people a year, and 50% are children and adults new to fishing.

None of this would be possible without the support of our anglers, who purchase fishing licenses and provide the needed funds to make Texas fishing better all the time. We look forward to seeing you on the water this year!

# CHRONIC WASTING DISEASE: WHAT YOU NEED TO KNOW

BY  
STEVE LIGHTFOOT

Unless you're hunting in one of the few areas where chronic wasting disease (CWD) has been discovered, you probably don't know about this disease. Here's what you need to know about CWD and what hunters and landowners can do to help minimize the impact on Texas deer herds.

CWD is a progressive, fatal brain condition that affects some species of cervids (including, deer, elk, and moose). There is no vaccine or cure. An animal may carry the disease for years without outward indication, but in later stages of the disease, signs may include listlessness, lowering of the head, weight loss, repetitive walking in set patterns, and lack of responsiveness.

CWD is not new; it was first documented in Colorado in 1967 and since then has been 'found in two Canadian provinces and nearly half of the states in the United States. It is almost impossible to eradicate once it becomes established. But what we can do is manage the disease and minimize the risk of it spreading to both wild and captive deer.

The first case of CWD in Texas was discovered in 2012 in a free-ranging mule deer in an isolated area of far West Texas. Hunters in that area are now required to have their deer (white-tailed and mule deer) tested for CWD. The good news is that TPWD monitoring programs indicate that the disease doesn't appear to have spread or increased in prevalence. Another infected mule deer was killed last year by a hunter in the northern Panhandle, and the testing of hunter harvested

white-tailed and mule deer could be mandatory for the 2016-17 season in the area surrounding the site where the deer was killed.

The first cases of CWD in Texas white-tailed deer were found in four deer-breeding facilities in 2015 as a result of routine disease monitoring, which is required by TPWD regulations. Significant disease-management challenges arose after it was found that there was widespread movement of deer between the infected breeding facilities and numerous other breeding facilities scattered across the state, and released into the wild. Increased surveillance was needed in those areas to ensure that the disease had not spread.

The Texas Parks and Wildlife Department regulates all unnatural movement of deer with several permits, including Triple T permits (trap, transfer, and transplant), DMPs (deer management permits), and Deer Breeder permits. To address the threat of additional, preventable disease transmission that unnatural movement of deer poses, and to protect the health of the state's four million free-ranging deer, TPWD has worked collaboratively with a broad group of deer stakeholders to establish new CWD testing requirements for permittees.

Disease experts believe continued hunting to maintain appropriate deer density levels is important for managing CWD in these infected areas. Hunters also play a significant role in helping TPWD determine where the disease is so that management actions can be implemented. Last year, hunt-

ers provided more than 8,000 samples for CWD testing from deer they had harvested. This sampling effort is conducted at no cost to hunters and ensures that CWD is not in the free-ranging deer populations throughout most of Texas. Information and details about voluntary sample collection this season is available online at [tpwd.texas.gov/cwd](http://tpwd.texas.gov/cwd).

CWD poses no known threat to humans, according to the World Health Organization. Because it's possible that CWD can be spread through infected carcasses, it is recommended to leave viscera, brain, and spinal tissue at the harvest site, especially in areas where CWD is known to occur. Disposal in a Class 1 landfill is also an option. Deer harvested from areas being managed for CWD should be processed individually and separately from

## BETTER RIVER FISHING ACCESS

Have trouble finding a place to fish? It just got easier. TPWD has worked with landowners to arrange riverbank access with landowners for public fishing and launching canoes and kayaks along the Brazos, Colorado, Guadalupe, Llano, Nueces, Neches, Sabine, San Marcos, and South Llano rivers. Amenities such as restrooms and running water may or may not be available, and there may not be any on-site staff, but, hey, this is about getting on the

water to fish! If it's pristine, all the better. "These leases are intended to offer a serene wilderness experience and a high-quality fishing opportunity on Texas's scenic, wild, and storied rivers," said Timothy Birdsong, of TPWD's Inland Fisheries Division. Some sites require advance reservations. For more information, check the TPWD website at [tpwd.texas.gov/fishboat/fish/recreational/rivers](http://tpwd.texas.gov/fishboat/fish/recreational/rivers).

## LIGHTS, CAMERA, ACTION!

A new television series on Animal Planet, *Lone Star Law*, premiered in June 2016. The fast-paced series, filmed on location, features Texas game wardens as they patrol throughout the state to protect the state's fish and wildlife resources and keep public waterways safe for innumerable outdoor activities, often encountering the unexpected along the way. For a short preview, go to [facebook.com/LoneStarLaw](https://facebook.com/LoneStarLaw).

## 2015 SAFEST ON RECORD

A little learning can be a lifesaver. Only 20 incidents were reported during the 2015 hunting season—the lowest number of accidents per 100,000 licenses sold since the 1960s. TPWD hunter education coordinator Steve Hall attributes this encouraging report to hunter education, which teaches hunters about the safe handling of firearms. There is still room for improvement, however. The most common types of accidents included bird hunters swinging on game outside a safe zone of fire and careless handling around vehicles. Hall reminds hunters to always point their muzzles in a safe direction. This one rule alone will prevent countless tragedies. See "Hunter Education," page 26.

## CRIME DOESN'T PAY, IT COSTS!

Over the past year, Operation Game Thief (OGT) has received 2,205 tip calls about illegal poaching of game and fish. Some of those tips led to convictions and fines totaling \$7,500, and cost the perpetrators an additional \$6,900 in civil restitution to replace the value of fish and game they confiscated. Poaching is not wise. Rewards to callers for information amounted to \$13,500. No state funds were expended; OGT is financed through donations and fund-raising events. To report game or fish violations, call 800-792-GAME (4263).

## GENERAL HUNTING AND FISHING REQUIREMENTS/RESTRICTIONS

### CRIMINAL PENALTIES AND CIVIL VALUE RECOVERY

#### IF YOU VIOLATE FISH AND WILDLIFE LAWS, IN ADDITION TO CIVIL RESTITUTION YOU MAY:

- be fined (Class C – \$25-\$500; Class B – \$200-\$2,000; Class A – \$500-\$4,000; State Jail Felony, \$1,500-\$10,000);
- be jailed (Class B and higher offenses);
- face automatic suspension or revocation of licenses for up to five years;
- forfeit hunting gear, including firearms, used to commit a violation.

**CIVIL RESTITUTION:** In addition to the criminal penalty for hunting and fishing violations, the department will seek the civil recovery value for the loss or damage to wildlife resources. **The civil restitution cost is payable to Texas Parks and Wildlife Department and is in addition to the fine assessed by the court.** Failure to pay the civil recovery value will result in the department's refusal to issue a license, tag, or permit. An individual who hunts or fishes after the refusal commits a Class A misdemeanor which is punishable by a fine not less than \$500 or more than \$4,000; punishment in jail not to exceed one year; or both fine and confinement.

**LICENSE REINSTATEMENT:** A person who seeks reinstatement of license privileges following license revocation, denial or suspension must apply for license privilege reinstatement and pay a \$100 application fee. For questions concerning civil restitution call (512) 389-4630.

**IMPORTANT NOTE:** Texas is a member of the Interstate Wildlife Violator Compact (IWVC). The IWVC is a multi-state compact that allows member states to share information about wildlife violators and to deny licensure to persons who have failed to comply with conservation law in member states. For example, if a person has had their hunting, fishing or trapping privileges suspended in one member state, the suspension may be recognized by any member state. For more information call (512) 389-4381.

## GENERAL LAW

The following information addresses some of the more commonly asked questions about hunting and fishing requirements and restrictions. For additional information not included in this guide, contact your local game warden or phone the Texas Parks and Wildlife Department (TPWD) toll free at (800) 792-1112.

- **INSPECTION AUTHORITY:** A game warden who observes a person engaged in an activity governed by the Texas Parks and Wildlife Code or reasonably believes that a person is or has been engaged in such an activity may inspect:
  - (1) any license, permit, tag, or other document issued by the department and required by the Texas Parks and Wildlife Code of a person hunting or catching wildlife resources;
  - (2) any device that may be used to hunt or catch a wildlife resource;
  - (3) any wildlife resource in the person's possession; and
  - (4) the contents of any container or receptacle that is commonly used to store or conceal a wildlife resource.
- **PERSONAL IDENTIFICATION:** while hunting, fishing or trapping, persons 17 years of age or older must carry on their person a driver's license or personal identification certificate issued by the Texas Department of Public Safety. Non-residents must carry similar documents issued by the agency in their state or country of residence that is authorized to issue driver's licenses or personal identification certificates.
- **WASTE OF GAME:** It is an offense (Class C misdemeanor) if a person while hunting kills or wounds a game bird or game animal and intentionally or knowingly fails to make a reasonable effort to retrieve the animal or bird and include it in the person's daily or seasonal bag limit. It is an offense if a person intentionally takes or **possesses** a game bird, game animal, or a fish and intentionally, knowingly, or recklessly, or with criminal negligence, fails to keep the edible portions of the bird, animal, or fish in an edible condition. It is a Class A misdemeanor to fail to retrieve or to keep in an edible condition a whitetail or mule deer, pronghorn antelope, or desert bighorn sheep hunted without landowner consent; from a vehicle, boat, or aircraft (including unmanned aerial vehicles); on a public road; at night; or with the aid of a light.
- **RETRIEVAL OF GAME:** No person may pursue a wounded wildlife resource across a property line without the consent of landowner of the property where the wildlife resource has fled. Under the trespass provisions of the Penal Code, a person on a property without the permission of the landowner is subject to arrest.
- **HARASSMENT OF HUNTERS, TRAPPERS, OR ANGLERS** (Sportsmen's Rights Act - TPWD Code, §62.0125) is punishable by a fine of \$200 to \$2,000 and/or 180 days in jail.

- **IT IS UNLAWFUL TO:**
  - take, attempt to take, or possess wildlife resources within a protected length limit, in greater numbers, by other means, or at any time or place, other than as indicated within this guide.
  - store, transport, or abandon an unsecured loaded firearm in a place where children can obtain unsupervised access to the firearm. A person under age 17 who has lawful access to a firearm may hunt with the firearm if the youth has successfully completed the hunter education course, or is accompanied by a licensed hunter age 17 or older who has complied with the hunter education requirement, if applicable.
  - drive a motor vehicle in the bed of a navigable freshwater stream, unless approved by a local river access plan established by a city, county, or river authority. This law does not apply to the Canadian River and Prairie Dog Town Fork of the Red River. There are other exemptions as well. The full text of this law may be found in Texas Parks and Wildlife Code, Chapter 90.
  - fish on privately owned waters, fish in public water from private land, or hunt on privately owned lands without the permission of the owner or the owner's agent. Under the Texas Penal Code (§30.05) it is an offense for any person to enter property that is **fenced, posted with a sign(s), or marked (purple paint)** without the **express permission** of the owner. Posts or trees bearing **purple paint** marking of not less than eight inches in length and not less than one inch in width at not less than three or more than five feet from the ground constitute notice that the property is **posted**. A person who hunts without owner consent and kills a desert bighorn sheep, pronghorn antelope, white-tailed deer, or mule deer commits an offense that is a Parks and Wildlife Code state jail felony. Upon conviction, your hunting and fishing license is automatically revoked. You are not required to have a fishing license to fish in private waters in Texas, but if you are on private property while fishing in public water, a fishing license is required.
  - discharge a firearm on or across a public road.
- **Sale of Inedible Wildlife Parts: The following inedible wildlife parts may be purchased or sold provided the part was lawfully taken or possessed:**
  - Hair, hide, antlers, bones, horns, hooves, or sinew from the following game animals: mule deer, white-tailed deer, pronghorn antelope, desert bighorn sheep, gray or cat squirrels, fox squirrels or red squirrels, and collared peccary or javelina.
  - Feathers from ducks, geese, and brant may be used, purchased, or sold for making fishing flies, pillows, mattresses, and similar commercial uses.
  - Feathers from migratory birds may not be purchased or sold for hats or ornamental purposes nor may a person purchase or sell mounted migratory game bird specimens taken by hunting.
  - Feathers, bones, or feet of game birds other than migratory game birds (turkey, grouse, pheasant, partridge, quail, and chachalaca).
- **Hunter Orange:** No hunter orange is required while hunting on private property, but it is recommended.
- There is no open season for any wild animal, wild bird, or exotic animal on public roads or the right-of-way of public roads. **EXCEPTION: See Reptile and Amphibian, pg. 26.**
- **It is unlawful to possess a deer or any part of a deer that has been hit by a motor vehicle.**

## GENERAL INFORMATION ABOUT LICENSES, ENDORSEMENTS AND TAGS

**See sections on Fishing (pg. 22) and Hunting (pg. 25) for specific licensing information.**  
**License fees ARE NOT refundable.**

**All of the licenses, license packages, endorsements, and tags** listed in this guide, unless otherwise noted, may be purchased at approximately 1,800 locations statewide where licenses are sold.

Many licenses may be purchased by phone or through the Internet with approved Visa, Discover, or MasterCard. Call (800) TX LIC 4 U (1-800-895-4248) between 8 a.m. - 5 p.m. Monday through Friday (closed Saturday, Sunday and most holidays), or log on to: [www.tpwd.texas.gov/licenses/online\\_sales](http://www.tpwd.texas.gov/licenses/online_sales)

**Generally, fishing and hunting licenses and endorsements** are valid from the date of sale through Aug. 31, 2017. Temporary hunting and fishing licenses and packages, Year-from-Purchase fishing licenses and Lake Texoma fishing licenses have different expiration dates.

**A number of "endorsements," historically called "stamps"** are available for purchase with fishing packages (pg. 22) and hunting licenses (pg. 25) at the time a license is purchased. All fishing and all combination packages include one or more endorsements. Additional endorsements are available for purchase anytime during the effective date of the license/package. Actual stamps with pictures on them are no longer issued with hunting and fishing licenses.

**Lost/Destroyed License, Package or Endorsement:** Any type of license or endorsement that has been lost or destroyed may be replaced at any license sales location by signing an Application for Replacement License affidavit. Fees vary from \$3-\$10 for replacement of recreational licenses or endorsements.

A **RESIDENT** is a person who has lived continuously in Texas for more than six months immediately before applying for a license. Members of the U.S. Armed Forces (and their dependents) on active duty anywhere are entitled to purchase a resident license, but the Texas Resident Active Duty Military “Super Combo” package, Texas Resident Active Duty Military All-Water Fishing Package and Texas Resident Active Duty Military Hunting Package are available to Texas residents only. The term “active duty” means full-time duty in active military service, including the National Guard and Reserves of the United States. Such term includes full-time training duty and attendance while in the active military service at a school designated as a service school by law or by the Secretary of the military department concerned. Non-residents under 17 years of age are designated as residents for hunting license purposes (**not valid for Lifetime Licenses**).

Residency is proven by any three of the following (all documents must reflect the applicant’s name and a physical address in Texas). Except for a valid driver’s license or a state issued identification card, documentation is not required at time of purchases or while hunting or fishing:

- a current Texas homestead property tax statement
- the most recent six months of utility bills
- the most recent six months of paycheck receipts
- the person’s most recent tax return from the Internal Revenue Service
- a statement from a parole board or probation officer stating that the person has continuously resided in Texas for the six months immediately preceding the application for a license or permit
- a valid Texas driver’s license\*
- a current Texas voter registration certificate\*
- a current vehicle registration\*

\*must have been issued at least six months prior to license or permit application

A **NON-RESIDENT** is any person who does not meet the requirements listed for qualification as a Texas resident.

**It is unlawful to:**

- hunt or fish without a valid license, or a permit and endorsement on your person and available for inspection by a game warden, unless exempt by age, program or a reciprocal agreement with another state.
- use another person’s license or tag to hunt or fish.
- let someone else hunt or fish with your license or tags.

**It is unlawful to purchase or obtain more than one of the following licenses:**

- |   |   |
|---|---|
| • Resident Hunting                      | • Texas Resident Active Duty Military “Super Combo” Package |
| • Youth Hunting                         | • Resident Combination Hunting and Fishing Package          |

| • Resident “Super Combo” Package        | • General Non-Resident Hunting                              |
| • Senior Resident “Super Combo” Package | • Non-Resident Spring Turkey Hunting                        |

**Collection of Social Security Number (SSN):** The collection of the SSN is mandated by federal and state law (42 U.S.C.A. 666 and Texas Family Code, Section 231.302) for the purpose of child support collection enforcement; however, state law exempts persons 13 years of age and younger from having to provide a SSN to purchase a license. TPWD cannot force persons older than 13 years of age to provide the SSN, but we cannot sell you a license. If you are buying a license for another person, the law requires that the purchaser provide the SSN of the person who will be holding the license.

- In Oklahoma or Arkansas waters of the Red River, the requirements of those states apply, including fishing regulations.
- A person must have a valid Texas fishing license to fish from the Texas bank from Denison Dam to Shawnee Creek (see illustration). An Oklahoma fishing license is required to wade-fish or fish from a boat in these waters.
- An Oklahoma resident 65 years of age or older is exempt from fishing license requirements in Texas, including on Lake Texoma.

- **Lake Texoma License** (Type 208): \$12 - With this license, which is valid until December 31 following the date of issuance, a person may fish in both the Texas and Oklahoma waters of Lake Texoma without any additional Texas or Oklahoma fishing licenses. A Texas resident 65 years of age or older does not need this license to fish in the Oklahoma portion of Lake Texoma. A Lake Texoma license is valid **ONLY** on Lake Texoma.

A hunting license is required of any person, regardless of age, who hunts any animal, bird, frog or turtle in this state (except furbearers, if the hunter possesses a trapper’s license). No license is required for nuisance fur-bearing animals (see pg. 73), depredating hogs or coyotes (see below). Non-residents under 17 years of age may purchase and hunt with the Youth Hunting License (Type 169).

**Exceptions: a hunting license is not required to hunt the following:**

- Coyotes, if the coyotes are attacking, about to attack, or have recently attacked livestock, domestic animals, or fowl.
- Depredating feral hogs, if a landowner (resident or non-resident) or landowner’s agent or lessee is taking feral hogs causing depredation on the landowner’s land.
- Fur-bearing animals, if the hunter possesses a trapper’s license or if the fur-bearing animals are causing depredation.

## **TRANSFER OF WILDLIFE RESOURCES**

A person may give, leave, receive, or possess any species of legally taken wildlife resource, or part of the resource, that is required to have a tag or permit attached or that is protected by a bag or possession limit if the wildlife resource is accompanied by a **Wildlife Resource Document (WRD)** (see pg. 100) from the person who killed or caught the wildlife resource. Also at: [www.tpwd.texas.gov/regulations/outdoor-annual/hunting/general-regulations/transfer-of-wildlife](http://www.tpwd.texas.gov/regulations/outdoor-annual/hunting/general-regulations/transfer-of-wildlife)

- For deer or antelope, a properly executed **WRD** shall accompany the wildlife resource or part of the resource until it reaches its **final destination** and is **quartered** (see Definitions, pg. 54, 55). For turkey, the **WRD** must remain attached until the turkey reaches its **final destination** and is finally processed (see pg. 54).
  - **NO WRD** is required to possess a wildlife resource that is required to be tagged if the wildlife resource is tagged.
- For all other wildlife resources except aquatic resources (for aquatic resources, see “Possession Limit,” pg. 32), a properly executed **WRD** shall accompany the wildlife resource until it reaches the possessor’s permanent residence or a cold storage/processing facility, except:
  - **NO WRD** is required if a person receiving the wildlife resource does not exceed the possession limit (exception: see Migratory Game Birds - Documentation, pg. 69).
  - A person may use the **WRD** provided in this guide (pg. 100) or a handwritten **WRD** document that includes the same required information may be used.

**NOTE:** No **WRD** is required when the entire carcass of a deer (including head, which may be skinned or unskinned) or antelope (including head, which must be unskinned) is given to, or transported by, another person if the tag from the hunter’s license and other required permits or the pronghorn permit remains attached until the carcass reaches its final destination and is quartered.

## **IMPORTATION OF WILDLIFE RESOURCES**

It is unlawful to import a wildlife resource into this state or possess a wildlife resource taken outside this state unless the person possessing the wildlife resource possesses a valid hunting, fishing, or other applicable license, endorsement, tag, permit, or document for the state or country in which the wildlife resource was legally taken. Such documentation must be produced upon request of a game warden.

**NOTE: It is unlawful to land by boat or person any fish taken from public water within a protected length limit, or in excess of the daily bag limit or possession limit established for those fish in Texas, regardless of the state or country in which they were caught.**

A person possessing a wildlife resource for importation must produce, upon request of a game warden, a valid driver’s license or personal identification certificate.

A person may possess an animal or bird killed outside of Texas that is listed in Texas as threatened or endangered, provided that the person possesses proof that the animal or bird possessed was lawfully killed. Proof consists of bill-of-sale, license tag, or notarized affidavit.

**NOTE: (IMPORTS FROM MEXICO)** The requirements listed above are waived if an official United States Customs Officer’s **Statement** is obtained from the United States Customs Office at the port of entry showing that the wildlife resource was brought in from Mexico. The Customs Officer’s statement must accompany the wildlife resource to a final destination.

## SUMMARY OF 2016-2017 RECREATIONAL FISHING REGULATIONS

### General Fishing Rules for Fresh and Salt Waters

For purposes of this guide, salt waters and coastal waters mean the same thing.

#### It is a violation to:

- Take, kill, or disturb sea turtles. If you land a sea turtle, immediately call (866) 887-8535 for information on how to handle the turtle.
- Take, kill, or disturb any endangered or threatened species (paddlefish, shovel-nosed sturgeon, smalltooth sawfish, and others);
- Take or kill diamondback terrapin, sawfish of any species, porpoises, dolphins (mammals), or whales;
- Place any game fish into public waters, other than the body of water where the fish was caught, without a valid permit issued by TPWD. This includes fish caught by pole and line. For permit information, please call TPWD at (800) 792-1112 (menu 4) or (512) 389-4444.
- Use any vessel to harry, herd or drive fish including, but not limited to, operating any vessel in a repeated circular course, for the purpose of or resulting in the concentration of fish for the purpose of taking or attempting to take fish.
- Uproot or dig out any rooted seagrass plant from a bay bottom or other saltwater bottom in this state by means of a propeller. Additional information regarding seagrass regulations: [www.tpwd.texas.gov/seagrass](http://www.tpwd.texas.gov/seagrass)

### Rules on Possession and Transport of Exotic Aquatic Species

#### It is a violation to:

- Possess or transport any exotic aquatic plant or animal listed as harmful or potentially harmful. This includes: plants such as hydrilla, water hyacinth, and giant salvinia; fishes such as tilapia and Asian carps (grass, silver, and bighead carp); and zebra mussels.
- Possess any tilapia, grass carp, or any other fish listed as harmful or potentially harmful without immediately removing the intestines, except on those waters where a valid Triploid Grass Carp Permit is in effect. In those waters, it is illegal to possess grass carp, and any grass carp caught must be immediately returned to the water unharmed. For a list of waters with a Triploid Grass Carp Permit, see [www.tpwd.texas.gov/gcpermits](http://www.tpwd.texas.gov/gcpermits).
- Fail to immediately remove and lawfully dispose of any harmful or potentially harmful aquatic plant that is clinging or attached to a vessel, watercraft, trailer, motor vehicle, or other device used to transport or launch a vessel or watercraft can result in a fine of \$25-\$500.

### Rules Requiring Draining of Water from Vessels Used on Public Fresh Waters

Persons leaving or approaching public fresh water are required to drain all water from their vessels and on-board receptacles (includes live wells, bilges, motors and any other receptacles or water-intake systems coming into contact with public waters). This rule applies at all sites where boats can be launched and includes all types and sizes of boats whether powered or not, personal watercraft, sailboats, kayaks/canoes, or any other vessel used to travel on public waters.

- Live fish, including personally caught live bait, cannot be transported from the water body where the fish were caught in or aboard a vessel in water from the water body where the fish were caught. Personally caught live bait can be used in the water body where it was caught.
- Transport and use of commercially purchased live bait in water while fishing from a vessel is allowed, provided persons in possession of the bait have a receipt that identifies the source of the bait. Any live bait purchased from a location on or adjacent to a public water body that is transported in water from that water body can only be used as bait on that same water body.
- A vessel leaving a public freshwater body may be transported on a public roadway without water being drained, provided the vessel is transported via the most direct route to another access point located on the same water body during that same day.
- Persons participating in a fishing tournament confined to one water body are allowed to transport live fish in water from that single water body to an identified off-site weigh-in location, provided all water is drained and properly disposed of before leaving that location. Participants must possess documentation provided by tournament organizers that identify them as participants in a tournament.
- Marine sanitary systems are not covered by these regulations.

Following these procedures does not exempt persons from complying with prohibitions against transporting exotic aquatic species that are visible to the unaided eye, such as adult zebra mussels, which may be attached to boats or trailers.

## Fishing Restrictions for Spawning Alligator Gar

When conditions such as water temperature and flooding events would be conducive for spawning of alligator gar, the TPWD Executive Director may temporarily prohibit taking or attempting to take alligator gar in a specified area for a period not to exceed 30 days. Conditions that would be used to invoke this action include water temperatures between 68 to 82°F and occurrence of moderate flood levels as defined and reported by U.S. Geological Survey gauges (see [www.srh.noaa.gov/wgrfc](http://www.srh.noaa.gov/wgrfc)). Notice of this action will be posted on the TPWD website, distributed to print and broadcast media, and shared through social media. The notice will specify the area to be closed and when lawful fishing for alligator gar may resume. For current closure notices, visit [tpwd.texas.gov/gar-closure](http://tpwd.texas.gov/gar-closure)

## Fishing in Texas State Parks

A fishing license and endorsement are not required if fishing on State Park property or in waters completely enclosed by a State Park.

On man-made structures (docks, piers, jetties, etc.) within state parks, fishing is by pole-and-line only, with each person limited to two poles. All other fishing regulations, such as length and bag limits, remain in effect.

## Anchoring Boats and Vessels

### It is a violation to:

- Leave unattended for any period of time or anchor a barge, boat, or fishing platform in the Trinity River below Livingston Dam in an area 1,000 feet from the dam to a point 1,500 feet downstream from the dam:
  - for more than 10 hours in a 24-hour period without moving 100 feet or more during that time, or
  - for five or more consecutive days, whether or not it has been moved;
- Anchor or moor a vessel, barge, or structure for a period exceeding two consecutive days within the area in Cedar Bayou between a department sign erected where Mesquite Bay flows into Cedar Bayou and the department sign erected near the point where the pass empties into the Gulf of Mexico.

**Tagging Fish** - It is unlawful to release into the public waters of this state a fish with a device or substance implanted or attached that is designed, constructed, or adapted to produce an audible, visual, or electronic signal used to monitor, track, follow, or in any manner aid in the location of the released fish. It is **legal** to place an identification tag on the exterior of a fish and release this fish back into public waters. Caution is advised as use of these tags can damage fish.

**Waste of Fish** - It is unlawful to leave edible fish or bait fish taken from the public waters of the state to die without the intent to retain the fish for consumption or bait.

## Possession of Fish taken from Public Water

- Any fish caught must be taken by legal means and methods. Fish caught and immediately released are not considered to be in your possession. Any fish not immediately released that are retained by using any type of holding device such as stringer, cooler, livewell, or bucket are considered in your possession and must adhere to established protected length and bag limits. While fishing, it is illegal to be in possession of more fish than the daily bag limit or fish that are within a protected length limit.
- In order to verify length and species, a fish caught may not have the head or tail removed and may not be filleted until an angler finally lands the catch on the mainland, a peninsula, or barrier island not including jetties or piers and does not transport the catch by boat. For broadbill swordfish and king mackerel, the head OR tail may be removed but the remainder of the carcass must remain intact and may not be filleted. For sharks, **ONLY** the head may be removed. The remainder of the carcass (including the tail) must remain intact and may not be filleted.
- Any fish taken from public water and landed by boat or person in Texas must adhere to the protected length limits and daily bag and possession limits established for those fish in Texas regardless of the state or country in which they were caught.
- The bag limit for a guided fishing party is equal to the total number of persons in the boat licensed to fish or otherwise exempt from holding a license minus each fishing guide and fishing guide deckhand multiplied by the bag limit for each species harvested.
- It is unlawful to transport live, nongame fishes taken from the Red River below Lake Texoma downstream to the Arkansas border, Big Cypress Bayou downstream of Ferrell's Bridge Dam on Lake O' the Pines (including the Texas waters of Caddo Lake), or the Sulphur River downstream of the Lake Wright Patman dam. Nongame fishes collected from the above waters may be used as live bait on these water bodies only.

## Special Area Designations and Restrictions

- **It is a violation** to move, remove, deface, alter, or destroy any sign, depth marker, or other informational signage placed by the department within, or to delineate boundaries of the Redfish Bay State Scientific Area.
- **Rio Grande:** Portions of the Rio Grande adjacent to the Black Gap Wildlife Management Area are designated as a "Wild and Scenic River." Special federal rules apply to fishing, boating, and other uses in these areas. For more information concerning these rules and boundaries, call the Big Bend National Park at (432) 477-2251 (menu 3, option 3).

### Gear Tag:

A tag constructed of material as durable as the device to which it is attached. The gear tag must be legible, contain the name and address of the person using the device and the date the device was set out. Date is not required for saltwater trotlines or crab traps fished under a commercial license. For juglines and freshwater trotlines, properly-marked buoys or floats qualify as valid gear tags.

### Nongame Fish:

All species not listed as game fish except endangered and threatened fish which are defined and regulated under separate rules.

### Possession Limit:

The maximum number of fish a person may possess before returning to their residence. Possession limit is twice the daily bag on game and nongame fish, except as provided in this guide, and does not apply to fish in the possession of or stored by a person at their residence.

### Residence:

A permanent structure where a person regularly sleeps and keeps personal belongings such as furniture and clothes, but does not include a temporary abode or dwelling such as a hunting or fishing club, or any club house, cabin, tent, or trailer house or mobile home used as a hunting or fishing camp, or any hotel, motel or rooming house used on a temporary basis.

### Wildlife Resources:

Any wild animal, wild bird, or aquatic life.

When small craft advisories are lifted by 8 a.m. on Saturday, trotlines must be removed by 6 p.m. on Saturday. When small craft advisories or higher marine weather advisories are still in place at 1 p.m. on Saturday, trotlines may remain in the water through 1 p.m. on Sunday. It is a violation to tend, bait, or harvest fish or any other aquatic life from trotlines during the period that trotline removal requirements are suspended under this provision for adverse weather conditions. For purposes of enforcement, the geographic area customarily covered by marine weather advisories will be delineated by department policy.

## Freshwater Fishing Harvest Regulations

- Statewide regulations apply for all public fresh waters except for those locations noted in the Exceptions to Statewide Freshwater Harvest Regulations on pgs. 37-41.
- A person taking or attempting to take game and nongame fish from fresh water for non-commercial purposes is required to have a valid fishing license and a freshwater fishing endorsement.
- The only exceptions to the statewide possession limits, which are twice the daily bag limits, are for striped bass from Lake Texoma and alligator gar from Falcon International Reservoir (see pg. 38-39). Please note that on Caddo Reservoir, Kirby Reservoir, Lake Livingston, Palestine Reservoir, the Sabine River below Toledo Bend Reservoir and Toledo Bend Reservoir where some daily bag limits are larger than the statewide daily bag, the possession limits remain twice the statewide daily bag limits listed on pg. 37.
- For saltwater finfish species caught in the public fresh waters of this state, statewide bag, possession, and length limits as listed on pgs. 44-45 apply.
- Some reservoirs have special regulations for red drum. See Exceptions to Statewide Freshwater Harvest Regulations.

**Statewide Bag and Length Limits** (see below and pgs. 38-41 for exceptions)

Daily bag and possession limit defined on pg. 32.

For fishes not listed above, there are **NO** statewide bag or length limits. There are special requirements associated with the harvest of harmful or potentially harmful exotic fishes (tilapia, grass carp); see pg. 28.

<sup>a</sup>See listing for “Southeast Texas” for largemouth bass limit on pg. 39. <sup>b</sup>See alligator gar fishing restrictions on pg. 29. <sup>c</sup>See notes on “Lawful Archery Equipment” on pg. 33.

**Exceptions to Statewide Freshwater Harvest Regulations**

**Bait Fish Exceptions**

In Brewster, Crane, Crockett, Culberson, Ector, El Paso, Jeff Davis, Hudspeth, Kinney, Loving, Pecos, Presidio, Reeves, Terrell, Upton, Val Verde, Ward, and Winkler counties, the only fishes that may be used or possessed for bait while fishing are common carp, fathead minnows, gizzard and threadfin shad, golden shiners, goldfish, Mexican tetra, Rio Grande cichlid, silversides (Atherinidae family) and sunfish (Lepomis).

**How to use the table (pgs. 38-41):** First, look for your location of interest (lake or river) under **Location**. The locations are listed in alphabetical order. If you find the location you are looking for, first check the counties listed to the right of the locations to make sure you have the correct location. If those match, continue reading to the right and note the codes for regulation exceptions. Exception codes are listed starting on pg. 40.

For instance, Lake Bastrop is located in Bastrop County. The codes for regulations that are exceptions to statewide regulations are **Bass9** and **Gear3**. Locate these codes listed on pgs. 40-41. Then read the description for each regulation exception. Please note MLL = Minimum Length Limit.

If you do not find the location you are looking for, that means **statewide regulations apply**. Please see above for Statewide Bag and Length Limits. If the lake is less than 75 acres and within a public park, it is most likely a **Community Fishing Lake**. See the Community Fishing Lakes listing for regulation exceptions and also see the definition on pg. 32.

Bass 24 inches or greater in length may be temporarily retained in a live well or other aerated holding device and immediately weighed using personal scales. Bass weighing 13 pounds or more may be donated to the ShareLunker Program; otherwise, the fish must be immediately released in the lake where caught. Anglers wishing to donate their bass must immediately cease fishing and contact TPWD at (903) 681-0550. Anglers may not remove the bass from the immediate vicinity of the reservoir unless instructed to do so by TPWD staff. Bass not accepted by TPWD must be immediately released.

**Bass2** - Daily bag for all four species of bass = 8 bass in any combination. Possession limit = 10. For largemouth bass, MLL = 14 inches.

**Bass3** - Catch and release only for largemouth, smallmouth, spotted, and Guadalupe bass.

**Bass4** - Catch and release only for largemouth bass.

## How to Attach Red Drum Tag

Immediately upon retaining a fish:

1. Remove tag from license and use entire tag.
2. Fill in **ALL** information spaces on front of tag.
3. Cut out day and month.
4. Attach tag with a string or wire to the narrowest part of the tail, just ahead of the tail fin (see diagram).

## How to Measure Fish and Crabs

Use these guidelines to measure fish correctly:

1. Place the fish on its side with the jaw closed.
2. Squeeze the tail fin together or turn it in a way to obtain the maximum overall length.
3. Measure a straight line from the tip of the snout to the extreme tip of the tail fin.

## Tips for Releasing Fish

**Releasing fish today means better fishing for tomorrow. Give your fish the best chance at survival by following these tips:**

- Play and land fish as quickly as possible.
- Minimize the time fish is out of the water (no longer than you can hold your breath).
- Wet hands to avoid removing protective slime.
- Smaller fish (under 5 pounds) can be vertically held by the lower jaw. Never hold fish horizontally by jaw unless supporting with a second hand under the fish's body.
- Attempt to remove all hooks before release as most will not rust out.
- For details on hook removal, depressurizing overinflated air bladders, and more fish survival tips, see [www.tpwd.texas.gov/regulations/outdoor-annual/fishing/freshwater-fishing/catch-release-tips](http://www.tpwd.texas.gov/regulations/outdoor-annual/fishing/freshwater-fishing/catch-release-tips)

### For saltwater fishes only

When releasing a fish that cannot right itself or is showing a distended air bladder:

- Gently insert a thin point or an approved device through the side of the fish immediately behind the upper part of the pectoral fin base. This is usually directly below the fourth or fifth spine (see diagram right).
- Revive fish by holding upright in water and facing it into the current, gently forcing water through gills.

## Identification of Yellow, White, Striped and Hybrid Striped Bass

### yellow bass

### white bass

- A** Stripes faint, only one extends to tail.
- B** Body deep, more than 1/3 length.
- C** Has one tooth patch near the midline towards the back of the tongue.

### striped bass

- A** Stripes distinct, several extend to tail.
- B** Body slender, less than 1/3 length.
- C** Has two, distinct tooth patches near the midline towards the back of the tongue.

# SALTWATER FISHING – GENERAL INFORMATION

- For freshwater finfish species caught in the public salt waters of this state, statewide bag, possession and length limits as listed on pg. 37 apply.
- A person taking or attempting to take game and nongame fish from salt water for non-commercial purposes is required to have a valid fishing license and a saltwater fishing endorsement.

## Texas State Waters – Federal Waters

Texas recreational and commercial fishermen fishing more than nine (9) nautical miles off the coast of Texas are in federal waters and are subject to rules and regulations that may differ from those in state waters. An example would be the federal requirement to use non-stainless circle hooks when fishing for reef fish. Recreational anglers must have a Texas fishing license and saltwater endorsement to possess in state water or land in Texas any fish taken in federal waters. To ensure that you are in compliance with federal regulations, you should contact the Gulf of Mexico Fishery Management Council at (888) 833-1844 (toll free). Federal rules may be found online at [www.gulfcouncil.org](http://www.gulfcouncil.org)

The limits and restrictions in this guide apply to aquatic life caught in the public waters of Texas out to nine (9) nautical miles in the Gulf of Mexico, and also apply to aquatic life caught between 9 and 200 nautical miles in the Exclusive Economic Zone (EEZ) and possessed in state waters or landed in this state. (Federal law also regulates species between 9 and 200 nautical miles managed under a Federal Fishery Management Plan.) See pg. 27 for Importation of Wildlife Resources.

**IT IS UNLAWFUL TO POSSESS AQUATIC LIFE IN TEXAS WATERS THAT WAS ILLEGALLY TAKEN IN FEDERAL WATERS.**

## Fish Consumption Bans and Advisories

Fish and shellfish can be a source of high-quality protein in your diet. Fish and shellfish, however, can accumulate contaminants from the waters in which they live. The **Texas Department of State Health Services (TDSHS)** monitors fish in the state for the presence of environmental contaminants and alerts the public through bans and advisories when a threat to human health may occur from the consumption of contaminated fish.

In waters with consumption bans, possession and consumption of fish and/or shellfish is prohibited. Catch-and-release fishing from these areas is allowed. A consumption advisory is a recommendation to limit consumption to specified quantities, species, and sizes of fish. For additional information, a listing of all consumption bans and advisories, or a listing of areas tested where no bans or advisories were issued, call the **TDSHS at (800) 685-0361 (shellfish) or (512) 834-6757 (fish)**.

## Boater Education

**Anyone born on or after September 1, 1993 MUST complete an approved boater education course before operating in public water a vessel of more than 15 horsepower, a windblown vessel of more than 14 feet in length, or a personal watercraft, unless there is another person on board who is 18 years of age or older and who is legally qualified to operate the vessel or personal watercraft.**

For course information, please call TPWD toll-free at **(800) 792-1112** (menu 6) or call **(512) 389-4999** or consult the TPWD Boater Education section at: [www.tpwd.texas.gov/boating/education](http://www.tpwd.texas.gov/boating/education)

## Boating Regulations and Safe Boating Tips

**Each year, over 85 percent of all sportsmen who die in the water were not wearing a life jacket. WEAR YOUR LIFE JACKET! The life you save may be your own.**

If you use a boat:

- **STATE LAW REQUIRES** a wearable-type life jacket (Types I, II, or III) for each person on board. Life jackets must be U.S. Coast Guard approved.
- Children under 13 years of age **must wear** a wearable personal flotation device on a vessel under 26 ft. in length while underway. It is recommended that non-swimmers always wear a life jacket on the water. In addition, a Type IV throwable-type life jacket is required on boats 16 feet in length and longer.
- **STATE LAW PROHIBITS** intoxicated persons (.08% BAC) from operating a boat.
- **CHECK THE WEATHER** and give a "float plan" to a friend before departing.
- See the **Texas Water Safety Act Digest** available on the TPWD website for a detailed summary of boating regulations.

## HELLO INVASIVE SPECIES. GOODBYE TEXAS LAKES.

Texas' waterways are under attack by invasive species that push aside native plants and animals, throwing aquatic ecosystems out of whack. Invasive plants like giant salvinia can double in size in a week and block recreational access. And species like zebra mussels can hinder water recreation, damage your boat and affect our water supply.

**Don't be a carrier. Prevent the spread of invasive species by following 3 steps EVERY time you leave the water:**

- 1. CLEAN.** Inspect your boat, trailer and gear and remove all plant material, mud and foreign objects.
- 2. DRAIN.** Remove all water from the boat, including the motor, bilge, livewells and bait buckets.
- 3. DRY.** Open all compartments and allow the boat and trailer to dry for a week or more before entering another body of water. If you can't dry the boat and trailer for at least a week, wash them with high-pressure, hot soapy water instead.

Possession or transportation of aquatic invasive species without a permit is illegal in Texas. Boaters are also required to drain all water from their boat and gear before approaching or leaving a public water fresh water body. The penalty for the first offense is a fine of up to \$500. The penalty for a repeat offense is a fine of up to \$2,000, up to 180 days in jail, or both.

**Learn more at [www.texasinvasives.org](http://www.texasinvasives.org). For a list of harmful and potentially harmful aquatic species, visit [www.tpwd.texas.gov/invasives](http://www.tpwd.texas.gov/invasives)**

**GOOD FISHING DEPENDS ON CLEAN WATER.** Algae blooms affect fishing spots, creating "dead zones" where no aquatic life can survive. The cause is usually pollution from fertilizers, septic systems, animal waste, and sewage treatment plants. Everyone can do something to help. Supporting water quality protection supports great fishing! Learn more at: [www.epa.gov/nutrientpollution/](http://www.epa.gov/nutrientpollution/)

## AN ETHICAL HUNTER...

- Is responsible, careful, considerate, capable and courteous.
- Is mindful of the non-hunting public.
- Properly tags and transports game appropriately.
- Takes safe, considerate and non-offensive photos.

Written laws tell us what we can and cannot do. Unwritten laws (ethics) tell us what we should and should not do.

The open season includes both dates and all days between. Unless otherwise specified, the open season is a "general" season and all legal means, as specified in this guide, may be used in taking the species. Where the open season is designated as "archery," only legal archery equipment/crossbow as specified below may be used. Where the open season is designated as "muzzleloader only," only muzzleloaders as defined below may be used. When a season is designated as a "youth-only," special regulations apply (see pgs. 65-67). See definition of "youth" (pg. 55).

  - pellet guns and other air guns are **NOT LEGAL** for the take of any game bird or game animal other than squirrel. To be lawful for the take of squirrel, an air rifle must be designed to be fired from the shoulder and use the force of a spring, air, or other non-ignited compressed gas to expel a projectile of at least .177 caliber (4.5mm) at a minimum muzzle velocity of 600 feet per second.
  - fully automatic firearms are **NOT LEGAL**.

- **Nongame Animals:** Archery and crossbows are lawful for non-protected nongame animals.
- **Longbows, compound bows, or recurved bows:**
  - there is no minimum draw requirement.
  - devices that allow a bow to be locked at full or partial draw are lawful during any season when lawful archery equipment may be used.
- **Crossbow**
  - **IMPORTANT NOTICE:** Crossbows are lawful for any person during the Archery-Only Open Season in all counties, except in Collin, Dallas, Grayson, and Rockwall counties, where no person may use a crossbow to hunt deer during the Archery-Only Open Season (Oct. 1-Nov. 4, 2016) unless the person has an upper-limb disability and has in immediate possession a physician's statement that certifies the extent of the disability. An upper-limb disability is a permanent loss of the use of fingers, hand, or arm in a manner that renders the person incapable of using a longbow, compound bow, or recurved bow.
  - **Any person**, regardless of physical ability, may use a crossbow to hunt game animals or game birds in any county, including Collin, Dallas, Grayson, and Rockwall counties, during a general open season or Eastern spring turkey season.
  - An archery endorsement is required to hunt deer during the Archery-Only Open Season. An archery endorsement is required to hunt deer at any time in Collin, Dallas, Grayson, and Rockwall counties, including during the general open season (Nov. 5, 2016 - Jan. 1, 2017).
  - A crossbow is lawful for game animals and game birds, provided:

  - When used to hunt turkey and all game animals other than squirrels, a projectile must be equipped with a broadhead hunting point that is at least 7/8-inch in width (upon impact) and has a minimum of two cutting edges. A mechanical broadhead must begin to open upon impact and, when open, must be a minimum of 7/8-inch in width.
  - An archer may have arrows/bolts with field, target, or judo points in the quiver with the broadhead hunting points.

### Falconry

For information on permitting or hunting regulations for falconry, call (800) 792-1112 (menu 7) or (512) 389-4481.

### RESTRICTED Methods

- It is **unlawful** for any person, while hunting or engaging in recreational shooting, to knowingly discharge a firearm in such a fashion as to cause a projectile to cross a property line, unless the person owns the property on both sides of the property line or has obtained written permission from the owner of any land crossed by the projectile.
- **Remote-controlled Hunting:** A person may not engage in computer-assisted remote hunting of any animal or bird or provide or operate facilities for computer-assisted remote hunting if the animal or bird being hunted is located in Texas.
- **Artificial light** of any form that casts or reflects a beam of light onto or otherwise illuminates a game animal or bird may not be used as an aid to hunt, **except** battery-powered scoping devices that project a light or dot only inside the scope, pin sight lights on archery equipment, or laser sighting devices used by legally blind hunters, or hunters who have a documented permanent physical disability that prevents them from using traditional firearm sighting devices.
  - Legal blindness is: no more than 20/200 of visual acuity in the better eye with correcting lenses or visual acuity greater than 20/200, but with a limitation in the field of vision such that the widest diameter of the visual field subtends an angle no greater than 20 degrees. Blind hunters must be assisted by a licensed hunter at least 13 years of age who is not legally blind. Blind hunters must possess a physician's signed statement attesting to legal blindness.
  - A person who uses a laser sighting device because of a permanent physical disability that prevents them from using a traditional firearm sighting device must have in possession a signed statement from

a physician or optometrist certifying that the person is incapable of using a traditional firearm sighting device and be accompanied by a person who is not physically disabled or legally blind, has a hunting license, and is at least 13 years of age.

- **Hunter education requirements apply to legally blind hunters, hunters with a documented permanent physical disability, and persons assisting blind or disabled hunters.**
- Non-protected nongame animals and fur-bearing animals may be hunted at night with the aid of an artificial light on private property. If hunting at night, please make a courtesy telephone call to your local game warden.
- **Traps** may not be used to hunt game birds or game animals.
- **Dogs** may not be used to hunt deer in this state.
  - A person is prohibited from using a dog to hunt or pursue deer in this state. A person who violates this law is subject to a fine of \$500-\$4,000 and/or a year in jail. Additionally, a person's hunting and fishing licenses may be revoked or suspended. In addition, no person may possess a shotgun and buckshot or slugs while in the field with dogs on another person's land during an open deer season in Angelina, Hardin, Jasper, Nacogdoches, Newton, Orange, Sabine, San Augustine, Shelby, and Tyler counties.
  - Not more than two dogs may be used to trail a wounded deer in counties not listed above. A "wounded deer" is a deer leaving a blood trail.
- Pheasant may not be hunted by means of a cable, chain, or rope connected to or between a moving object or objects.
- **Aircraft (including unmanned aerial vehicles)** may not be used to hunt any animal or bird unless authorized by the department.
- See County Listings for additional regulations (pgs. 76-99).

#### LEGAL Methods

- Animals and game birds not classified as migratory may be hunted from a motor vehicle, powerboat, sailboat, or from any other floating device within the boundaries of private property or upon private water. Migratory game birds under certain circumstances may be hunted from a boat on public water. See the migratory game bird section for the exceptions (pg. 69, Lawful Hunting Means and Methods).
- **Calling devices** (including manual and mouth-operated), recordings, and electrically amplified calls may be used to hunt game animals and game birds, except electronic calls may not be used to hunt migratory game birds, unless allowed by special regulation.
- **Decoys** may be used to hunt game animals and game birds, except that no person may use live decoys when hunting migratory birds.
- **Baiting** for game animals, nongame animals, and game birds is lawful on private property, except for turkey in certain East Texas counties (see pg. 67) and migratory game birds statewide.
- **Trapping** may be used for nongame/exotic animals (e.g., feral hogs, rabbits, etc.) on private property.
- **Dogs** may be used to aid in the hunting of any game bird.

## TAGGING DEER OR TURKEY

#### Filling Out the Tag for Attaching to Deer or Turkey

If required, the tag from the hunting license of the person who killed the deer or turkey must be correctly and legibly completed (including name of property and county) and must:

- be used on a specific type of deer or turkey (for example, buck tags must be used only on buck deer, antlerless tags on antlerless deer, etc.).
  - have the month and date of kill **CUT OUT**.
- It is against the law to use:
- a tag taken from the license of another person or allow your tag to be used by another person.
  - a tag more than one time (or on more than one deer or turkey).
  - an incorrect tag on a deer or turkey (example: mule deer tag used on a white-tailed deer, etc.).

#### Where to Attach Tag to Deer or Turkey

The hunting license tag may be attached anywhere on a deer or turkey so that it is not damaged, defaced, or lost in transporting or handling. For deer, the appropriate tag or applicable permit must remain attached to the deer until the deer reaches its final destination and is quartered. If the animal is a deer and the head is severed from the carcass (body), then the appropriate tag or applicable permit must remain attached to the carcass. See Proof of Sex section, pg. 61. If the head does not accompany the carcass, then the head must be accompanied by a Wildlife Resource Document (WRD). See Transfer of Wildlife Resources, pg. 27. For turkey, the applicable tag must remain attached until the turkey reaches its final destination and is finally processed.

**TIP:** Remember that if the head and the carcass are separated, the tag from the hunting license goes with the carcass and the WRD goes with the head.

## Deer

**Chronic Wasting Disease (CWD)** is a fatal deer disease that has been discovered in white-tailed deer and mule deer in localized portions of Texas. In order to detect and manage this disease, the department has designated CWD zones within which the intact, unfrozen head of any white-tailed or mule deer harvested by a hunter must be presented at a TPWD-designated check station within 24 hours of harvest. Current CWD zones exist in all or portions of Culberson, El Paso, and Hudspeth counties and the department is considering the designation of additional zones in all or parts of Dallam, Deaf Smith, Hartley, Moore, Oldham, Parmer, Potter, Randall, and Sherman counties. Additional regulations may apply and additional zones may be established without prior notice anywhere in the state upon discovery of CWD. The department will make every effort to publicize the designation and location of CWD zones and check stations, as well as any special regulations that may be adopted following the publication of this notice. For additional or updated information, call any TPWD office (pg. 18) or 1-800-792-1112, or visit [www.tpwd.texas.gov/CWD](http://www.tpwd.texas.gov/CWD)

- Except for deer taken under by MLD permit, LAMPS permit, TPWD Special Drawn Legal Deer Tag, U.S. Forest Service antlerless permit, or Big Time Texas Hunt, **all deer** must be tagged **IMMEDIATELY** upon kill, in a secure manner anywhere on the deer, with an appropriate license tag with the month and date **CUT OUT**.
- IMPORTANT: TAGS #5 and #6 ARE FOR WHITE-TAILED ANTLERLESS DEER ONLY. TAGS #7, #8, and #9 ARE FOR WHITE-TAILED BUCK OR ANTLERLESS DEER. BUCK TAGS MAY BE USED IN ANY COUNTY; HOWEVER, LACK OF CAREFUL PLANNING WITH TAGS #7, #8, and #9 MAY REDUCE THE NUMBER OF WHITE-TAILED BUCK DEER YOU MAY LAWFULLY TAKE.**

**NOTICE: READ THE TAG USE DESCRIPTION ON YOUR LICENSE CAREFULLY BEFORE ATTACHING TO HARVESTED DEER.**

Tag Number	USE ON WHITE-TAILED DEER ONLY:
5	White-tailed Deer - <b>Antlerless ONLY</b>
6	White-tailed Deer - <b>Antlerless ONLY</b>
7	White-tailed Deer - <b>Buck or Antlerless</b>
8	White-tailed Deer - <b>Buck or Antlerless</b>
9	White-tailed Deer - <b>Buck or Antlerless</b>

**NOTE:** The white-tailed deer tags on the license may be used in any county during an open season for white-tailed deer.

Tag Number	USE ON MULE DEER ONLY:
10	Mule Deer - Antlerless Only Valid <b>ONLY</b> during archery-only special season in Brewster, Pecos, or Terrell counties
11	Mule Deer - Buck or Antlerless Valid for buck deer in any county during any open mule deer season AND for antlerless deer during archery-only special season in Brewster, Pecos, or Terrell counties

**NOTE:** The mule deer tags on the hunting license **ARE NOT** mule deer permits and **MAY NOT** be used in lieu of mule deer permits when mule deer permits are required.

- Immediately upon kill of a white-tailed deer the hunter must complete the log, in ink, on the back of the hunting license. Failure to complete the log as required may result in a fine not to exceed \$500 for each deer improperly logged. Asterisks indicate bucks with an inside main beam spread of at least 13 inches.
- Completion of the log is not required for mule deer, or for white-tailed deer or mule deer lawfully taken under a MLD permit, LAMPS permit, TPWD Special Drawn Public Hunt permit, U.S. Forest Service antlerless permit, or on a Big Time Texas Hunt.
- **WHITE-TAILED DEER HARVEST RESTRICTIONS** (as used in County Listings):
  - **MANAGED LANDS DEER (MLD) PERMITS:** Permits issued to landowners with a TPWD-approved Wildlife Management Plan. MLD permits allow hunters, at the discretion of the landowner or agent, to exceed the county bag limit and (in some cases) to hunt during an extended season. **All deer taken on a property for which MLD permits have been issued must be tagged with the appropriate type of MLD permit. NOTE: No license log entry or tag from a hunting license is required for deer killed under a MLD permit (see license log requirement, above).** For more information about Wildlife Management Plans, landowners should call TPWD at (512) 389-4505.
  - **LAMPS (Landowner Assisted Management Permit System):** LAMPS permits allow antlerless deer to be taken in counties where antlerless harvest is by permit only during the entire season or portion of a season. For more information, landowners should contact TPWD at (409) 489-0823 or visit [www.tpwd.texas.gov/business/permits/land/wildlife\\_management/lamps/](http://www.tpwd.texas.gov/business/permits/land/wildlife_management/lamps/).  
**All antlerless deer taken on a LAMPS property must be tagged with a LAMPS permit. This does not include antlerless deer taken during the Archery Only Season or Muzzleloader Only Season. NOTE: No hunting license log or hunting license tag is required for deer killed under a LAMPS permit.**
  - For information about antlerless deer permits on National Forest lands, please call the U.S. Forest Service in Lufkin at (936) 639-8501.

2	Rio Grande Turkey - Valid Only in a county for which the annual bag limit is four turkeys

## PROOF OF SEX

**Notice:** It is **unlawful** to possess a deer or pronghorn antelope **with proof of sex removed** unless the deer or antelope is at a final destination and has been quartered. Proof of sex for deer is:

- the head (skinned or unskinned) of a buck deer with antlers attached;
- the head (skinned or unskinned) of an antlerless deer;
- the unskinned head of a pronghorn antelope; or
- a completed Managed Lands Deer Permit (MLD), Landowner Assisted Management Permit (LAMPS), Antlerless Mule Deer Permit or TPWD Drawn Hunt Legal Deer Tag.

**Notice:** It is **unlawful** to possess a pheasant or turkey (turkey taken in a county where the bag composition is restricted to gobblers and/or bearded hens or taken during any spring turkey season) **with proof of sex removed**. The following is considered proof of sex and must accompany the pheasant or turkey until it reaches its final destination and is finally processed:

- Pheasant: one leg, including the spur, attached to the pheasant carcass or the entire plumage attached to the pheasant carcass;

- Turkey: in counties where the bag composition is restricted to gobblers and/or bearded hens, a male turkey is required to have one leg, including the spur, attached to the bird; or the bird, accompanied by a patch of skin with breast feathers and beard attached. In counties where the harvest of female turkeys is restricted to bearded hens, all harvested hens must be accompanied by a patch of skin with breast feathers attached.

**EXCEPTION:** Instead of proof of sex, the hunter may obtain a **receipt** from a taxidermist or a **signed statement** from the landowner or the landowner's agent containing the following information:

- Name of person who killed the wildlife resource;
- Date the wildlife resource was killed; and
- One of the following, as applicable: whether the deer was antlered or antlerless; the sex of the antelope; the sex of the turkey and whether a beard was attached; or the sex of the pheasant.

## After Killing a Deer (Also applies to pronghorn, except for License Log)

**IMPORTANT:** Special regulations may apply within designated CWD zones (see pg. 60).

- After a deer is killed and before the deer is field dressed or moved, the appropriate hunting license tag must be immediately filled out and date cut out (See Tagging Deer or Turkey, pg. 59).
- If a deer is taken under a LAMPS or MLD permit, the permit must be attached to the deer (see pg. 59).
- A hunter may transport a deer to a final destination (see Definitions, pg. 54), provided the deer is tagged and proof of sex accompanies the deer (see Proof of Sex, pg. 61).
- A hunter may skin and quarter a deer (two forequarters, two hindquarters, and two backstraps) and possess for transport, provided the quartered deer is tagged and proof of sex accompanies the deer. (See Cold Storage or Processing Facilities, below, for exceptions).
- A deer may not be processed any further than four quarters and two backstraps (example, steaks, hamburger, chili meat, etc.) until the deer reaches a final destination, except for immediate consumption in camp (see Processing Deer, Turkey, or Antelope in Camp).
- The four quarters and two backstraps are the only parts of a deer required by law to be kept in edible condition.
- If any part of a deer is transferred to another person before it reaches a final destination, then the transferred parts must be accompanied by a WRD (see pg. 100).  
The parts retained by the person who killed the deer must be accompanied by a tag until the deer reaches a final destination.

## Processing Deer, Turkey, or Antelope in Camp

- You are allowed to quarter a deer or antelope in camp, but tagging and proof-of-sex requirements continue to apply until the wildlife resource reaches a final destination (see Definitions, pg. 54).
- Deer or antelope may not be processed beyond quarters in camp unless the camp qualifies as a final destination.
- While in camp you may remove and prepare a part of a wildlife resource if the removal and preparation occur **immediately** before the part is cooked or consumed; however, all tagging and proof of sex regulations apply to remaining parts and those parts may be transported to a final destination.

## Cold Storage or Processing Facilities

A cold storage or processing facility may be established anywhere, including on property where hunting is conducted. It must be a **stationary** facility designed and constructed for the purpose of processing and/or storing game animals and game birds. A vehicle, trailer, or other type of mobile storage or processing arrangement **IS NOT** a stationary facility.

## Commercial Cold Storage or Processing Facility

- A person may place and maintain, or possess, in a cold storage or processing facility, lawfully killed game birds and game animals not in excess of the number permitted to be possessed by law, if:
  - the owner, operator, or lessee of the cold storage or processing facility maintains the record book as required by law with the name, address, and hunting license number of all persons placing game animals or game birds in storage, the number and species of all game animals and game birds in storage, and the date each game animal or game bird was placed in storage (information must be entered into the record book before game is placed in storage);
  - the name and address of each person who places a game bird or game animal in the facility, if different from the person who killed the bird or animal
  - tags, permits, or WRDs, when applicable, remain attached to birds until the birds are finally processed;
  - tags, permits, or WRDs, when applicable, remain attached to deer and pronghorn antelope until the carcass is quartered; and
- The owner, operator, or lessee of a cold storage or processing facility is required to maintain game birds and game animals in an edible condition.

## Cold Storage or Processing Facility on Hunting Lease

- If a cold storage or processing facility on a hunting lease (see Hunting Lease License, pg. 26) is made available to persons other than the landowner, the landowner's **nonpaying** family members, or the landowner's **nonpaying** guests, then a cold storage or processing facility record book is required. **EXCEPTION:** Deer or antelope that are properly tagged and accompanied by proof of sex may be temporarily placed in a non-commercial cold storage or processing facility on a hunting lease without being entered in the cold storage record book.
- Proof of sex and tagging requirements cease to apply when a deer or antelope has been quartered and entered in a cold storage record book.
- Once a deer or antelope that has been entered in the cold storage record book it may be completely processed.

## Private, Non-Commercial, Family Owned Cold Storage or Processing Facility

A cold storage record book is not required for deer or antelope placed in a private, family owned, non-commercial cold storage or processing facility that is not located on a hunting lease.

**NOTE: SAVE YOUR TAG and/or PERMIT.** After a wildlife resource reaches its final destination and tagging requirements have ceased, the possessor is encouraged to retain tags or permits in order to prevent delay or problems (cold storage or processor refusing to accept meat, etc.). When taking game (meat/head/hide) that you have processed at your home to a commercial processor, simply attach the appropriate hunting license tag or permit to the game.

## Taxidermist

Hunters who give any part of a game animal or game bird to a taxidermist for mounting must attach a **WRD** (not the tag from the hunting license or permit) to the part.

In return, for deer, pronghorn antelope, turkey and pheasant, the taxidermist must give the hunter a receipt as prescribed in "EXCEPTION" (see pg. 62). The **taxidermist "proof of sex" receipt** for the part must accompany the tagged carcass until it reaches its final destination and is finally processed. If the **taxidermist** places any game animal or game bird in cold storage, then the cold storage or processing facility record book is required by law. Without the appropriate record book and a WRD accompanying the game animal or game bird, a taxidermist may be exceeding the prescribed possession limits for game animals and game bird. Taxidermy information packets may be obtained by visiting the TPWD website at [www.tpwd.texas.gov/warden/forms](http://www.tpwd.texas.gov/warden/forms).

A taxidermist who accepts a deer or turkey shall retain the wildlife resource document or tag accompanying each deer or turkey for a period of two years following the return of the resource to the owner or the sale of the deer or turkey mount to recover taxidermy cost.

### PRONGHORN ANTELOPE (by permit only)

For all pronghorn harvested in Texas, a permit must be properly and completely filled out and attached anywhere on the pronghorn. Pronghorn permits are issued to the landowner or landowner's agent in most areas where there is an open season for pronghorn (the Trans-Pecos, Permian Basin and Panhandle); however, the department is testing an experimental, **buck-only** season in selected areas of the **Panhandle**. On properties within the experimental areas, hunters must obtain a **FREE** Experimental Pronghorn permit directly from the department or a participating local merchant, not from the landowner. Hunters must still obtain landowner consent to hunt (killing a pronghorn without **landowner consent** is a **felony**, see pg. 20). Additionally, hunters must present the entire head (intact) of any harvested pronghorn at a designated check station within 24 hours of take. For more information on the experimental buck-only season in the Panhandle, including maps of the areas, locations where permits may be obtained, and locations of mandatory check stations, call (800) 792-1112, or visit [www.tpwd.texas.gov/pronghorn](http://www.tpwd.texas.gov/pronghorn)

### DESERT BIGHORN SHEEP

Desert bighorn sheep may be hunted only by permit. Permits are issued to landowners or their agents in the areas of West Texas where bighorn sheep populations exist. A limited number of permits are also available through the department's public hunting program at [www.tpwd.texas.gov/huntwild/public](http://www.tpwd.texas.gov/huntwild/public). No person may possess a desert bighorn ram skull obtained after Sept. 1, 2003, unless the skull has been plugged by the department or the possessor possesses proof that the skull was legally obtained outside of Texas. Skulls found in the wild may be possessed, provided the possessor did not cause or participate in the death of the ram, and the department is notified within 48 hours of the skull/horns being found. Individual horns and hornless skulls may be possessed without identification or documentation.

### DEER (READ VERY CAREFULLY)

- **NEW SPECIAL LATE SEASON** (white-tailed deer only): There is a **NEW SPECIAL LATE SEASON** that replaces the Special Late Antlerless and Spike-buck Season in selected counties (see County Listings, pg. 76). During the Special Late Season, take is restricted to antlerless and "unbranched antlered" deer. An unbranched antlered deer is a buck deer with at least one antler that has no more than one point.
- **White-tailed Deer** - Except for deer taken under MLD permits, no person may take more than five white-tailed deer or more than three bucks (all seasons combined) in one license year. Bag limits in individual counties may be less (see County Listings).
- **Mule Deer** - The annual bag limit is two mule deer with no more than one being a buck (all seasons combined). See County Listings for antlerless permit requirements.
- **Buck Deer** - A deer with a hardened antler protruding through the skin. **ALL OTHER DEER ARE ANTLERLESS DEER.** A buck deer must be tagged with a buck deer tag from the hunter's hunting license or an applicable permit.
- **SPECIAL ANTLER RESTRICTIONS:**
  - Antler restrictions apply only in certain counties (see County Listings, pgs. 76-99). In these counties, the bag limit is **two legal bucks, but only ONE** may have an inside spread of 13 inches or greater. In these counties, a **legal buck deer** is defined as having:
    - a hardened antler protruding through the skin **AND**;
    - at least one unbranched antler; **OR**
    - an inside spread measurement between main beams of 13 inches or greater (does not apply to a buck that has an unbranched antler).
  - **IT IS UNLAWFUL TO TAKE MORE THAN ONE BUCK WITH AN INSIDE SPREAD OF 13 INCHES OR GREATER IN A COUNTY WHERE ANTLER RESTRICTIONS ARE IN EFFECT.**
  - To determine if a buck has an inside spread measurement of at least 13 inches, look at the distance from ear-tip to ear-tip on a buck with ears in the "alert" position (see illustration, pg. 65). The 13-inch or greater inside spread requirement does not apply to any buck that has an unbranched antler.
  - Does not apply on Level 2 or 3 MLDP properties.

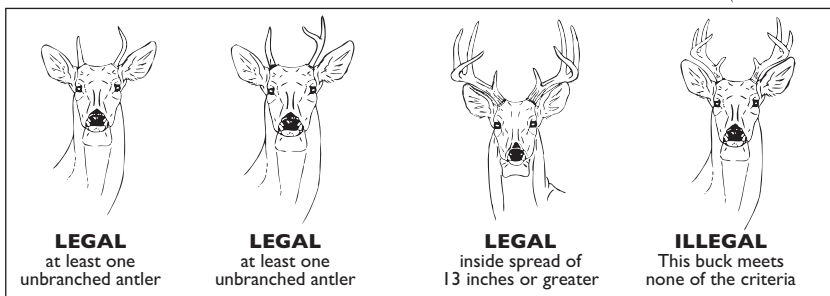

- **Definition of a point:** A point is a projection that extends at least one inch from the edge of a main beam or another tine. The tip of the main beam is also a point.

**Legal Point**

**Not a Point**

#### • **WHITE-TAILED DEER YOUTH-ONLY:**

- **Age Restriction:** **ONLY** licensed hunters 16 years of age or younger are eligible to participate in youth-only deer seasons. Youth Hunting License (Type 169).
- **Early Youth-Only Season:** Saturday and Sunday, Oct. 29-30, 2016. All legal hunting means and methods are allowed, except in Collin, Dallas, Grayson, and Rockwall counties, where lawful means are restricted to archery only (no crossbows except for youth with upper limb disability).
- **Late Youth-Only Season:** Jan. 2-15, 2017. The season is open in all counties where there is a general open season for white-tailed deer. All legal hunting means and methods are allowed, except in Collin, Dallas, Grayson, and Rockwall counties, where lawful means are restricted to lawful archery equipment and crossbows.
- **Bag Limits, take of antlerless deer, and special requirements:**
  - In Bell (E. of I-35), Delta, Ellis, Falls, Fannin, Franklin, Freestone, Hopkins, Hunt, Kaufman, Limestone, Milam, Navarro, Rains, Smith, Titus, Van Zandt, Williamson (E. of I-35) and Wood counties, the bag and permit requirements are the same as the period Nov. 24-27, 2016 for each respective county (see County Listings); and
  - For the remainder of the state, the bag and permit requirements are the same as for the first two days of the general season in the county (see County Listings).
  - In a county where antlerless deer may be taken **only** by permit, a permit is required to take antlerless deer during the youth seasons.
  - Antlerless deer may be taken without a permit on all USFS lands during youth-only deer seasons.
- Does not apply to properties that have Level 3 MLD permits, or in counties where there is no open general season for white-tailed deer.

#### **JAVELINA** (See **County Listings**)

**NOT the same as youth hunts on wildlife management areas.**

## ALLIGATOR

- Alligators may be taken under any resident or non-resident hunting license.
- In Angelina, Brazoria, Calhoun, Chambers, Galveston, Hardin, Jackson, Jasper, Jefferson, Liberty, Matagorda, Nacogdoches, Newton, Orange, Polk, Refugio, Sabine, San Augustine, San Jacinto, Trinity, Tyler, and Victoria counties (“core” counties), and on properties in other counties for which TPWD has issued CITES tags to the landowner, the open season for alligators is Sept. 10-30. In core counties and on special properties, no person may hunt an alligator without possessing a valid CITES tag on their person. CITES tags in these counties are issued to landowners following a site inspection and evaluation by TPWD. For information about tag issuance and requirements, contact the Alligator Program at (409) 736-3625.
- **In all other counties (non-core counties):**
  - **Open season:** April 1 - June 30. Alligators may not be taken during this season on any property where alligators were taken during the September season.
  - **Bag Limit: One alligator per person per license year.**
  - Alligators may be taken on private property **ONLY**. Alligators may be taken from public waters by all lawful means **EXCEPT FIREARMS**; however, the person taking the alligator and the taking device **MUST** be on private property.

    - IMMEDIATELY complete a Wildlife Resource Document (see pg. 100), which shall accompany the alligator until it is permanently tagged with a CITES tag;
    - Within 72 hours, complete an Alligator Hide Tag Report (see pg. 100) and mail it to Texas Parks and Wildlife Department, 4200 Smith School Road, Austin, TX 78744, along with a \$21 hide tag fee (check or money order only); and
    - Permanently tag the alligator with a CITES tag IMMEDIATELY upon receipt of the CITES tag in the mail from TPWD.
  - **Lawful hunting hours:** From one-half hour before sunrise to sunset. Between sunset and one-half hour before sunrise, no person shall set any baited line capable of taking an alligator, or remove an alligator from a line set.
  - **Means and Methods:**
    - Hook and line (line set). **Line sets must be secured on private property.** Hook-bearing lines may not be set prior to the open season and shall be removed no later than sunset on the last day of the season. Each baited line shall be labeled with a plainly visible, permanent, and legibly marked gear tag that contains the full name and current address of the person who set the line and the hunting license number of the person who set the line. Line sets shall be inspected daily and alligators shall be killed, documented, and removed IMMEDIATELY upon discovery.
    - Alligator gig
    - Hand-held snare with integral locking mechanism
    - Lawful archery equipment (with barbed arrow)
    - Lawful firearms. **IMPORTANT NOTICE:** IN CORE COUNTIES, FIREARMS MAY BE USED ONLY TO DISPATCH ALLIGATORS THAT HAVE ALREADY BEEN TAKEN WITH A LAWFUL TAKING DEVICE. IN ALL OTHER COUNTIES, FIREARMS MAY BE USED TO TAKE ALLIGATORS, BUT **ONLY** ON PRIVATE PROPERTY. IT IS UNLAWFUL TO TAKE AN ALLIGATOR BY MEANS OF **FIREARMS** FROM, IN, ON, ACROSS, OR OVER PUBLIC WATER. Centerfire **ONLY**; rimfire **UNLAWFUL**, except for dispatch.
    - An alligator captured on a taking device (line set, lawful archery equipment, gig, or snare) **MUST** be killed IMMEDIATELY. An alligator caught in public water on a taking device lawfully attached to private property may be dispatched with a firearm.
    - No person may employ more than ONE taking device at any time.
    - A line of at least 300-pound test must be securely attached to all taking devices other than firearms.

## Migratory Game Birds (Early Season)

Nothing in this publication authorizes any person to violate federal laws governing migratory game birds.

A migratory game bird endorsement is required to hunt any migratory game bird, including mourning doves.

A Federal Sandhill Crane Hunting Permit is required to hunt sandhill cranes.

### Dove, Teal, Gallinule, Rail, Snipe, and Woodcock

**NOTE:** Duck, merganser, coot, sandhill crane, and goose hunting dates and bag limits have not been finalized as of this printing. A separate digest containing general waterfowl regulations will be available in October wherever licenses are sold.

#### Please Report Dove Bands

Please check doves you shoot for bands and report them. The bands are very small and easy to overlook. Previous studies indicated half of banded doves taken by hunters were never reported.

**Please report bands online at [www.reportband.gov](http://www.reportband.gov) or to the toll-free telephone number 1-800-327-BAND [2263]**

### HARVEST INFORMATION PROGRAM (HIP) Requirement for Migratory Game Bird Hunters

No person shall hunt migratory game birds in this state unless that person is HIP-certified in Texas. When you purchase a hunting license, indicate to the license clerk that you intend to hunt migratory game birds and need to be HIP-certified. The clerk will ask you to answer a few simple questions. **The letters "HIP" should appear on your license to indicate that you have been HIP-certified.**

### Definitions

- **Aggregate Limit:** A daily bag or possession limit composed of more than one species.
- **Bait:** Salt, grain, or other feed, directly or indirectly placed, exposed, deposited, distributed, or scattered, that could serve as a lure or attraction for migratory game birds to, on, or over any areas where hunters are attempting to take them.
- **Baited Area:** Any area on which bait has been placed, exposed, deposited, distributed, or scattered so as to serve as a lure or attraction for migratory game birds to, on, or over areas where hunters are attempting to take them. Any such area will remain a baited area for ten days following the complete removal of all bait.
- **Daily Bag Limit:** The maximum number of birds as specified for each species which may be taken during the legal shooting hours of any one day.
- **Legal Shotgun:** Shotguns not larger than 10 gauge, fired from the shoulder, and incapable of holding more than three shells (shotguns capable of holding more than three shells must be plugged with a one-piece filler which is incapable of removal without disassembling the gun, so the gun's total capacity does not exceed three shells).
- **Manipulation:** Alteration of natural vegetation or crops, including but not limited to mowing, shredding, discing, rolling, chopping, trampling, flattening, burning, and herbicide treatments.
- **Migratory Game Birds:** Includes all wild species of ducks, geese, coot, rail, gallinules, snipe, woodcock, doves (mourning, white-winged, white-tipped or white-fronted) and sandhill cranes. Does not include exotic collared-dove.
- **Natural Vegetation:** Any non-agricultural, native, or naturalized plant species.
- **Normal Agricultural Planting, Harvesting, and Post-Harvest Manipulation:** A planting or harvesting undertaken for the purpose of producing and gathering a crop, or manipulation after such harvest and removal of a crop, that is conducted in accordance with official recommendations of State Extension Specialists of the Cooperative Extension Service of the U.S. Department of Agriculture.
- **Possession Limit:** The maximum number of migratory game birds that can be possessed at any time (three times the daily bag limit after the second day of the season).
- **Sinkbox:** A low floating device concealing a person below the surface of the water. **UNLAWFUL!**
- **Waterfowl:** Includes ducks, geese, mergansers, and coots.

## General Rules

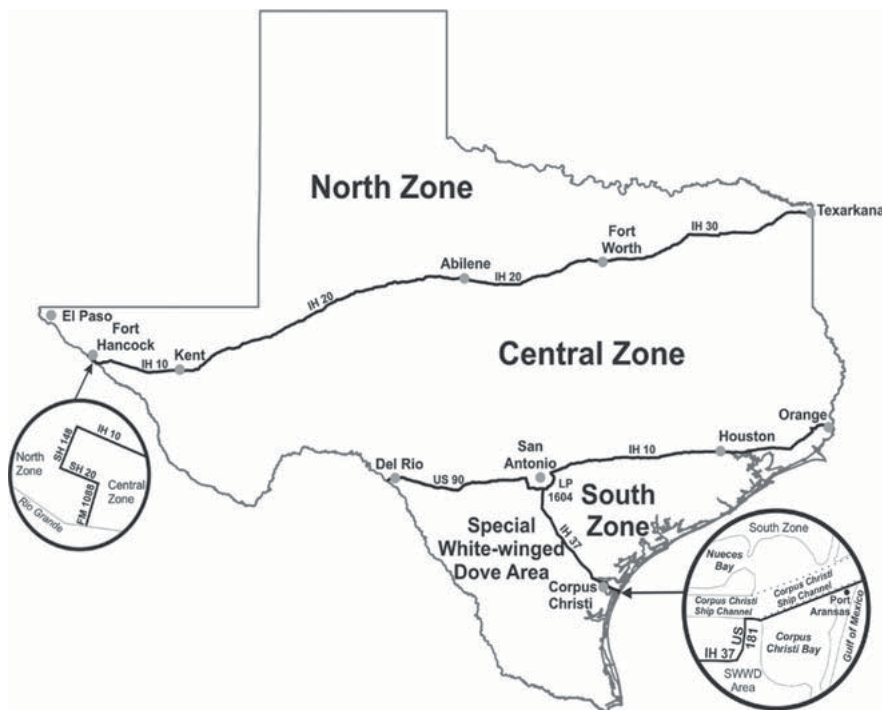

**NOTE: Hunters are responsible for knowing whether an area is baited or not.**

- **Baiting** (the following baiting rules have been established by the U.S. Fish and Wildlife Service):
  - A hunter **MAY** hunt any migratory game bird:
    - over standing crops, standing flooded crops, and flooded harvested crops
    - at any time over natural vegetation that has been manipulated
    - where seeds or grains have been scattered as a result of normal agricultural planting, harvesting, or post-harvest manipulation
    - over crops or natural vegetation where grain has been inadvertently scattered as a result of entering or leaving the field, placing decoys, or retrieving downed birds
    - using natural vegetation or crops to conceal a blind, provided that if crops are used, no grain or other feed is exposed, deposited, distributed, or scattered in the process
    - **except waterfowl and cranes** where grain or other feed has been distributed or scattered as the result of the manipulation of a crop or livestock feeding
  - A hunter **MAY NOT**:
    - hunt migratory birds with the aid of bait, or on or over any baited area
    - hunt over any baited area until 10 days after all baiting materials have been removed
    - hunt waterfowl or cranes over manipulated planted millet, unless the millet was planted more than one year prior to hunting
    - hunt waterfowl or cranes over crops that have been manipulated, unless the manipulation is a normal agricultural planting, harvesting, or post-harvest manipulation
- **Documentation:** All harvested migratory game birds not in the immediate possession of the person who killed them must be tagged with a WRD (see pg. 100) until the birds reach the possessor's personal residence and are finally processed. If a hunter's personal birds have been finally processed at a cold storage or processing facility and the hunter transports someone else's birds, then a WRD must accompany those birds until they reach the possessor's permanent residence.
- **Emergency Rule Changes:** These rules may be modified to make them consistent with federal regulations or to protect the wildlife resource through emergency action by the TPWD executive director.
- **Lawful Hunting Means and Methods:** Shotguns, archery equipment, falconry, dogs, artificial decoys, and manual or mouth-operated bird calls are lawful. Hunting is permitted in the open or from a blind or other type of concealment or from floating craft or boat provided that all motion resulting from sail or motor has ceased. Sails must be furled and motor turned off before shooting starts. A "sinkbox" is unlawful (see definition, pg. 68).

# Texas Big Game Awards Program

Texas Big Game Awards program exists to recognize the harvest of quality game animals in Texas. The program includes pronghorn antelope, mule deer, white-tailed deer, javelina and desert bighorn sheep. Entries must be scored by a TBGA certified scorer. For more information, entry forms, or to contact a certified scorer, call Texas Wildlife Association at (210) 236-9761 or go online: [www.texasbiggameawards.org](http://www.texasbiggameawards.org)

**How to determine the sex of an alligator:** This method is reliable for alligators over three feet. Locate the **cloacal opening**, which is on the bellyside of the alligator as noted in the drawing. This area is probed, males are verified if a penis is present, otherwise your report should note the harvest of a female. Your accurate documentation of measurements and other harvest data is essential for biological tracking. Do not assume that any alligator over eight feet is a male. This is not always the case. **The length of the alligator should be measured on the belly side. Measure down the center of the animal, from the tip of the top jaw to the tip of the tail.**

# TAKING THE SCALES TO THE FISH

BY  
RAY SASSER

**T**he Toyota Texas Bass Classic (TTBC) celebrated its tenth anniversary in May with a star-studded field of 38 pros casting for cash at Lake Ray Roberts. It included an outdoors expo and country music stars. The tournament benefits TPWD freshwater fishing programs, Neighborhood Fishin' in particular.

The TTBC got its start at Lake Fork, a challenging lake to host a pro bass tournament because of its restrictive slot limit, which protects bass between 16 and 24 inches. Most of the fish caught in a Lake Fork tournament cannot be brought to the scales. So if the fish can't go to the scales, the scales go to the fish. Each TTBC angler is paired with an on-board judge equipped with a hand-held certified scale. Fish are caught, weighed, recorded and then released.

The system worked well: it protected the integrity of Lake Fork's restrictive limit while showing what top bass pros can do on one of the nation's best fishing lakes. And as it turned out, they did just fine. Matt Herren, an Elite Series pro from Alabama took top honors in the 2016 tournament. He had a three-day total of 51 pounds, 12 ounces, just eight ounces heavier than the second-place finisher Bryan Thrift.

In 2015, California's Brett Ehrler won the tournament with 15 bass whose total weight was 89 pounds, 12 ounces. His best bass was the kind that makes Fork a world-wide fishing destination: it weighed 10 pounds, 11 ounces.

The on-board judge concept works so well that it was adapted for one of the more interesting television tournament shows, *Jack Links' Major League Fishing*. Each legal-sized fish counts during those elimination tournaments. Moreover, each fish caught is radioed by the on-board judge to all competitors, along with any change in standings.

Neither the TTBC nor Major League Fishing pioneered the idea of conducting a weigh-in without fish. That concept has been used by Texas bass clubs since the early 1970s. They called them paper tournaments: fish weights are estimated based on their lengths using a paper chart. "It's still used today," said Ed Parten, the vice president of the Texas Association of Bass Clubs. "We went to paper tournaments out of concern for the resource." Parten estimates as many as 25 percent of the TABC tournaments are paper tournaments.

These methods make fishing better for all anglers. They reduce fish mortality from excessive handling and they give biologists more flexibility to manage with harvest regulations.

# EVERY FISH COUNTS

BY ART MORRIS

**I**t is impossible to drain the ocean, count all the fish, and tell for sure what is going on with fish populations. It is, however, possible to take a kind of snapshot from time to time. If you do it for long enough and take as many snapshots as you can, you can make intelligent conclusions about what is going on in fisheries dynamics.

That's exactly what the TPWD Coastal Fisheries Division staff has been doing since the mid-seventies, in an effort to manage a diverse and vital state fishery that is arguably second to none. To accomplish that task, Coastal Fisheries staff has employed a random sampling strategy with gillnets, bag seines, trawls, dredges, and several other devices (including cameras) in every coastal bay system and a major portion of the Texas Gulf waters.

Roughly 250,000 samples (using gillnets, bag seines, trawls, and oyster dredges alone) have been collected and have revealed roughly 13 million finfish and more than 16 million invertebrates. No matter how many are collected, or what size or species it is, each finfish and invertebrate gets the royal treatment, identified, measured, counted, and some species even tagged before being released. Each observation contributes to the already-amassed millions of records for all species.

The TPWD resource-monitoring program is the longest continuously running program of its kind in the United States. While the tremendous database generated from this effort is the chief tool used to manage our fisheries, it is also shared with researchers all across the U.S., and even other countries. The data is also used for stock assessments, for setting policy in Gulf waters by the Gulf of Mexico Fishery Management Council, and for

creating fishery species management profiles by the Gulf States Marine Fisheries Commission.

While the primary focus is on the recreational and commercially important species, like shrimp, red drum, and spotted sea trout, no species is overlooked or underappreciated. Since the program began, the department has encountered over 700 different finfish and invertebrate species. After all, each organism is important to the entire ecosystem's health.

Over the 40-plus years of research, numerous peer-reviewed papers have been published and innumerable other publications created from the database. The sampling program has been peer-reviewed by other scientists and serves as a model that other fishery management programs imitate. The data has withstood legal review—and perhaps most importantly—the scrutinizing eye of public opinion.
