Re: Project review under Section 106 of the National Historic Preservation Act of 1966 and the Antiquities Code of Texas, repair of the Battleship TEXAS, Houston, Harris County, Texas  
(Navy/106/SAL, THC Track 201301759)

Dear Captain Pietras,

Thank you for your correspondence describing the above referenced project. This letter serves as comment on the proposed undertaking from the State Historic Preservation Officer, the Executive Director of the Texas Historical Commission, which is also the agency responsible for administering the Antiquities Code of Texas.

The review staff, led by Kelly Little and Mark Denton, has completed its review of the information provided, received on October 26, 2012. It is our understanding that the Navy requests concurrence on its amended effect determination for the undertaking at the Battleship Texas. Our office previously concurred with the Navy’s finding that the undertaking, namely the dry berthing of the Battleship Texas, could adversely affect the ship and the San Jacinto Battleground, both of which are historic properties. During consultation for the above undertaking, Texas Parks and Wildlife (TPWD) determined that it would not be able to pursue the dry berth project in the immediate future due to a lack of financing. As a result, TPWD determined that the ship needed to undergo major repairs to preserve the ship and avoid further deterioration.

Because the undertaking currently encompasses only repairs to the ship rather than construction of a dry berth, the Navy has amended its previous finding to reflect its new determination that repair of the Battleship will not adversely affect the ship or the San Jacinto Battleground. The SHPO CONCURS that the repair work as proposed will not adversely affect historic resources. We look forward to completion of the pending Programmatic Agreement for the repairs, which clarifies that work to the ship shall adhere to the Secretary of the Interior’s Standards for Historic Vessel Preservation Project, establishes a shore-side area for temporary construction activities, and lays out consultation procedures for any unforeseen circumstances that may arise once work is underway.

As the Battleship Texas and San Jacinto Battleground are also designated State Archeological Landmarks under the Antiquities Code of Texas (Texas Natural Resources Code, Title 9, Chapter 191 and Texas Administrative Code, Title 13, Chapter 26), our agency will work directly with TPWD on a permit for the proposed work.

Thank you for your cooperation in this federal and state review process, and for your efforts to preserve the irreplaceable heritage of Texas. We look forward to further consultation with your office and hope to maintain a partnership that will foster effective historic preservation. If you have
any questions concerning our review or if we can be of further assistance, please contact Kelly Little at 512/463-7687.

Sincerely,

Kelly Little, Project Reviewer
For: Mark Wolfe, State Historic Preservation Officer
