

Texas Parks and Wildlife Department  
Law Enforcement Division

Biennial Report for Small Unmanned Aircraft Systems Usage

January 1, 2023 – December 31, 2024

**Texas Parks and Wildlife Department**  
**Law Enforcement Division**  
**2023-2024 Small Unmanned Aircraft Systems**  
**Legislative Report**

This document satisfies the reporting requirements as listed in the Texas Government Code Sec. 423.008, relating to the reporting of unmanned aircraft systems operations by Texas law enforcement agencies.

The Texas Parks and Wildlife Department (TPWD) Law Enforcement Division Game Wardens and State Parks Division Police Officers operate Unmanned Aircraft Systems (UAS). All operators are FAA-licensed remote pilots. The TPWD UAS Program uses unmanned aircraft to accomplish TPWD Department and Division missions and goals of the conservation of natural resources and protection of human life and property.

Per current Texas Government Code Sec. 423.008:

- (a) Not earlier than January 1 and not later than January 15 of each odd-numbered year, each state law enforcement agency and each county or municipal law enforcement agency located in a county or municipality, as applicable, with a population greater than 150,000, that used or operated an unmanned aircraft during the preceding 24 months shall issue a written report to the governor, the lieutenant governor, and each member of the legislature and shall:
  - (1) retain the report for public viewing; and
  - (2) post the report on the law enforcement agency's publicly accessible website, if one exists.
- (b) The report must include:
  - (1) the number of times an unmanned aircraft was used, organized by date, time, location, and the types of incidents and types of justification for the use;
  - (2) the number of criminal investigations aided using an unmanned aircraft and a description of how the unmanned aircraft aided each investigation;
  - (3) the number of times an unmanned aircraft was used for a law enforcement operation other than a criminal investigation, the dates and locations of those operations, and a description of how the unmanned aircraft aided each operation;
  - (4) the type of information collected on an individual, residence, property, or area that was not the subject of a law enforcement operation and the frequency of the collection of this information; and
  - (5) the total cost of acquiring, maintaining, repairing, and operating or otherwise using each unmanned aircraft for the preceding 24 months.

The TPWD Law Enforcement Division and State Parks Police total cost during the 01/01/2023 – 12/31/2024 time period for acquiring, maintaining, repairing, and operating or otherwise using each unmanned aircraft is \$448,170.75.

Totals of Donations and Purchases used towards the above required actions:

Donations from the Texas Parks and Wildlife Foundation: \$249,599.22

TPWD Law Enforcement Division Funds: \$229,177.63

TPWD State Parks Division Funds: \$9,393.90

A detailed table containing the required data from all UAS operations performed by TPWD Law Enforcement pilots from 01/01/2023 – 12/31/2024 follows.

2/5/23 17:01	31.78,-100.45	LE Criminal Investigation	Yes	Requested by Coke County Sheriff's Department to assist in locating a felony subject that bailed out of a vehicle during a felony traffic stop on State Highway 208 (approximately 9 miles south of Robert Lee, Tx). Subject was believed to be carrying 30 grams of methamphetamine and had multiple felony warrants. Subject was not located.	No	-
2/6/23 22:18	31.16,-94.40	LE Search and Rescue	No	Was contacted by Game Warden James Barge about a lost 17-year-old boy that was supposedly suicidal and traveled into the woods off Bill Strickland Road. Flew on both sides of the road trying to pick up a heat signature. Hudson VFD and I were flying UAS in the area. There were K-9 units in the area searching too. The Sheriff of Angelina County called off the search due to not enough information and no evidence of anyone being in the area.	No	-

3/4/23 19:23	29.23,-99.89	Border Security	Yes	<p>Assisted DPS and Border patrol with search of individuals that evaded arrest in a motor vehicle and bailed out in a ranch.</p> <p>The last flight was short due to drone / battery malfunction. Received errors regarding battery issues, drone mobility limited, drone seemed to be throttled down at the end of the flight and was only performing in a decreased capacity (slower, harder to control). The battery had just been charged fully and indicated 100% at beginning of flight. By the end of the flight it was below 15% only 8 minutes later. Also gave a propeller error. Landed back at LZ ASAP and discontinued flights.</p>	No	-

11/12/23 17:26	31.27,-93.95	LE Search and Rescue	No	On Sunday November 12, 2023 I responded to a request from the Sabine County Sheriff's office to assist with a missing hunter. The hunter was lost in the Moore Plantation WMA off Texas Highway 83. Pineland VFD was there to assist. The sheriff's office was able to get GPS of his cellular phone. I flew a grid search hoping to pick up a heat signal through the dense woods. I was able to eliminate areas for the K-9 that was on scene. The hunter showed up on the highway about 2 miles down the road. He stated he was able to hear the drone, sirens, and saw the emergency lights through the trees. He was checked out by the EMS on scene and was able to return home.	No	-

5/3/24 9:15	30.30,-99.55	LE Search and Rescue	No	On May 3, 2024, I, Texas Game Warden Josh Sako was requested to operate a drone to attempt to locate a missing person that was known to cause harm to himself. The drone was deployed near Interstate I-10 and Stapp Ranch Rd (30.302, -99.546) in Kimble County, Texas. The drone began the search to locate the individual. A deer stand was located about 500 yards from the home point, that is when two Texas Game Wardens were sent to clear the structure. While heading to the structure the two wardens discovered the individual on top of the creek bed with (30.304638, -99.545383) what looked like a single gunshot self-inflicting wound to the head. After more units arrived on scene, the drone was sent back to home point where the mission was terminated.	No	-

Date/Time	Location	Purpose	Criminal	Short narrative	Info. collected	Yes Info
8/18/24 16:03	31.66,-99.78	LE Surveillance	Yes	Game Wardens from the Runnels Co area located a female walking on the highway. They made contact and she stated her and a male friend and another guy were in a vehicle the night before and went hog hunting on a ranch. Driver parked and left w/his dogs and her and her male friend stayed with the vehicle. At daybreak they left and started walking. He walked back toward the vehicle on a large ranch and she went to the house near the highway. Last time he was seen was 9am. His phone was left behind and he was shirtless. Due to the extreme heat and him being lost for extended period of time, we flew to locate the subject. About 10pm, I spotted the male with my thermal camera. He stated he heard drones and set the legs to his pants on fire with an e-cigarette. We were able to walk ground units in to rescue subject and bring him to medical care.	No	-
