

TEXAS GAME WARDEN Recruiter's Corner

March 2018

Warden Spotlight Series (Q&A with Texas Game Warden Hallie Rodriguez, El Paso County, 8 years of service.)

How has being a former Law Enforcement Intern helped you in your career as a Texas Game Warden?

I have been a Texas Game Warden for 8 years and I can honestly say that without the Law Enforcement internship program, I may not be here today. I have always wanted to be a Texas Game Warden, but my time as an intern was truly the cornerstone in my decision to pursue this career. During my internships, I worked along-side some really great wardens that taught me sometimes you can do a lot more with a friendly hand shake, than you can with a ticket book. Since I am stationed in an urban area, I may be the only game warden some people ever see their entire lives, so it is important for me to leave them with a good lasting impression. Playing an active role as an intern and seeing how those interactions can form a lasting impression on not only a person, but a community, is something you can't understand through a recruiting pamphlet. My time as a Law Enforcement Intern definitely paved my career path toward who I am today, a proud Texas Game Warden.
